

Guide to creating a clue-finding game on General

Beyond simply creating engaging presentations, Genially also allows you to build captivating learning games, such as clue-finding.

The application of online lesson design tools like Genially is becoming a trend that many teachers are interested in. Beyond creating engaging presentations, Genially also allows for the creation of attractive learning games, such as clue-finding.

With its flexible organization, intuitive graphics, and diverse interactive effects, the clue-finding game offers a fresh experience, stimulates critical thinking, and enhances teamwork. Below are instructions on how to play.

How to create a clue-finding game on General

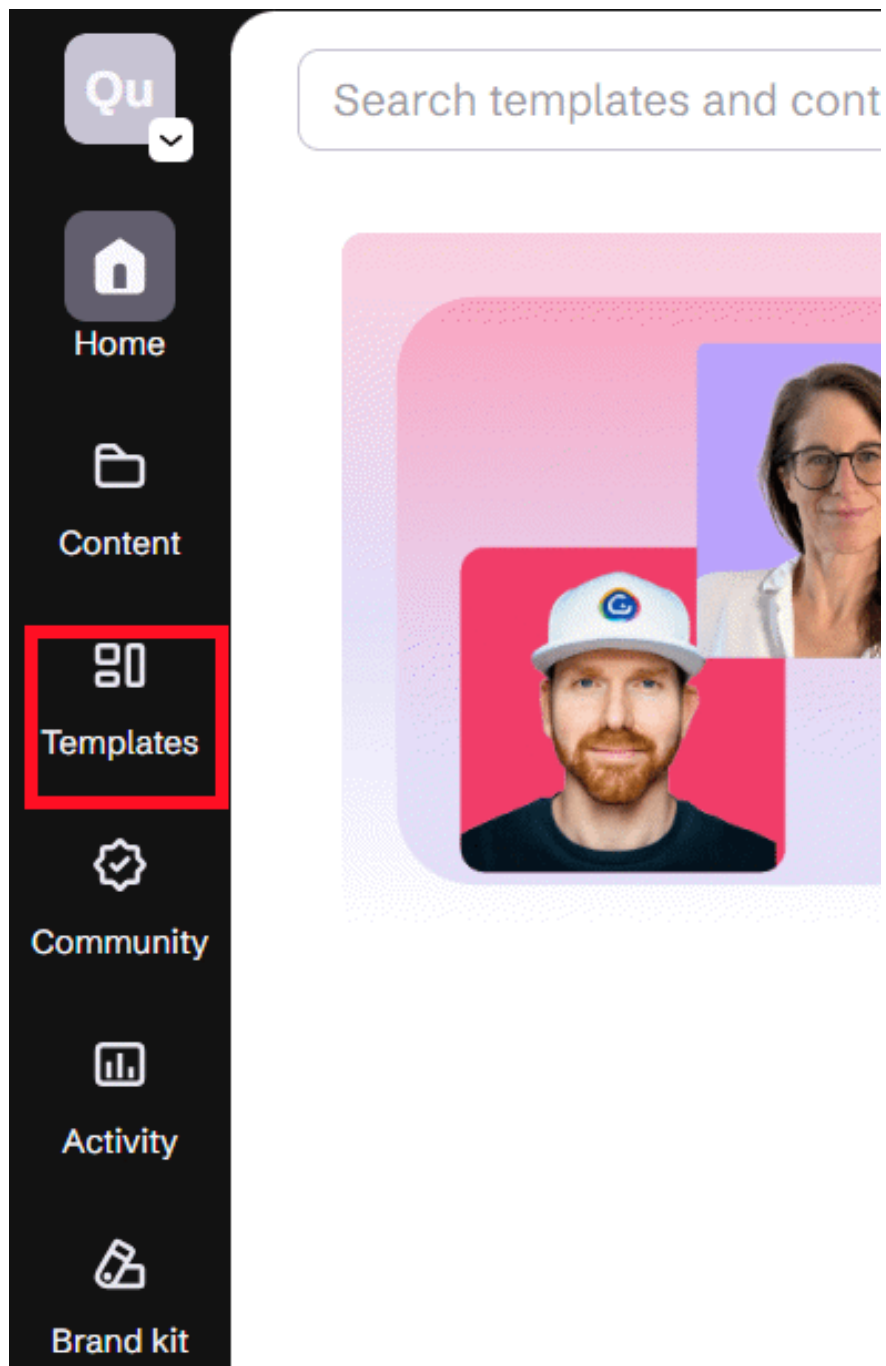

Step 1:

Click the link below to go to the General website and register an account to use it.

