

# Guide to downloading MP3 music from YouTube extremely fast with x2convert

You love the song in the YouTube video but don't know how to download it because the website doesn't support a download function. It's simple! Just apply the following tips and you can download MP3 music from YouTube extremely quickly with x2convert.

Sometimes, to extract the songs or music files from a YouTube video, you need to use supporting software or tools to extract the music. Extracting music from YouTube videos can be quite troublesome and even difficult for some people who aren't proficient. So how can you download music from YouTube videos to your computer or phone without using supporting software? After technicians at TipsMake experienced and evaluated various YouTube music download services, they chose X2convert.com ( <https://x2convert.com/> ). Currently, **X2convert is one of the most used websites** due to its advantages: extremely fast file downloads, no ads like other websites, Vietnamese language support, and an easy-to-use interface.

3 ways to download MP3 music extremely fast from YouTube using x2convert

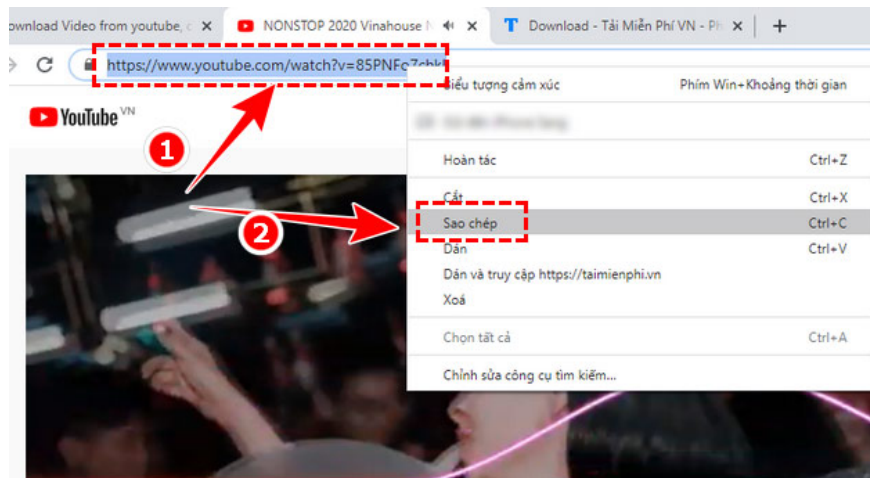

## Article contents:

1. Download from the x2convert website
2. Download MP3s from YouTube to your computer using Chrome
3. Add the word "x2" to YouTube videos

### *1. Download from the x2convert website.*

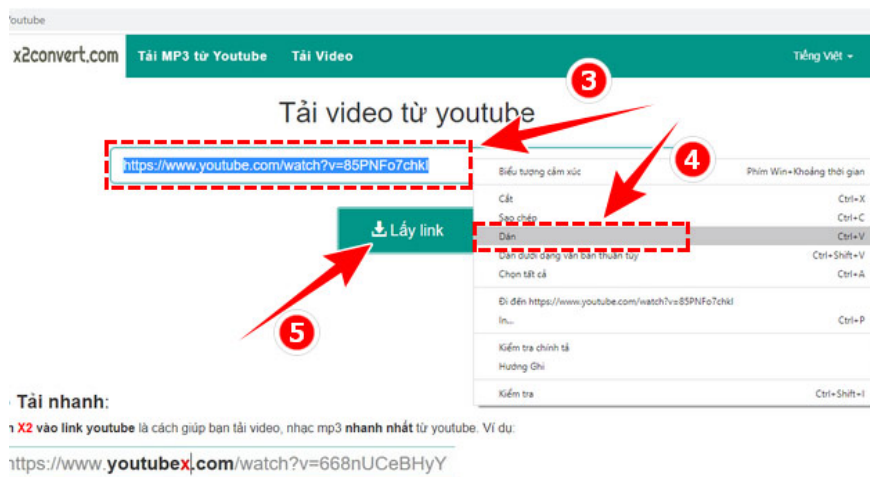

Currently, the method of downloading 320kbps MP3 music from YouTube using x2convert is being widely adopted, resulting in high-quality downloads and fast download speeds. If you want to download music, you can use this tool.

