Best Halloween game for party

TipsMake.com searched the online for the best Halloween games for kids and created a list to share with readers today.

Whether your party is autumn-themed or Halloween-style, any classic Halloween game will be fun and great for all ages!

More than 22 Halloween games for kids (and adults too)

To plan the perfect Halloween party, just pick a few of these fun and exciting Halloween themed game ideas. Parties are always geared towards children, but the article ensures adults will be happy as well, while being able to watch the children play and be able to join them!

Wrap toilet paper to dress up as a mummy

TOILET PAPER MUMMY

FALL PARTY ACTIVITY

This game is inexpensive (for who doesn't have toilet paper) and will definitely make everyone laugh like crazy!

Donut cake race

This sounds like fun and it's for adults too!

Giant pumpkin balloons

It is very easy to prepare what is needed for this game. Just slip in balloons with the name of the prize paper. Then, attach these balloons to a large cardboard cover or empty wall shaped like a pumpkin (adding some decorative details to vividly). During the party, the kids will break the ball they like and receive the corresponding gift.

Bowling with a can

Many people will enjoy playing bowling, but drawing on a tin can is just as appealing! Prepare some empty cans, then paint or stick colored paper on them. Next, draw on the surface of the cans of favorite characters, then use them to organize fun bowling games for the party.

Throw Marshmallow candies

This game is easy and fun. Just prepare big marshmallows and a few small baskets! Players will throw candy into those baskets. The one who hits more will be the winner.

Making Halloween pumpkins with fabric

It's easy to make this game. The pumpkins will be made from toilet paper wrapped in felt!

This game is suitable for children who are skillful, love making crafts and helping children enjoy creativity.

Get gifts from Halloween pumpkins

This game is very funny and similar to the giant pumpkin balloons game above.

You need to prepare plastic cups, gifts, orange and green paper, small ropes and tape. Put the gift in a plastic cup and use orange paper and rope to wrap the end of the cup. Use tape to attach these glasses to a large piece of cardboard. Children will choose the gifts they want by tearing the colored paper at the top of the cup to get the reward inside.

Smash the ball to receive gifts

Any Halloween party can be made even more awesome by breaking a few balloons to claim the prize!

Tail the cat / Create a face for the pumpkin

These games have the same principle: The child is blindfolded, then attaches the required items to the correct positions. Although simple, but surely they will make children feel extremely excited!

Halloween Bingo

You can find Halloween-themed Bingo boards online and print them out on paper so they can play together at the party.

Feed the monsters

Use a large paper box, some rags and some tennis balls to shape a monster. Make a big hole in the mouth of the monster. Children will use the balls thrown into the mouth of the monster. Whoever throws more will be the winner.

Throw object contest

To match the Halloween theme, you can use small crates and paper or paint to form a pumpkin tower. On each bin, make a hole big enough for the children to throw small balls or bean bags inside.

Guess the candy number

And when night falls, you can let the kids go home with a bag full of candy! You can take this opportunity to organize another small game: Let the kids guess the number of candies inside the bag.

Halloween-themed costumes

Who doesn't like to paint his face? It would be even better if you can find an expert to paint faces that match the costumes for the kids!

Pinata smash

Nothing makes a Halloween party more fun than breaking a pinata (a traditional Mexican festival symbol) and taking a 'bath' with loads of lovely candies.

Play Halloween word charades

Another great Halloween game idea is a Halloween themed puzzle game. This game is very easy to play and will create loads of laughter.

Make your own Halloween gift bag

You can use white cloth or paper and paint to do this. Use cloth or paper cut into a rectangle with the desired size and sew / glue the edges of the bag. Use colored paint to express your ideas on the surface of the bag, and then use them to hold candy or Halloween gifts.

Decorate Halloween themed cake

You can easily buy cookies and decorations at bakeries or prepare them yourself at home. Then let the children arbitrarily decorate the cake as they like.

Round throw game

Use cardboard to form a pyramid like a witch's hat, then attach them to a plank and place them on the floor. Then let the children throw the bracelets into it.

Play mini golf

This is the cutest Halloween game for kids! All you need is a giant pumpkin, a piece of cardboard and a mini golf tool for children.

Halloween version of the Twister game

Even if it's just a Halloween party for two, the kids will love this game. You need to prepare a large white paper on the floor, then draw colorful pumpkins on it. Next, prepare a turntable, divided into 4 corners corresponding to the left hand, right hand, left foot and right leg, each quadrant has the corresponding pumpkin colors. Where the arrow points, the child will have to put their hands or feet in the position of the corresponding colored pumpkin on the floor.

Use a spoon to transfer the eggs

This game is indispensable in the list of options for children! This game is always interesting, especially if you use real eggs.

Pumpkin decoration

Always have pumpkins at Halloween parties. So why not decorate the children with them?

Besides the fun games on, do not forget to prepare food and decorations for the party!
