Gapo is one of Vietnam's social networks, developed and operated by Gapo Technology Corporation. This social network works with the domain name gapo.vn and officially launched today, July 23, 2019.

As explained by this MXH, the phrase Gapo means 'meet?' or 'meet online', is a combination of GAP (meeting) and O (online or not?).

MX Gapo has a predominant color that is different from Facebook as a blue tone.

Gapo has an interface designed in 3-column layout, quite friendly and easy to use. Gapo.vn profiles are quite similar to Facebook but more elegant.

Gapo allows users to identify their accounts to protect and secure benefits if there is a dispute while helping users avoid losing accounts or getting bad accounts for scam relatives. To login to this MXH, you can log in with your Facebook account, Google account or register a completely new account.
