## How to unlock the Companion Event in Genshin Impact

Each character has 5 or 6 different endings to their events, depending on the player's choices. To collect rewards (including character experience points, food, and Primogem Primers), gamers need to unlock all endings. Hangout Events will not be locked behind any of the time portals, so players can spend their time doing them whenever they want.

To unlock a character's Companion Event, everyone will need to use 2 Story Keys. For every 8 Daily Commission you will get 1 Story Key, so it takes 4 days to unlock a character story. Once unlocked, the player will not need to use any more keys.

To access the Hangout Event, open the log and click Story Quest in the bottom left corner. Click the tab with a book icon to select the Hangout Event you want to perform. Currently characters with Companion Events are:

1. Noelle

2. Chongyun
3. Bennett
4. Barbara
5. Thomas
6. Sayu
7. Beidou
8. Gorou
9. Yun Jin
10. Ningguang

After completing the first route, the story can continue from where it started, so gamers won't have to start all over again just to have different endings.

To pick up at a specific point, click the task you want to continue, then select **Begin Hangout**. During playback, the game will show which lines everyone has chosen, helping everyone find different paths to the ending.
