

Guide to chat with lots of Skype nick on the same computer

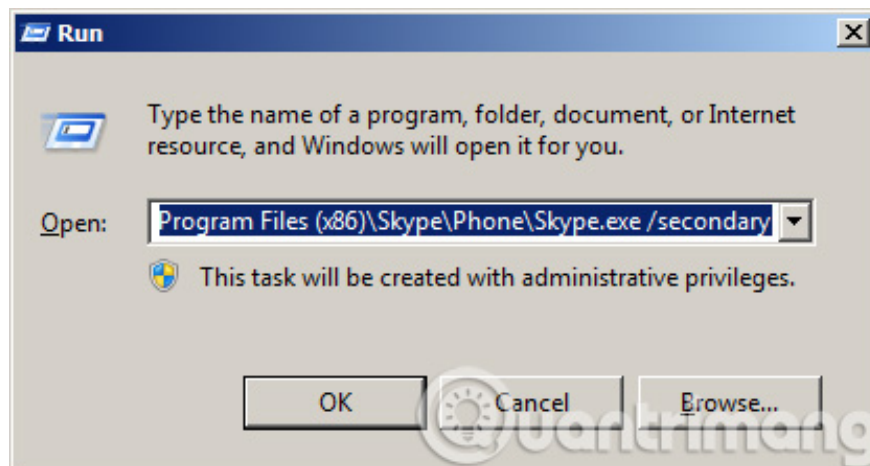

Guide to chat with lots of Skype nick on the same computer. By default Skype, you will not be able to chat on multiple computers on the same computer. This restriction can be overcome by the following procedure.

Guide to chat with lots of Skype nick on the same computer. By default, Skype PC, you will not be able to chat on multiple computers on the same computer. This restriction can be overcome by the following procedure.

How to chat, login multiple Skype nick on one computer:

First, press **Window + R**.

Run window appears, copy the following command to paste into Open frame as shown below:

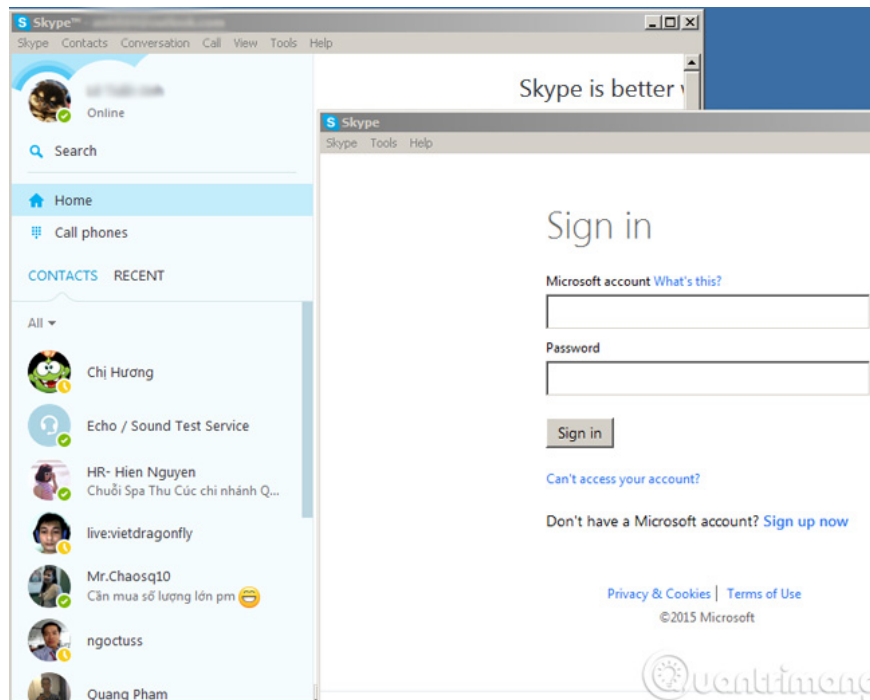

The computer tested here uses a **64-bit** operating system, so **Skype** is located in the **Program Files** folder (**x86**).

With 32bit Windows:

C: Program FilesSkypePhoneSkype.exe / secondary

With Windows 64bit:

C: Program Files (x86) SkypePhoneSkype.exe / secondary

Then, click **Ok** to execute the command. Just like that, you can chat multiple Skype nick on the same computer already. I am currently testing this way and can log in to 6 Skype accounts at the same time on my computer, what about you? *Wished everyone success!*
