

# Good tips for Facebook

With the popularity of the social network Facebook, surely the tips we introduced below will be very helpful for you, increasing the fun to use. Let's refer to offline.

With the popularity of the social network Facebook, surely the tips we introduced below will be very helpful for you, increasing the fun to use. Let's refer to offline.

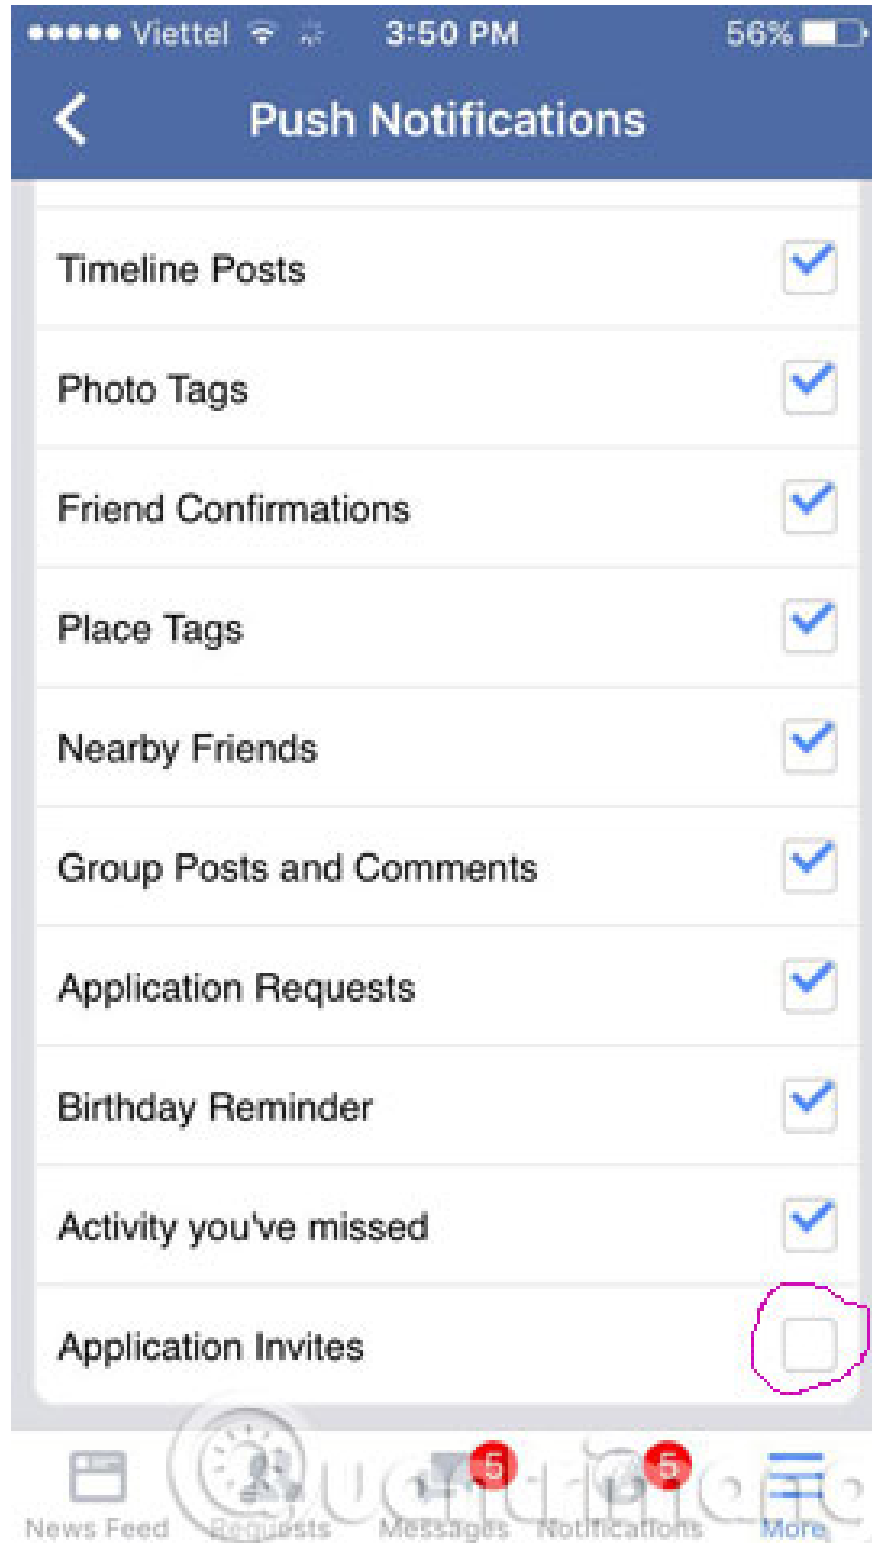

## 1. Save great content on Facebook

When you see an interesting content on Facebook that you want to review later, you can save this content by clicking on the arrow of the shared post and selecting **Save Post** . The saved content will be in your **Saved** Facebook section

