

# Google plans to host the I / O event 2018 from May 8-10 in Mountain View

Continuing its third year, Google will hold a conference to deploy I / O at the Shoreline Amphitheater in Mountain View (after moving from the San Francisco conference in 2016). The venue, along with May 8 to May 10, was revealed as part of the I / O 2018 interesting event.

Continuing its third year, Google will hold a conference to deploy I / O at the Shoreline Amphitheater in Mountain View (after moving this conference from San Francisco in 2016). The venue, along with the time from May 8 to May 10, was revealed as part of the information about this exciting 2018 I / O event.

Google organizes other events throughout the year, including an annual hardware event in October, but I / O is still the most important event. This is also the event that brings together famous technology developers from all over the world and is an event that provides important technology information.

Traditionally, Google has announced many new products and services, including updates at I / O. Last year, a major focus was mentioned on Google Assistant, although there were many other news related to advertising, AI in general, AMP, Android, Android Go, Android Pay (now part of Google Pay). , Android Studio, Daydream, Firebase, Gmail, Google Lens, Google Home, Google Photos, TensorFlow and YouTube.

Currently the specific schedule, ticketing time, price for participating in I / O 2018 is still unknown. The event will be broadcast live for those who cannot attend.
