

Google Drive refines the user interface, making viewing folders easier

Recently, Google has just announced they are going to redo the User Interface in the folder that users are shared with on Google Drive.

Recently, Google has just announced they are going to redo the User Interface in the folder that users are shared with on Google Drive.

"In the near future, when you open a folder shared by your friends, it is easier to view the content in that folder thanks to a much more intuitive layout. You can click on it. A certain file to preview, as well as flip to convert between files "- Google said on Google+ page. The image below gives us an overview of the changes in the Google Drive UI.

If you want to save the folder you shared to your Google Drive account, you can use the 'Add to Drive ' button at the top right to proceed to download the account data.

Google Drive is Google's cloud storage service to compete with Dropbox, SkyDrive . This service is also integrated with both its previous services Spreadsheet and Docs, so Google Drive allows users to have Can edit or create Office files - The feature that helps this service has a huge advantage over competitors.