<https://app.genially.com>

Step 2:

To access the new interface, users **click on "Templates"** on the left side of the interface.

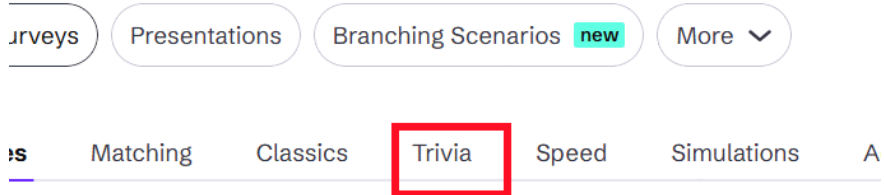

Look to the side and click on **the Games and challenges section** to access it.

Resource Lab

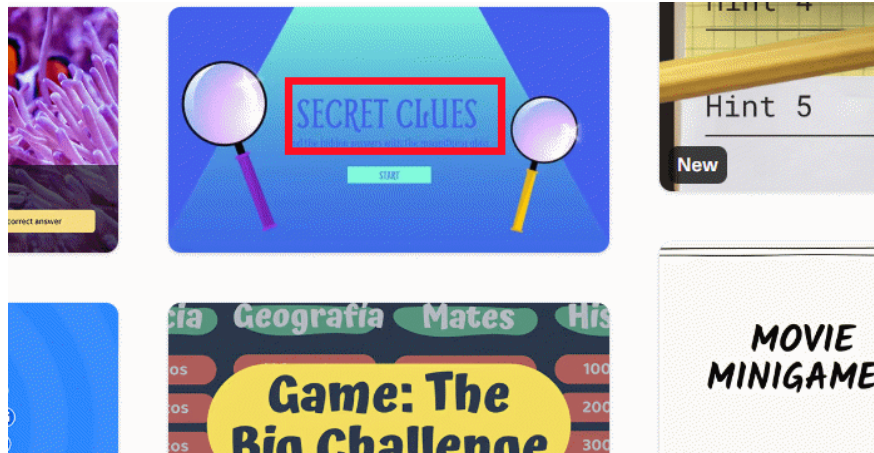

Scroll down and **click on Trivia** to access the quiz templates on General.

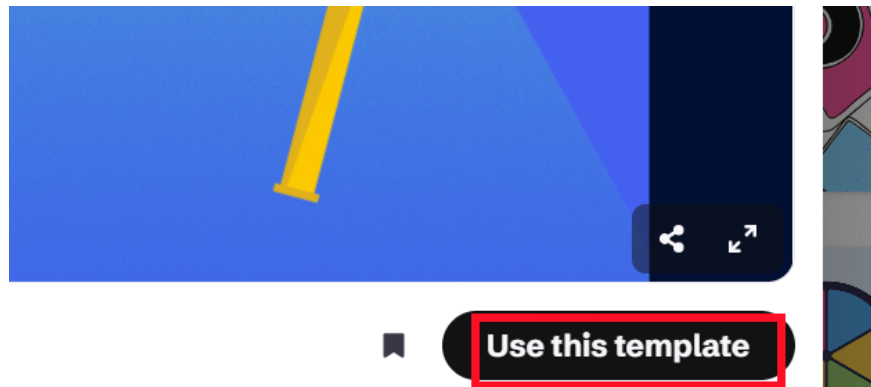

Step 3:

Scroll down and **tap on Secret Clues** to create a clue-finding game.

We click on **"Use this template"** to use this game template.

