One of the outstanding features of VnEdu is to create multiple choice questions quickly. Using VnEdu, teachers will not worry about test questions being overlapped with multiple choice questions, can add and edit questions easily to make exam questions midterm or final term, . If you do not know how create multiple choice questions on VnEdu, invite teachers to refer to the content below.

Steps to create multiple choice questions on VnEdu

1. Access: VnEdu

Step 1:

On the **Desktop** screen, do the following steps: Click on **Start** > Tools for **mixing questions** > **Question bank** . The system will automatically display the question bank interface soon after.

Looking at this interface, you will see on the left side of the screen a question folder, and on the right is a list of questions that correspond to the selected question folder.

Step 2:

In the **Question List** tab, users have many different options, namely:

1. When you want to update the latest list of questions, select **Refresh** .
2. To add a new question, click the **Add** button.
3. Edit a question, just select a line on the displayed list, then click the **Edit** button.

Besides, the system also supports importing questions from Excel or Word files, just click on **Import** button from **Word** , **Import from Excel** .

Step 3:

After selecting **Add** or **Edit** , the system will display the **Edit content question table** . Now, update the question content, answer list, and then click **Update** to save the question.

Sửa nội dung câu hỏi

Nội dung câu hỏi:

Câu hỏi 1

Danh sách câu trả lời

Câu trả lời 1: Trả lời 1 (Đ/A Đúng)

Câu trả lời 2: Trả lời 2 (Đ/A Đúng)

Câu trả lời 3: Trả lời 3 (Đ/A Đúng)

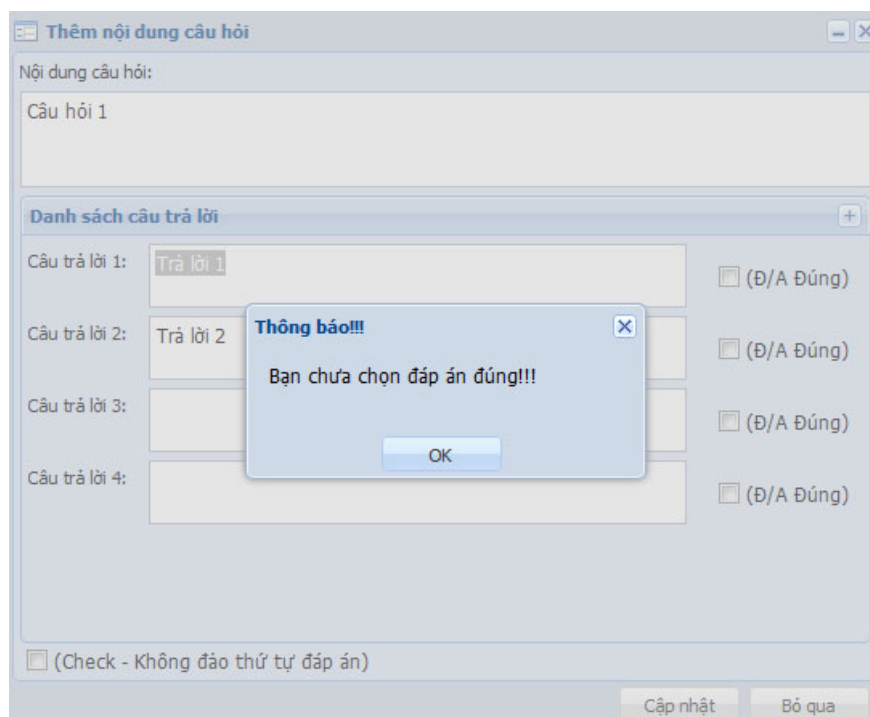

Câu trả lời 4: Trả lời 4 (Đ/A Đúng)

(Check - Không đảo thứ tự đáp án)

Cập nhật Bỏ qua

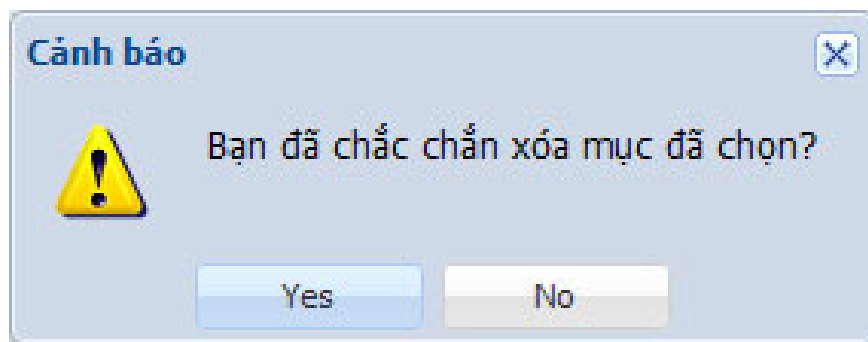

Note:

1. You can reverse the answer order in the checkbox on the interface.
2. If you enter incomplete information, in the required data fields, the system will redirect these boxes to re-enter until you enter them correctly.

Step 4:

To delete any question, simply select that question and click the **Delete** button. Immediately, the system will ask you to be sure to delete the selected folder or not, this time if you agree, choose **Yes**, but do not want to delete, then select **No**.

Hope you are successful.