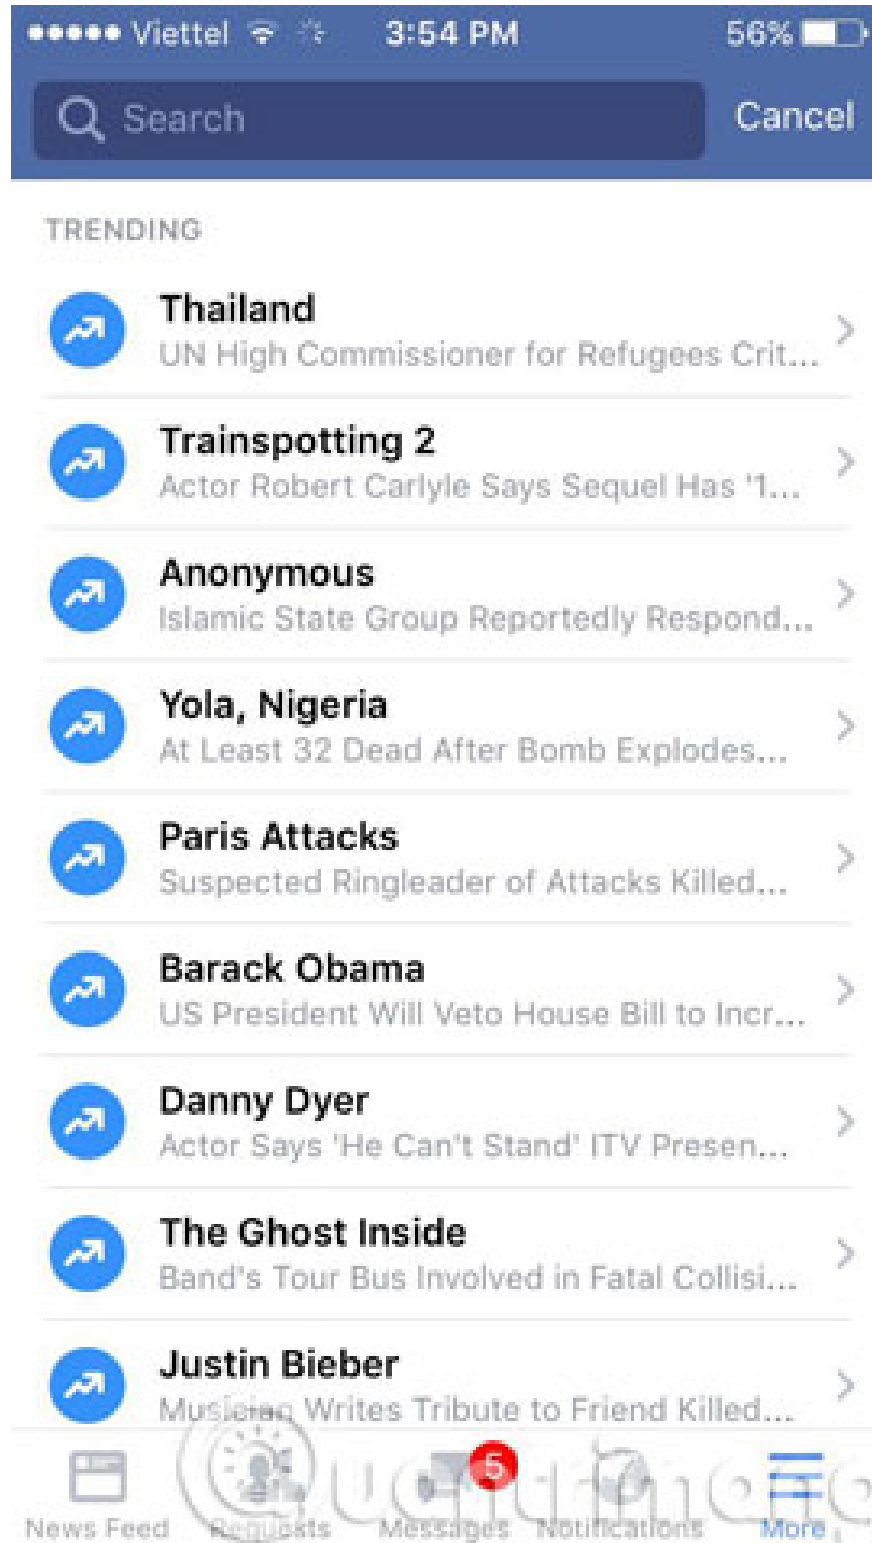

## 2. Block game invitation notifications

Have you ever felt uncomfortable because you received too many invitations to play games on Facebook? To remove this annoyance, select items like **More > Settings > Account Settings > Push Notifications**, then uncheck the **Applications invitation** button. Game invitations will never bother you again.

