

Good apps on Windows 8

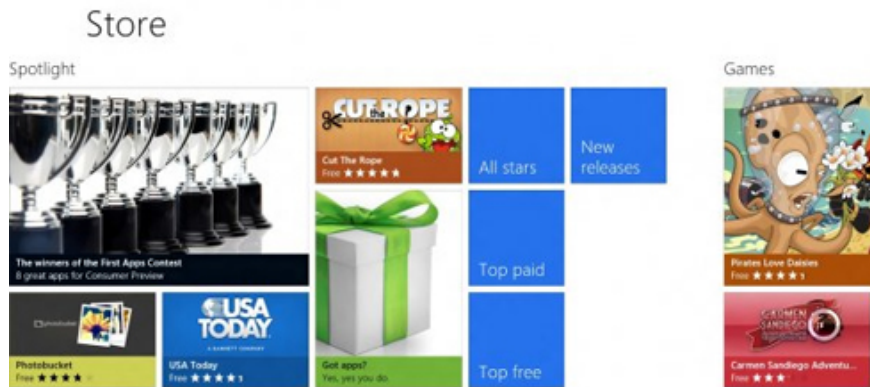

The test of Microsoft's new operating system has exceeded 1 million downloads in the first day. One of the new features of this platform is the application store.

The test of Microsoft's new operating system has exceeded 1 million downloads in the first day. One of the new features of this platform is the application store.

Windows 8 on the computer can run all programs running on Windows 7. Besides, Microsoft provides its own application store for people to easily find and install. This Windows Store is still being developed but there are a few free and interesting applications.

Meanwhile, US software group announced on Twitter that Windows 8 Consumer Preview attracted 1 million downloads including 32-bit and 64-bit versions directly on Microsoft's website. This number does not take into account downloads through other sharing sites.

Explore the Windows Store app store:

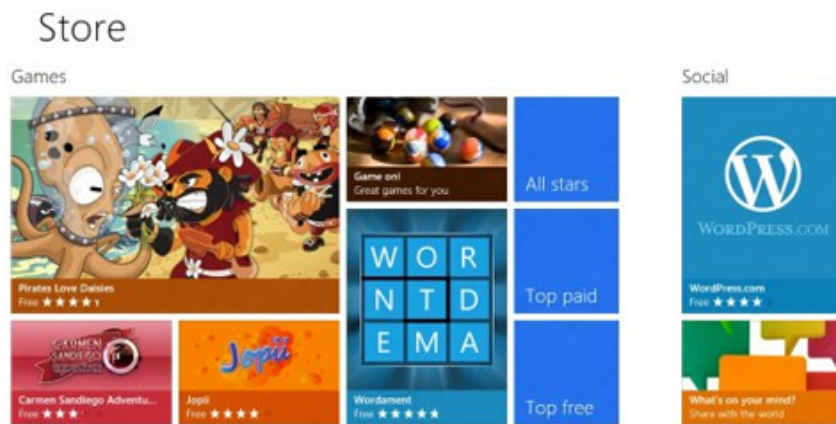

Store is designed in a horizontal line, starting with Spotlight introducing outstanding apps.

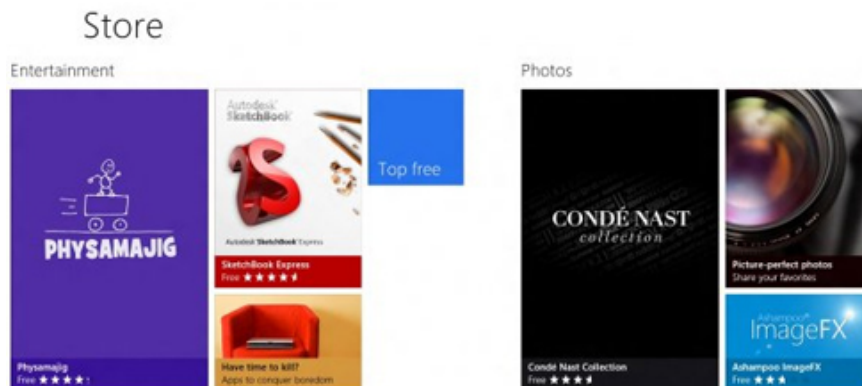

← The winners of the First Apps Contest 8 apps

Those are the winning applications in the application writing competition organized by Microsoft.

Moving the mouse to the right, users will see applications divided by categories such as Game, Social Network.

