

Guide to Call of Duty: Mobile Battle Royale mode

Here are a few notes to help you experience playing before entering the battle of Call of Duty Mobile

Currently Call Of Duty: Mobile has started testing in some countries and it is noteworthy that Vietnamese gamers still do not have the opportunity to download COD: Mobile and experience on their mobile devices.

But through clips, COD experience videos: Mobile on social networking sites. We can see this time Call Of Duty: Mobile brings an attractive Battle Royale game mode with top graphics on mobile platform, in addition, players will also experience exciting new points. that COD Mobile inserted into Battle Royale mode.

Below Quantrimang will send you some instructions for playing Call Of Duty: Mobile in Battle Royale mode.

1. Download PUBG Mobile game for iOS and Android phones
2. How to double download speed on Google Play
3. Instructions for installing and playing Color Bump 3D on your computer

Guide to Call of Duty: Mobile Battle Royale mode

View

COD: Mobile provides players with both views of TPP and FPP. How to choose a viewing angle to play is the same as choosing a view on PUBG Mobile. As a player will have to decide on the angle at the beginning of the game, and the player will not be able to change the perspective when the game starts.

Two familiar views will help gamers get used to Battle Royale mode of COD: Mobile without any problems.

Map

Battle Royale map of Call Of Duty: Mobile will synthesize many famous maps of COD series so far. Each area will be separate and taken from famous COD series like Modern Warfare, Modern Warfare 2, Black Ops and Black Ops 2.

Class character

COD class: Mobile will be completely different from COD Black Ops 4 and survival shooter games are available in the game market. COD Mobile will have all 6 separate classes:

Defender: Has the ability to deploy defensive shields and withstands all types of damage, except direct bullets.

Mechanic: Calling skill EMP Drone creates electrical impulses to interfere with enemies. Possesses a vision ability that enhances vehicle entanglement, possesses traps and other items.

Scout: Detecting an enemy's new footprint, using the Sensor Dart to see the enemy's location in a certain area on the Radar.

Clown: Attract Zombies to attack enemies with the Toy Bomb skill. There is a special ability to reduce the distance detected by the Zombie and attack yourself.

Medic: The name is known, the skill is to use Medical Station to recover damage to yourself and teammates at a certain distance. At the same time, there is also a faster recovery speed for yourself as well as a shorter recovery time for allies.

Ninja: Use fishing hooks to swing yourself to buildings in radius or move quickly in all terrain. The sound emanating from Ninja's footsteps is also reduced, suitable for those who like to play assassin style.

Transport

Call of Duty Mobile has full facilities for all types of terrain such as water, land and even aerial. Here you will have options such as:

1. **ATV:** Four-wheel drive, only two seats.
2. **SUV:** Armored vehicle with soldiers, 4 seats
3. **Light Helicopter:** Light helicopter , three people including pilots.
4. **Tactical Raft:** Tactical boat, low barrier but compensated for very high speed.

Special team and special mechanism

One point that COD Mobile is similar to Apex Legends is the ability to revive allies even when they are dead. To do that, players have to collect name cards on corpses and access fixed points on the map, then call their teammates back to the battlefield.

Above are a few notes for the newbie when participating in Call of Duty: Mobile, please read carefully and remember before participating in the survival battle in the game. You will have an advantage over others.