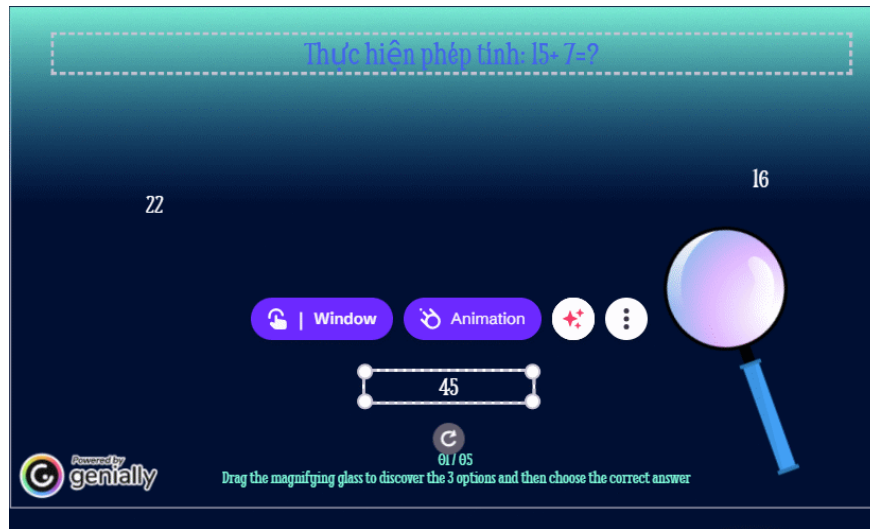

Step 4:

First, **enter the Vietnamese text for the introductory page of the clue-finding game**. Then, click the arrow to move to the next game slide.

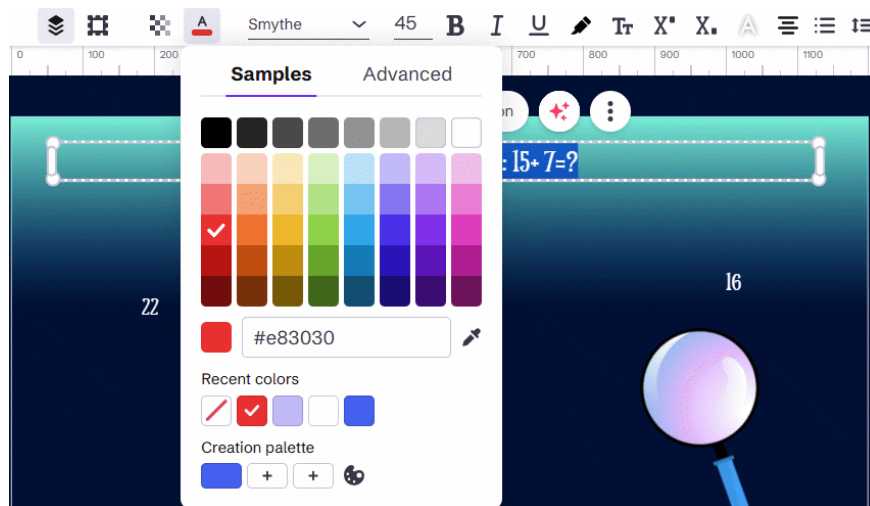

Step 5:

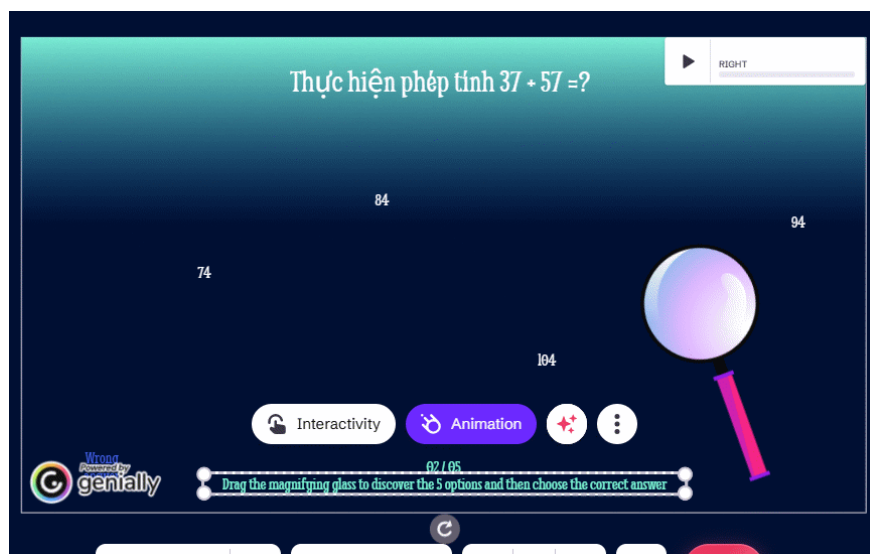

Here, teachers **enter the question and fill in the correct answer**, or **select the incorrect** answer below in the correct position, as shown in the game's sample slide.