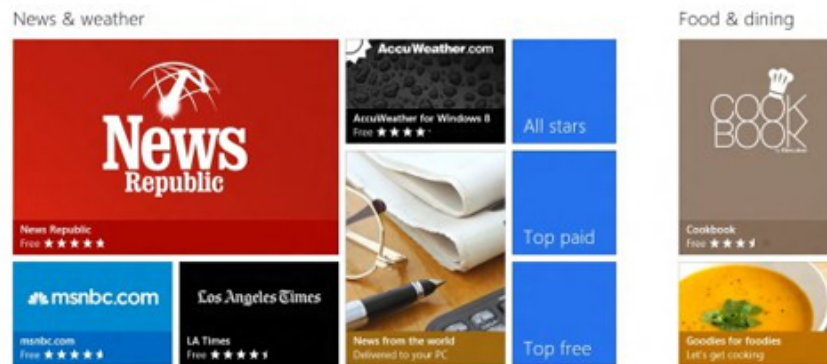

Entertainment and photos.

Store

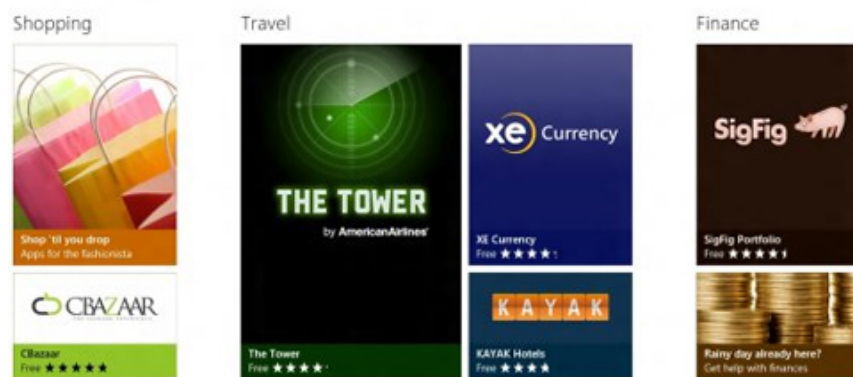

Music, videos and books.

Store

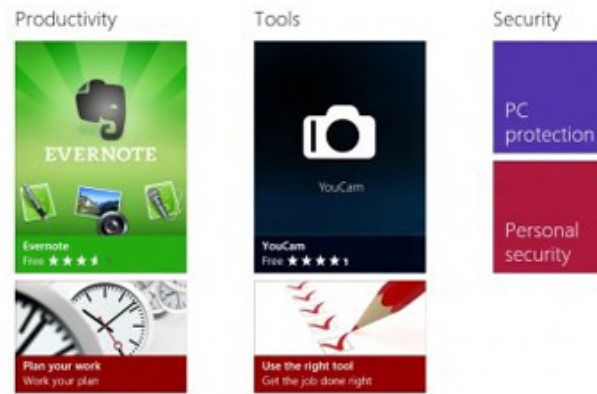

News, weather, cuisine.

Store

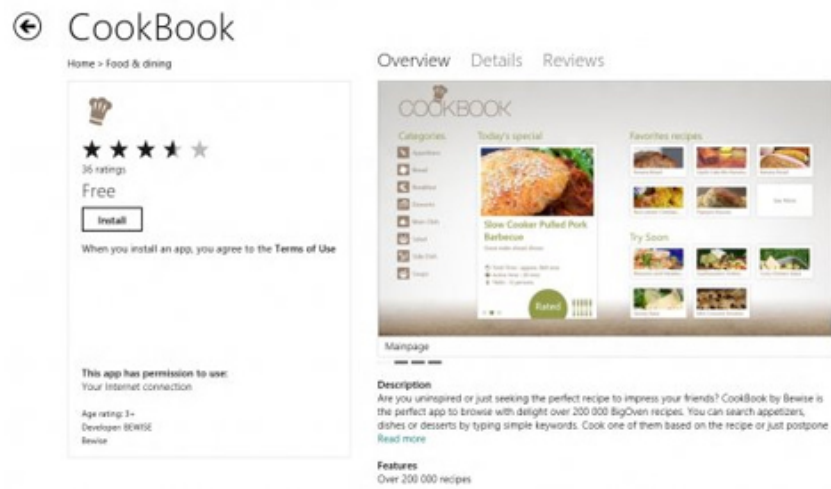

Shopping, travel, finance.

Store

Finally, office applications, tools and security.

CookBook application provides recipes of more than 200,000 dishes.
