

Good battery laptop according to each criteria

HP Mini 5102 has a battery life of up to 10.5 hours continuously while the ThinkPad X201s is the number one choice for entrepreneurs.

HP Mini 5102 has a battery life of up to 10.5 hours continuously while the ThinkPad X201s is the number one choice for entrepreneurs.

To evaluate the quality of a laptop requires a lot of criteria. However, considering the battery life is the top priority, the following models are worthwhile options. The battery life listed in the article is the actual test result according to Laptopmag page, not simply taking data from the manufacturer.

Best battery netbook: HP Mini 5102

Mini 5102 has a 10.1-inch screen with hardware configuration including Atom N450 processor with 1.6GHz speed, 2GB RAM, 160GB hard drive. HP's netbook has many advantages such as solid design, good keyboard, water overflow, superior quality audio speakers compared to competitors of the same range and many colors to choose from.

Mini 5102 impresses with up to 10.5 hours of battery life. But the price of this model is higher than the average of other netbooks (about US \$ 500 in the US market). Currently this model has not been sold yet in Vietnam.

The best ultraportable mid-range laptop battery: Acer Aspire Timeline 1810TZ

Acer Aspire Timeline 1810TZ. (Photo: Acer) .

Thanks to the Intel Pentium SU4100 low-voltage processor with 1.3 GHz, the Timeline 1810TZ has an impressive battery life of up to nearly 9 hours continuously. This model is also equipped with screen size 11.6 inch 4GB RAM memory, 320GB hard drive speed 7,200 rpm but graphics processing capability is not good because only integrated graphics chip is Intel GMA 4500MHD.

Timeline 1810TZ also has some other advantages such as good keyboard, rugged design and HDMI port. Currently there are no machines appearing in Vietnam, the starting price in the US market is 579 USD.

Laptop for best battery entrepreneur: Lenovo ThinkPad X201s

Lenovo ThinkPad X201s. *(Photo: Lenovo)* .

If you want to " buy " a laptop for work, the ThinkPad X201s is the first choice thanks to its masculine, classy, rugged design but quite light. This model owns a large resolution anti-glare screen with high performance thanks to Intel Core i7 processor, 4GB RAM for continuous use up to about 8 hours 30 minutes.

However, this model also has some disadvantages such as no webcam, slow speed hard drive (only 5,400 rpm).

Lenovo ThinkPad X201s is currently available in Vietnam via a portable route for a reference price of around 1,800 USD.

Best slim light battery: MacBook Pro 13 inch

Apple MacBook Pro 13.3 inches. *(Photo: Apple)* .

As part of Apple's recent upgrade series, while not using Intel Core i series processors, this version is still strong thanks to the discrete graphics card and battery life of up to 8 hours. The 13-inch MacBook Pro has a number of other advantages such as good design, good keyboard, large, sensitive and accurate touchpad.

However, the device has only two USB devices, a glossy screen and a much more expensive price than laptops with the same configuration.

This MacBook Pro has a 13.3-inch LED backlight display, DVD read / write optical drive and comes pre-installed with Mac OS X Snow Leopard operating system with a reference price of VND 28,280,000 for the chip version. Core 2 Duo 2.4 GHz speed and 35,990,000 VND for a 2.66GHz Core 2 Duo chip

Best ultraportable laptop battery: MacBook Pro 15 inches

Apple MacBook Pro 15 inches. *(Photo: Apple)* .

The new MacBook Pro 15 inch has been upgraded with a powerful Intel Core i7 processor, NVIDIA GeForce GT 330M discrete graphics card and switch mode with integrated graphics chip to increase battery life up to approximately 8 hours customary The device has a convenient keyboard backlight and a large, sensitive and precise touchpad.

However, the 15-inch MacBook Pro has a few drawbacks, such as a fairly hot run, less connectivity ports, and an uneasy price.

Currently in Vietnam, the 15-inch MacBook Pro uses a Core i7 chip clocked at 2.66GHz with a reference price of VND51,590,000.
