

Genshin Impact: Instructions to collect lightning seals to receive the magic Sakura tree reward

Genshin Impact: Instructions for collecting lightning seals to receive the magic Sakura tree reward, Collecting lightning seal is an important step to help players complete the upgrade of the magic Sakura tree

The Magic Sakura Tree in Inazuma City is a famous location in Genshin Impact. The people of Inazuma often visit this sacred tree to pray for good luck in life. Here are all the details, rewards, and instructions on how to find lightning seals to give this tree.

Uses of the magical Sakura tree

Magic Sakura tree at the back of Grand Narukami Shrine, Inazuma

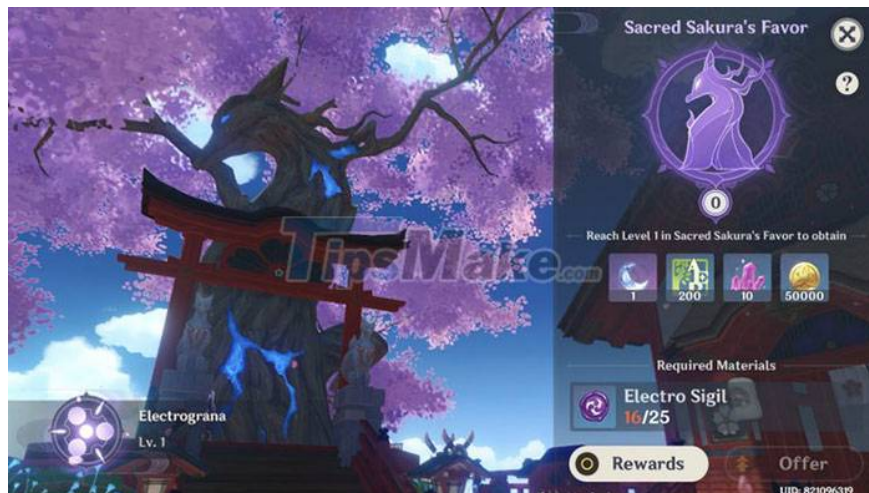

This is a large Sakura tree behind Grand Narukami Shrine, Inazuma. It creates Sakura Blooms for Electro characters to collect using their elemental skills. Sakura Blooms are also an important ingredient for many dishes in Inazuma.

In addition, this is a necessary material for many new characters from Inazuma, including Kamisato Ayaka. The player can also use this sacred Sakura tree to teleport to Mt. Yougou.

The reward from the sacred Sakura tree

Travelers need to collect thunderbolts to supply plants and for leveling up, which requires 25 thunderbolts per level. Each time you level up, the tree will give the Traveler a lot of rewards. In particular, when the tree reaches

level 17, the player can unlock new abilities for Electrograna.

Each level up of the divine Sakura requires 25 lightning seals

There are 50 levels of Sakura trees to upgrade. Upon reaching level 3, the player will receive Eternal Current. In the first 5 levels, everyone will receive the following rewards according to each level:

1. 50000 Mora
2. 10 Magic Minerals Cast
3. 200 EXP
4. Items and materials: Reunion, Fragile Plastic, Eternal Philosophy, Northlander Sword Embryo, Intellectual Crown.

To get these rewards, travelers need to collect as many lightning seals as possible. From level 6-50, the player cannot preview the reward.

The reward from the magic Sakura tree

How to collect lightning seals

In Grand Narukami Shrine, players will encounter the majestic sacred Sakura tree, a tree that began to grow around the events of the Archon War. Players of Adventure Rank 30 or higher who have completed the Ritou Escape Plan (part of the Inazuma Archon Quest) can begin interacting with it.

Providing 25 thunderbolts will upgrade Sacred Sakura's Favor and gain amazing rewards from Acquaint and Intertwined Fates, Crowns of Insight, Mora, and more. Doing this will also increase the benefits of carrying Electrogranum, making the journey to explore Inazuma easier.

With 40 levels and counting, here's how players can equip enough lightning seals to level up the sacred Sakura tree.

Open chest

Players can open chests everywhere in Inazuma to receive lightning seals

When a chest is found in Inazuma, the player will receive a lightning seal (Electro Sigil). Another source is from the Seven Angels Idol rewards. Players can check the chest locations in Inazuma in the Genshin Impact Interactive Map.

Chests are common throughout Inazuma and each has different item values. Certain chests are locked by puzzle or by enemies, but completing the quests required to unlock these chests is usually relatively straightforward. Chests found in the open world will usually contain weapons, adventure exp, and the gift of Primeval Stones with a lightning seal inside.

Upgrading the Seven Angels Idols

Upgrading the Seven Angels also helps players get lightning seals

Players will be granted lightning seals when upgrading the Seven Angels. Travelers can collect various Electroculus - purple Oculus floating around Inazuma while exploring the country to dedicate these statues and level up it. Electroculus are represented by a sparkling icon on the map when the player approaches them. In addition to many of the usual rewards like in Mondstadt and Liyue of the Seven Angels, travelers will receive some lightning seals from these statues.

Complete the territory challenge

The final way to get the lightning seal is to complete the territory challenges. Once completed, the traveler will be given a chest with many rewards, including lightning seals. However, not all territories in Inazuma reward players with valuable items. Complete territory challenges in Inazuma to receive 5 lightning seals each time:

1. Formation Estate - Jakotsu Mine (Yashiori Island)
2. Moshiri Kara - northern Tsurumi . island
3. Palace in a Pool - Suigetsu Pool (Watatsumi Island)
4. Shakkei Pavilion - southeast of Tatarasuna
