

# Great Pyramids of Giza and 4 mysterious anomalies have no solution

Great Pyramid of Giza - Great Pyramid of Giza in Egypt is not only the greatest pyramid work that humans ever built challenges every time limit but it also contains many geographic mysteries that make references ancient and historians headache decoding.

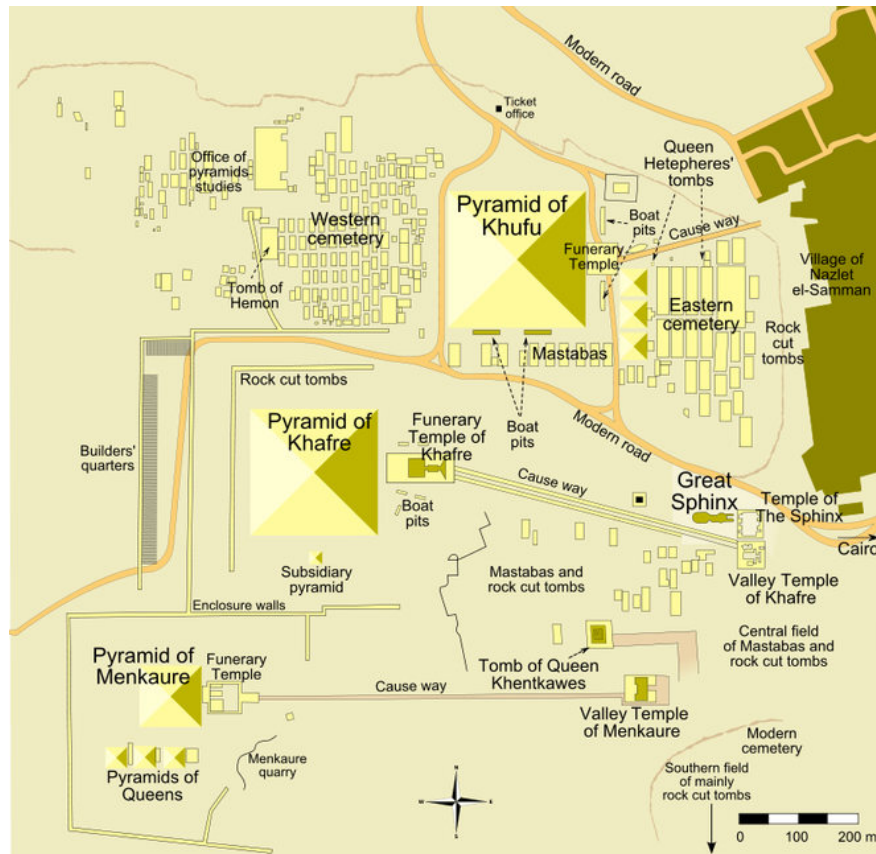

Giza Pyramid - Great Pyramid of Giza in Egypt is not only the greatest pyramid construction man ever built, challenging every time limit but it also contains many geographical mysteries that make gender archeology and historians headache decoding.

1. Looking for the reason why the ancient Egyptians stopped building pyramids?
2. Found how the ancient Egyptians used to build pyramids?

Giza pyramid complex covers an area of 55,000 square meters, including:

1. Khufu Pyramid (also known as Kheops pyramid, was honored as one of the Seven Wonders of the Ancient World).
2. Khafre Pyramid (or Kephren).
3. Menkaure pyramid (or Mykerinus) is the smallest pyramid.
4. Some other small satellite projects for the King of Africa.
5. Sphinx.

Map of Giza Pyramid.

The Giza pyramid was built from 2.3 million tightly bound blocks of stone with a total weight of 5.9 million tons. In particular, each block weighs from 2 to 30 tons, even with a weight of 50 tons.

To this day, scientists still do not understand what ancient Egyptians used to transport and build large, high-volume buildings.

In addition to these secrets, the Giza pyramid complex also has geographical challenges, making astronomers unable to decode.

### **Located in the center of the Earth continent**

The Giza pyramid complex is located exactly at the center of the continent on Earth, on the intersection of the longest meridian and the longest latitude in the world.

### **Straight up with 3 why Orion constellation**

The three largest pyramids at Giza, Khufu, Khafre and Menkaure, were built to form a perfect line on the ground. In addition, they are aligned with 3 waist stars of the Orion constellation (Orion).

### **Mysterious coincides**

The Giza Pyramid, "Silence Zone - Silent Zone" (in Mexico) and Bermuda's "Devil Triangle" (west of the Atlantic Ocean) are the three most mysterious areas in the world known as the "Three-Sided Mystery". . It is especially difficult to understand that all three mysterious areas are located on the same line on Earth.

Mysterious coincides lying in line.

The "Silent Zone" is called Zona del Silencio, an area in northern Mexico. Here all sound waves and phone waves are disabled. Bermuda "Devil Triangle" Bermuda is an unspecified area located in the west of the North Atlantic Ocean, dubbed the "black sea cemetery", where buried hundreds of boats and aircraft.

**Giza is right on the northernmost point of the Earth**

Although built thousands of years ago, but according to astronomers, the population of Giza pyramids is the work towards the most standard North pole in the world.
