

# Guide to creating themed images based on clothing using Microsoft AI Tools

Microsoft AI Tools now offers several image creation tools to choose from, including tools for creating images based on various sub-page themes.

This themed outfit creation tool will provide unique outfit templates, and the background will also change according to each different outfit style. All you need to do is upload your image and choose the outfit style you want. Below is a guide on how to change the image style according to various outfit themes.

## How to create photos in various clothing styles using Microsoft AI Tools

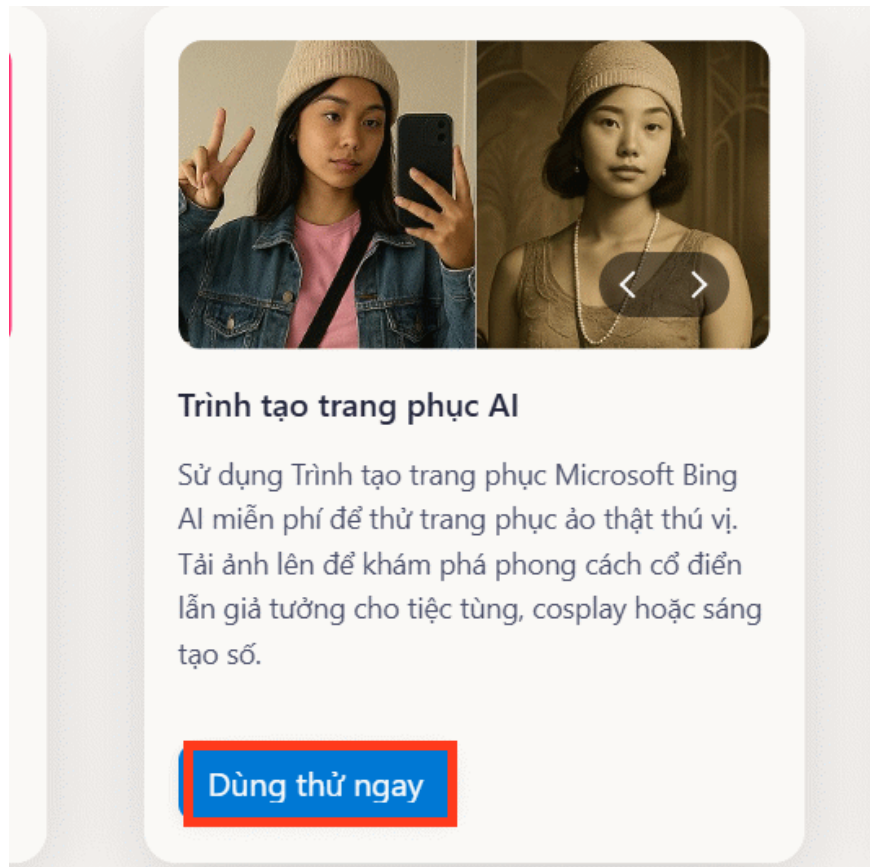

### Step 1:

We access the Microsoft AI Tools page using the link below, then log in with your Microsoft account.

<https://www.bing.com/tools/ai>

### Step 2:

In the main interface of Microsoft AI Tools, you'll find many tools. Click on **"Try it" under "AI Outfit Maker"** to change the style of your photos to match different outfits.