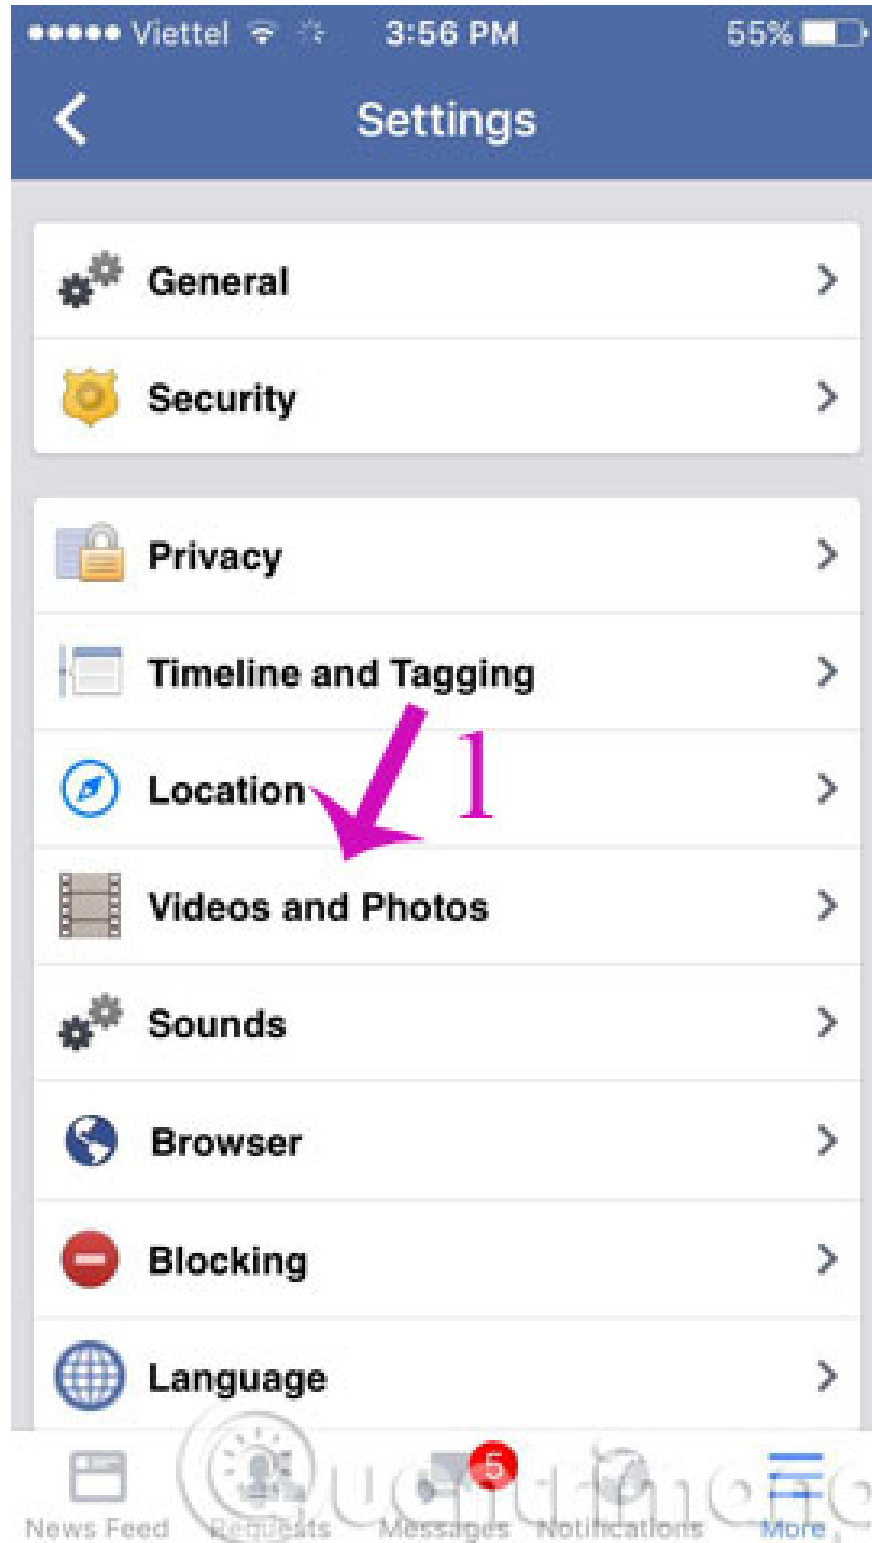

### 3- Search trends on Facebook

You can know what is hot on Facebook by visiting the trend list on News Feed if you use Facebook on your computer. In case you are using the Facebook application on your phone, simply click on the search bar, the list of hot trends on Facebook will appear.

#### 4- Turn off video autoplay function on News Feed

Facebook's auto-play function will definitely make many people uncomfortable and make their phones