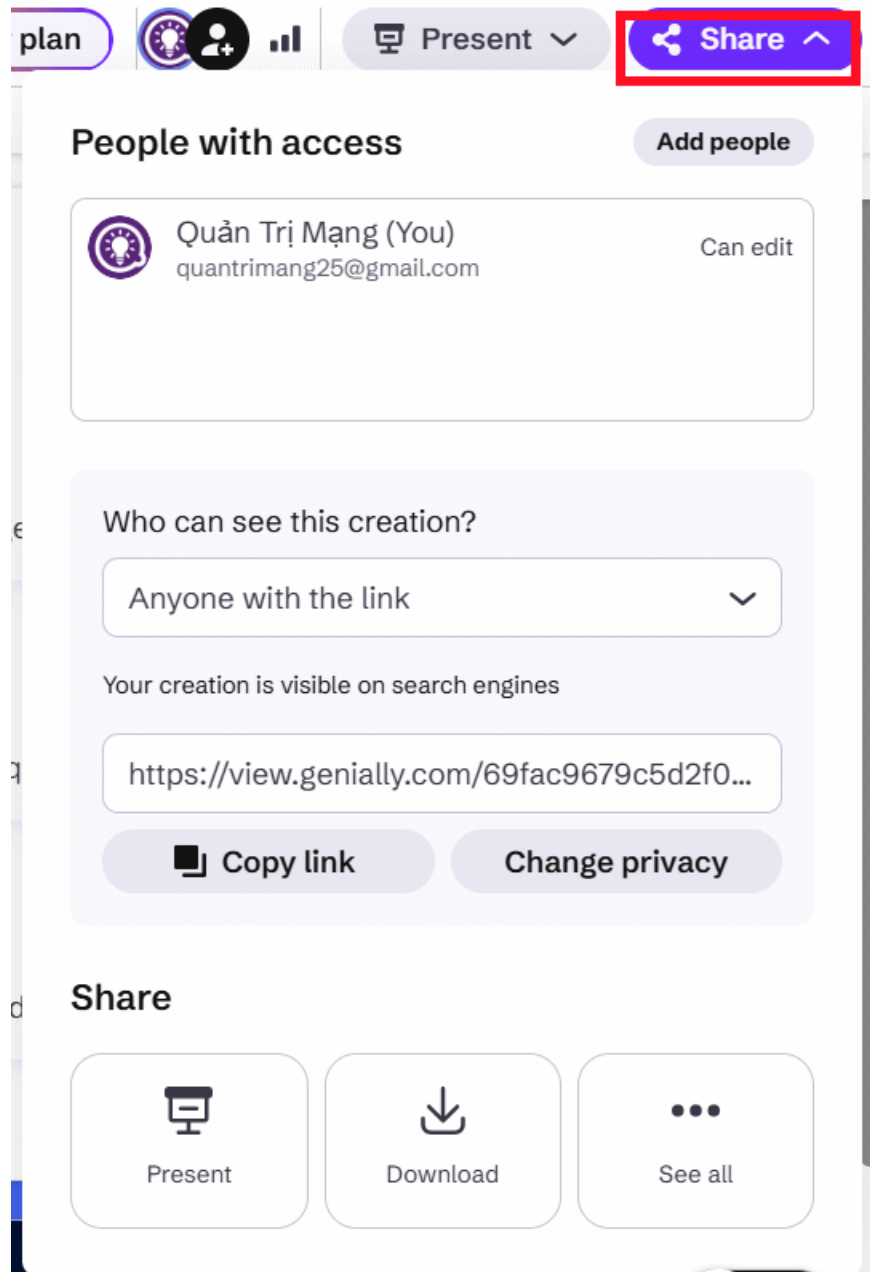

Let's choose the font, size, and color to match the game's interface.

Continue to the game slide to enter questions with progressively increasing number of answers.

Finally, the teachers **clicked Share** to save the link to the clue-finding game.