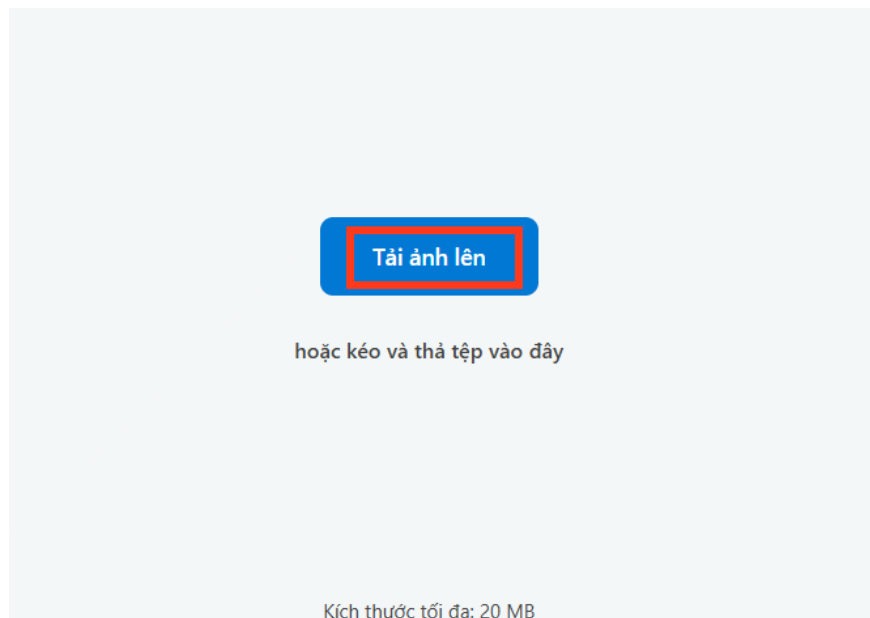

**Trình tạo trang phục AI**

Sử dụng Trình tạo trang phục Microsoft Bing AI miễn phí để thử trang phục ảo thật thú vị. Tải ảnh lên để khám phá phong cách cổ điển lẫn giả tưởng cho tiệc tùng, cosplay hoặc sáng tạo số.

**Dùng thử ngay**

**Step 3:**

To access the new interface, we will first upload our **personal photos** .

