

## 'Get 5 to do 10, smart or crazy'? The secret to finding yourself

How to find yourself? This is a question that many people have to think about, especially young people. The secret to finding yourself is so simple and so profound is to answer the question 'Get 5 to do 10, smart or crazy?'

How to find yourself? This is a question that many people have to think about, especially young people. The secret to finding yourself is so simple and so profound is to answer the question 'Get 5 to do 10, smart or crazy?'

Imagine, you go for an interview for a company. With your ability, you should get a salary of 10 million or more, but the company only pays you at 5 million. In this situation, if you refuse, there is nothing to discuss. However, if you accept to work with that salary, how do you work with your attitude / attitude, do it in a 10 million, or 5 million style, or do it differently? Follow a passionate commitment, do it responsibly, or just do it through a coping speaker .?

1. Answer A: type 5 million
2. Answer B: type 10 million
3. Answer C: type 15 million
4. Answer D: type 2.5 million
5. Answer E: type 1.5 million

In these 5 answers, which option would you choose for yourself? Let's find ourselves with the following answers.

1. If you choose option A - do 5 million style - then what will you get and lose? If you follow this style, you certainly won't lose money, because the company pays you 5 million then you do it with 5 million. However,

what you lose is your faith and dignity. Because in today's working environment, most companies pay their salaries, so no one knows how much you will get, but with your working attitude, you will definitely be thought of by your boss and colleagues. Not good about you, they are willing to forget you because you cannot prove your ability nor have the spirit of dedication and rise. Remember that if you do not take further steps at work, do not be surprised when your boss does not make further decisions for your path of honor.

Remember, I make money, not money. Do not lose it and lose yourself and the opportunities should belong to you.

2. For those who choose option B, get 5 in 10 style, what will you get? If you follow this style, the first thing that can be most easily noticed is that you will lose 5 million. However, your gain is very much, you are not 'lost yourself', keep your faith and live right with your people and abilities. So, wise people will choose to make this 10 million.

3. If you choose answer C, then you are a special person in a multitude of people. Because there are very few people who get paid 5 million but can do 15 million. Why? Because they understand that 'The best way to know who you are is to forget yourself when you do something good when serving others' (Mahatma Gandhi).

Doing a 10 million model apart from losing money, you lose something equally important (especially for those who haven't found themselves), is to lose an opportunity to know who you are. Therefore, even though they are paid at 5 million as well as the ability at 10 million, they still try to do their best in 15 million style. Because they understand that your choice, your attitude of life and your working attitude will determine 'who you are' and make you 'become human'.

Although "losing money" but what you get is finding yourself, this is extremely important for young people today. Don't think that these people are unwise. They do so because they are passionate about the work they are doing, working responsibly. And the people we live in need to have a goal, maybe their goal will be a higher number, not small things in the immediate future.

4. In fact, there are many people despite their ability to make 10 million, but the company pays 5 million but they do not follow the 10 million style, do not follow the 5 million style, nor do they follow type 15 million,

which they will do in a style of 2.5 million, making a faint way. If you still maintain this type of work, then until the end of the spring, you cannot find out who you are and what you like.

5. Finally, there is another type of person, who is paid 5 million, only makes up for 1.5 million, but in front of the boss and everyone always seems to be a 3 times enthusiastic employee everybody.

What do the 5 million, 2.5 million, 1.5 million stylists think of 10 million and 15 million stylists? . What do the 10 million and 15 million stylists think of who do style 5 million, 2.5 million, 1.5 million? Perhaps they will not think much, do not look down, nor pity, perhaps they just silently boast about themselves. Because, maybe I did the same day before. I'm just lucky to recognize some things a little earlier than the others, and so my attitude of living and doing things is different.

If you are a 15 million-styled person and you are an "oblivious" worker, doing a 10-million style is doing "hard work", then making a 5 million style is doing "half-hearted", doing style 2, 5 million is "lose yourself" and follow the style of 1.5 million is "sell yourself". In short, a 15 million style is "passionate" or "engaged", doing 10 million style is "responsible", and doing 5 million, 2.5 million and 1.5 million styles "deal".

The above is the most effective way for you to discover your hidden abilities. Live and work hard and work with your ability, don't lose your money and lose yourself and lose your future.

Wish you have the best choice.