battery-consuming. Fortunately, you can turn it off by selecting **More > Videos and Photos** and then switching the status to Never or just automatically running the video when connected to Wi-Fi.

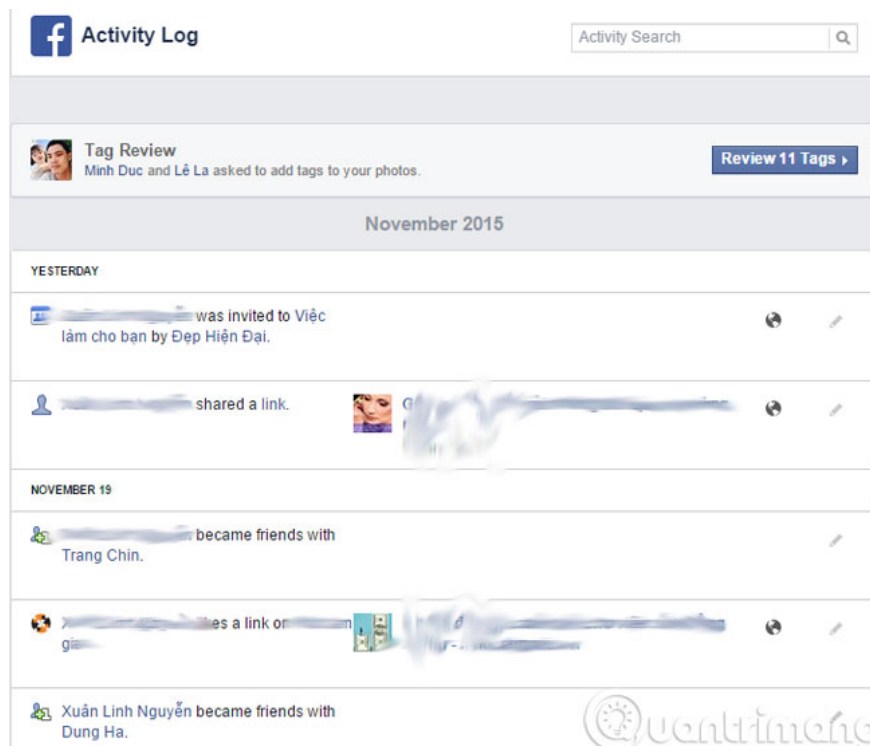

## 5- Function of this day in the old days

Facebook's On This Day function lets users know what the previous year they are doing. Just visit here, you will know what days ago I was doing. On the other hand, you can also share your past jobs on Facebook with friends and relatives.

