

Gateway introduces Netbook with integrated DVD burner

After the Eee PC 1004DN, the market began to pick up the next Netbooks equipped with DVD drives, typically EC14D, from Gateway.

After the Eee PC 1004DN, the market began to pick up the next Netbooks equipped with DVD drives, typically EC14D, from Gateway. This netbook has an 11.6 "wide screen with a resolution of 1366 x 768 pixels, the expected price of \$ 630.

Due to the integrated 8X DVD burner, the configuration of the Gateway EC14D is also stronger than that of other Netbooks: Intel dual-core CULV SU4100 (1.3GHz, 800 bus, 2MB cache), 4GB DDR3 RAM, drive 320GB hard and Intel GMA 4500MHD integrated graphics (support Full HD video decoding).

More robust configuration than Atom, it can be said that DVD burning tasks will not make it difficult Gateway EC14D. Other connections include: 3 USB, HDMI, VGA, memory card reader, LAN, WiFi N, integrated webcam and multi-touch mouse pad.

The Gateway EC14D measures 292 x 211.5 x 30 mm, which will soon be sold for \$ 630.
