

Gamers experience Black Myth: Wukong at ROG Day Season 3

Gamers were able to try out Black Myth: Wukong on Asus ROG laptops with super-resolution screens up to 3K.

The annual ROG Day Season 3 - Where TrueFans Rise event was recently held by Asus in Ho Chi Minh City, connecting the gaming community and technology enthusiasts with more than 1,000 attendees. During the event, the latest computer models were displayed with the game Black Myth: Wukong pre-installed for technology enthusiasts to experience.

Experience the game Black Myth: Wukong on the computers displayed at the event.

Specifically, the event was marked by revolutionary products such as ROG GX700 - the first gaming laptop using water cooling, ROG Mothership - a configuration "monster" with an innovative vertical design, ROG Zephyrus Duo 16 - the first dual-screen gaming laptop, ROG Flow Z13 - the world's most powerful gaming tablet,.

In addition, the latest products are also on display, such as ROG Strix SCAR 18 - the world's most powerful gaming laptop, the ROG Zephyrus G14/G16 duo redefining premium thin and light gaming laptops, and the TUF Gaming A14 leading the mainstream segment. In addition, a comprehensive ecosystem from hardware, gaming "toys" to advanced technology such as ROG Nebula Display, ROG Intelligent Cooling is also

demonstrated.

Sharing their experience of Black Myth: Wukong on new Asus ROG laptops, many gamers commented on the smooth experience, especially the "eye-pleasing, ear-pleasing" feeling on super-resolution screens up to 3K. The gameplay is also responsive thanks to the gaming gear ecosystem such as ROG mice and keyboards.

Not only limited to activities for TrueFans, ROG Day is also a festival for gamers and technology lovers to interact. GAM Esports team - a long-time partner of ASUS ROG was present at ROG Day and interacted with TrueFans with friendly matches creating a vibrant atmosphere.

In addition, TrueFans also met Ngo Sam - founder of Gia Dinh Ngo, to share about his content creation journey and interesting stories revolving around the ROG Zephyrus laptop that Ngo Sam owns.