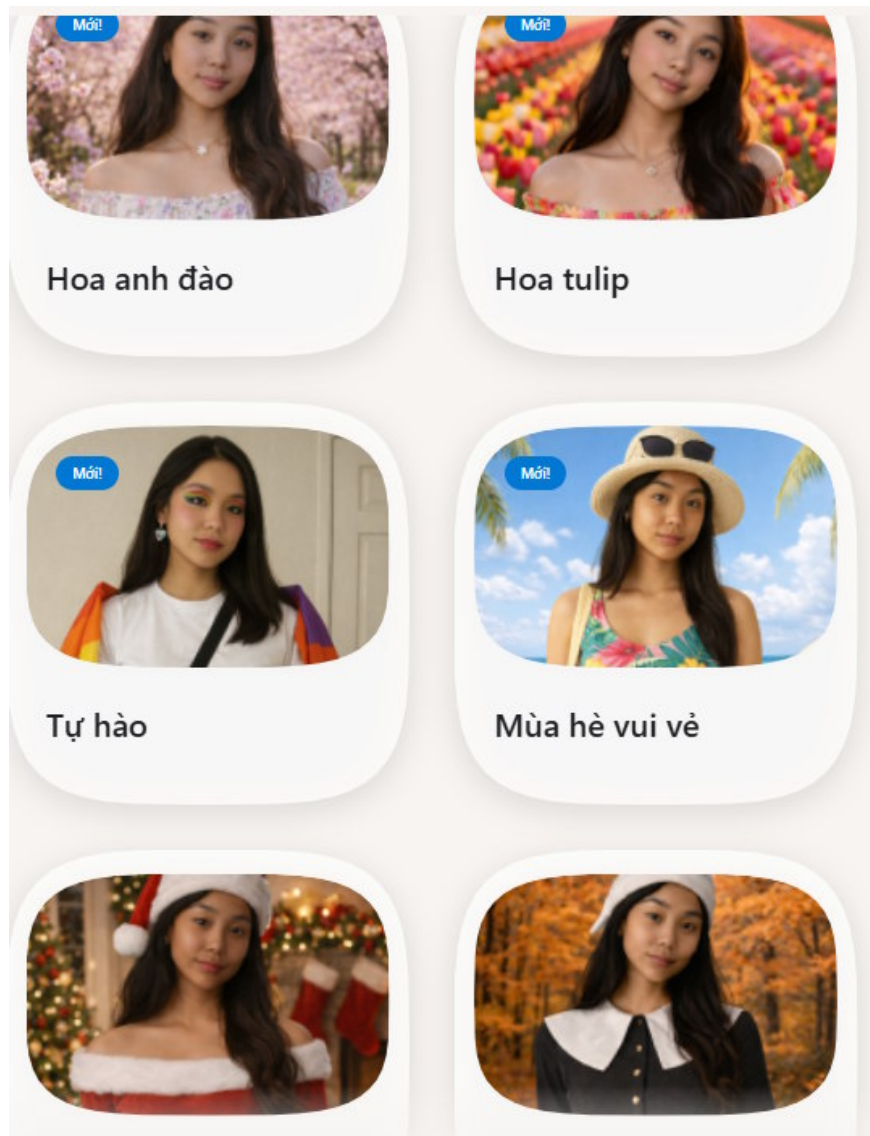

**Tải ảnh lên**

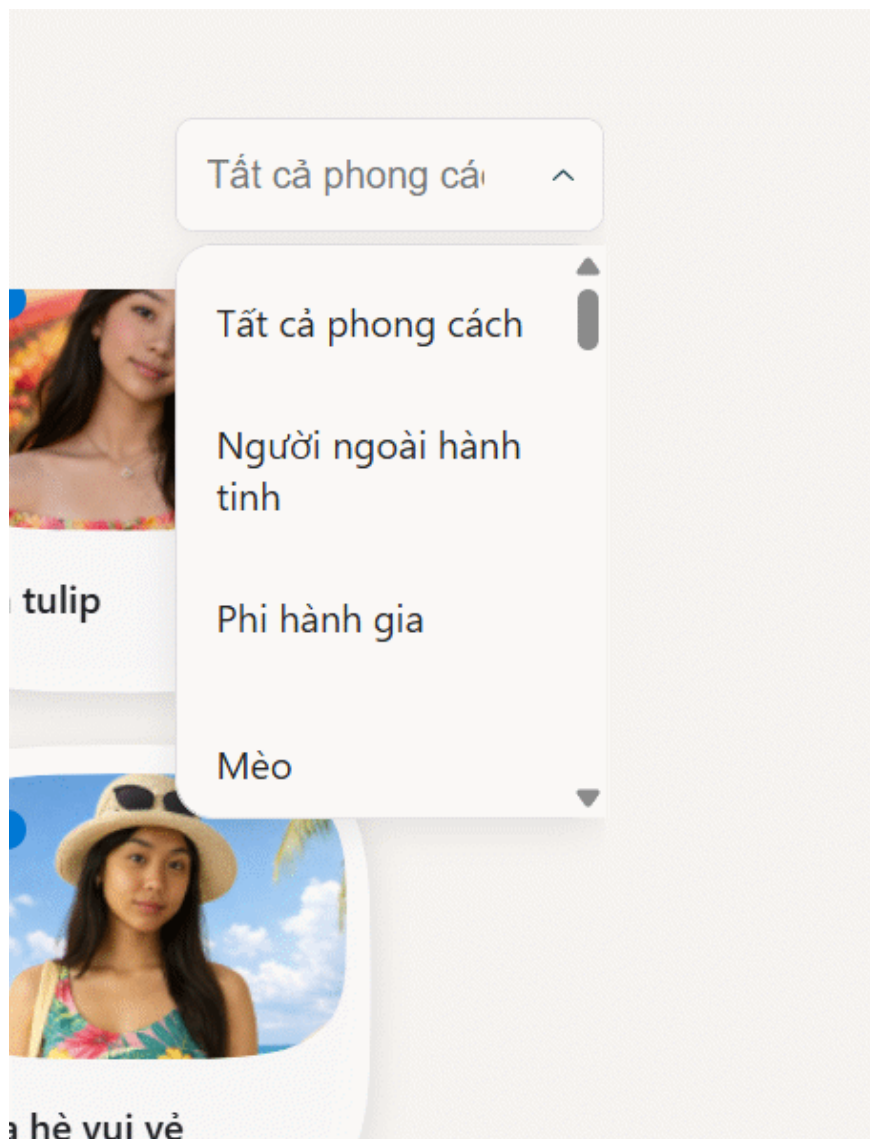

hoặc kéo và thả tệp vào đây

Kích thước tối đa: 20 MB

Look at the left side of the interface and **select the outfit style** you want to use for the image. There are many different outfit styles available for creating images.