## 6- Operation history

Facebook provides an Activity Log function that allows users to see all of their Facebook activities. You just need to type the **Activity Log** on the search bar to access this feature or click the **View Activity Log** button below the Cover image.

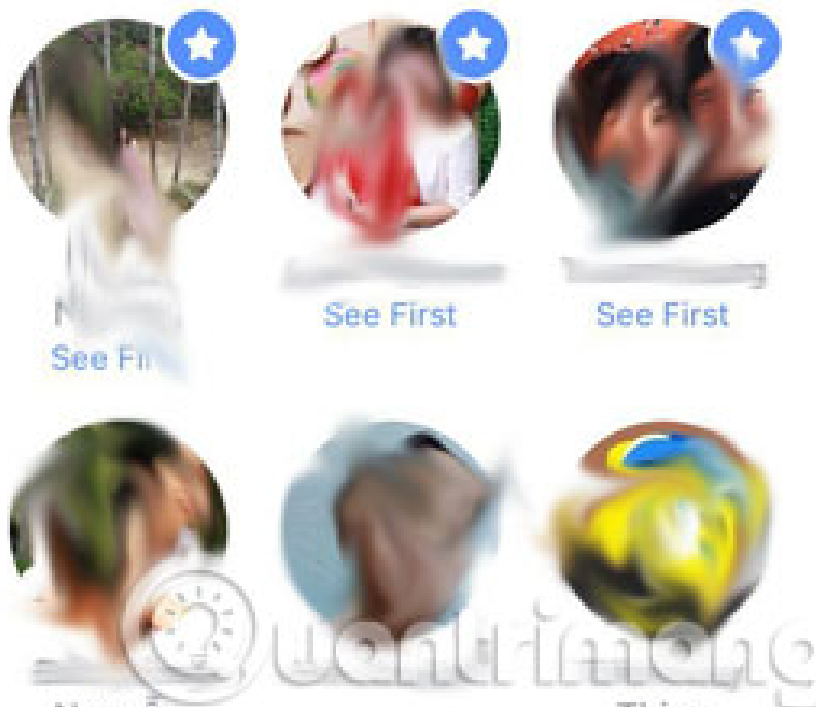

## 7- Arrange News Feed information

You can rearrange information on the News Feed by visiting **More > Settings > News Feed Preferences > Prioritize who to see first** on the Facebook app. Then, filter information from the people you want by adding a blue star. For these people, information from them will always be displayed on your News Feed.

### Prioritize Who to See First

Choose whose posts you don't want to miss. You'll always find them at the top of your News Feed. [Learn More.](#)

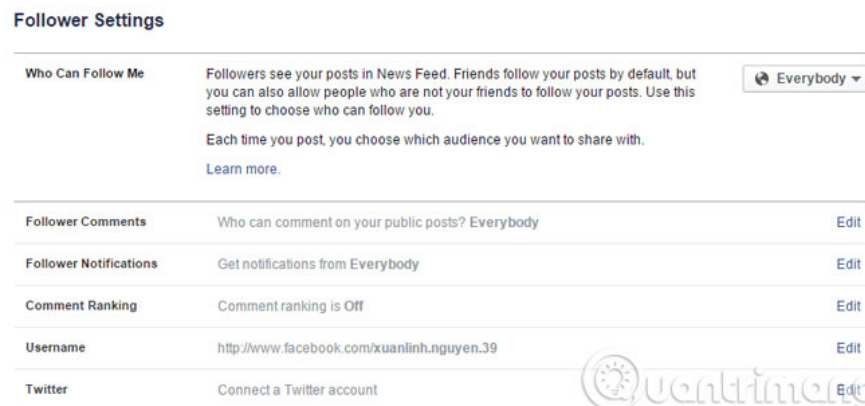

## 8- See profile in public form

This tool gives you a look at how your profile will look in the eyes of friends and others by clicking the three dots button next to the **View Activity Log** button , then selecting **View As** .

## 9- Turn off the tracking function

Facebook users can connect with each other in 2 ways that are becoming friends or followers. While becoming friends, 2 users can see the information shared widely, the follower will not see the follower's updates. You can turn off the function of tracking your account with the **Followers** option in **Account Settings** .

1. How 2-layer security for Facebook?
2. How to convert avatar Facebook into different national flags
3. Add a way to access Facebook when blocked
