

# Google edited the logo, the puzzle you discovered

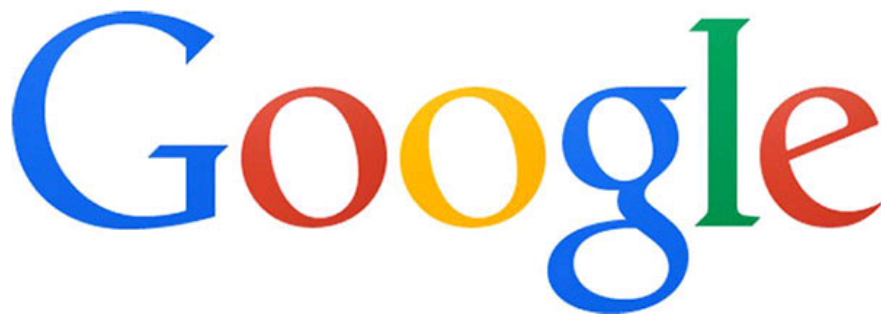

Google has quietly modified a bit of its logo to make it look better. The Reddit website discovered this editing first. Do you want to test your eye level? Look carefully at the Google logo before and after editing!

**Google has quietly modified a bit of its logo to make it look better. The Reddit website discovered this editing first. Do you want to test your eye level? Look carefully at the Google logo before and after editing!**

Before we reveal how Google has edited it, look at the old logo.

And this is a new logo.

Have you discovered the difference? The "g" and "l" letters have been moved a bit to make them look more eye-catching.