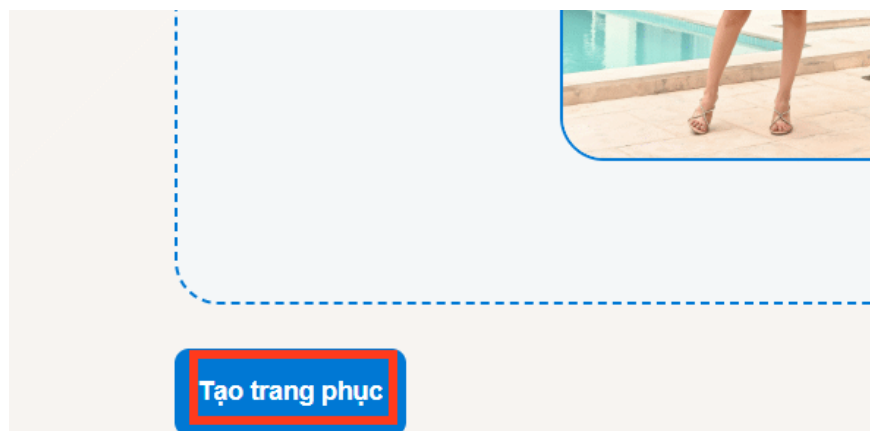

Alternatively, we can select through the filter list as shown in the image.

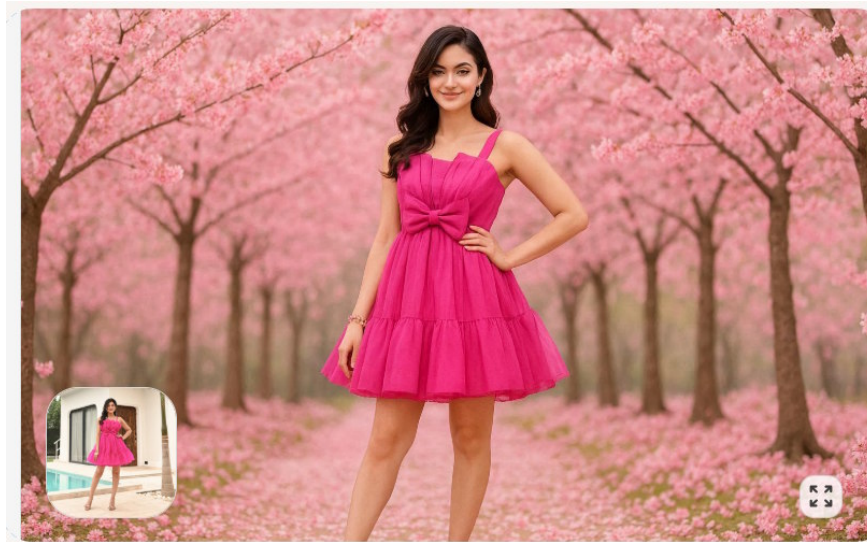

**Step 4:**

After you have selected your preferred outfit style, **click "Create Outfit"** to create a new image with your chosen style.

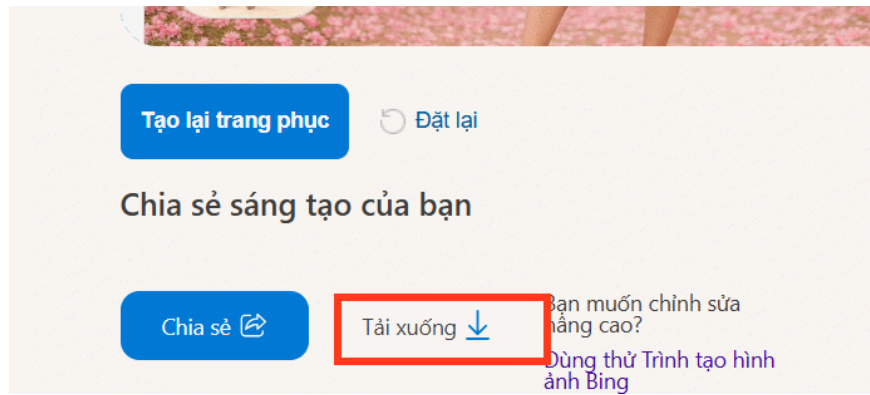

The result is an image with a unique style based on the theme you previously selected. Below is the original image you uploaded for comparison.

If you don't like this style of clothing, you can try something different.

If you like the image, download it as usual.

Note that the image generator in Microsoft AI Tools is still quite poor, the image creation time is relatively long, and it may not create an image at all.