**Step 1:** First, access the YouTube website and find the video you want to download the MP3 from. To do this: Click on the link --> Select **copy** , or click on the link --> Press **Ctrl + C** to copy the video URL.

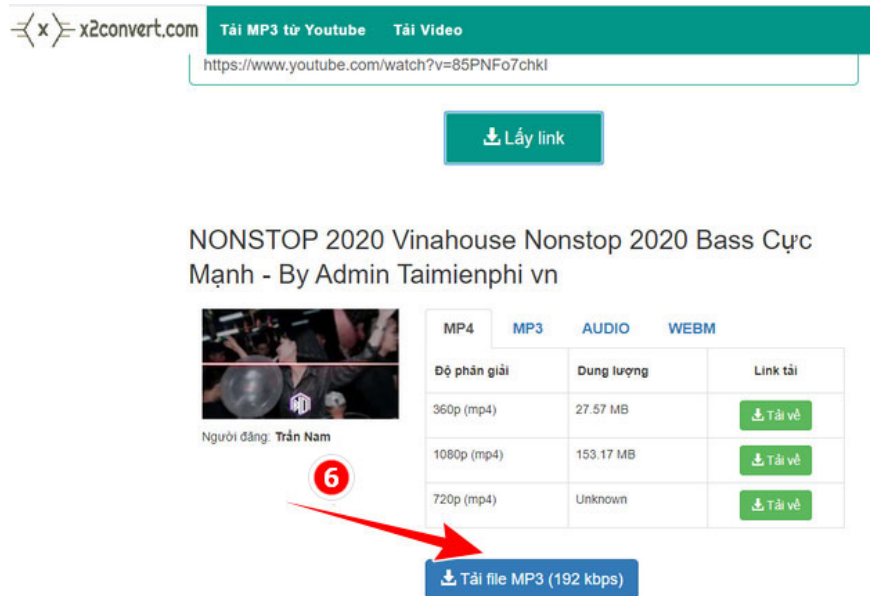

**Step 2:** Access the page <https://x2convert.com>

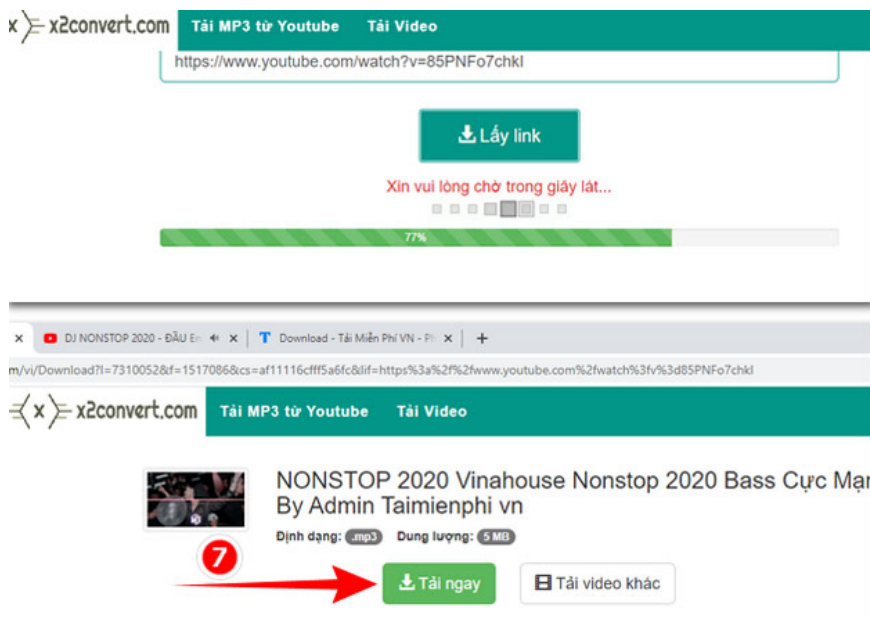

**Step 3:** On the website you just redirected to, find the search bar. **Right-** click --> Select **Paste** or press **Ctrl + V** to paste the YouTube link you copied above into the search bar.

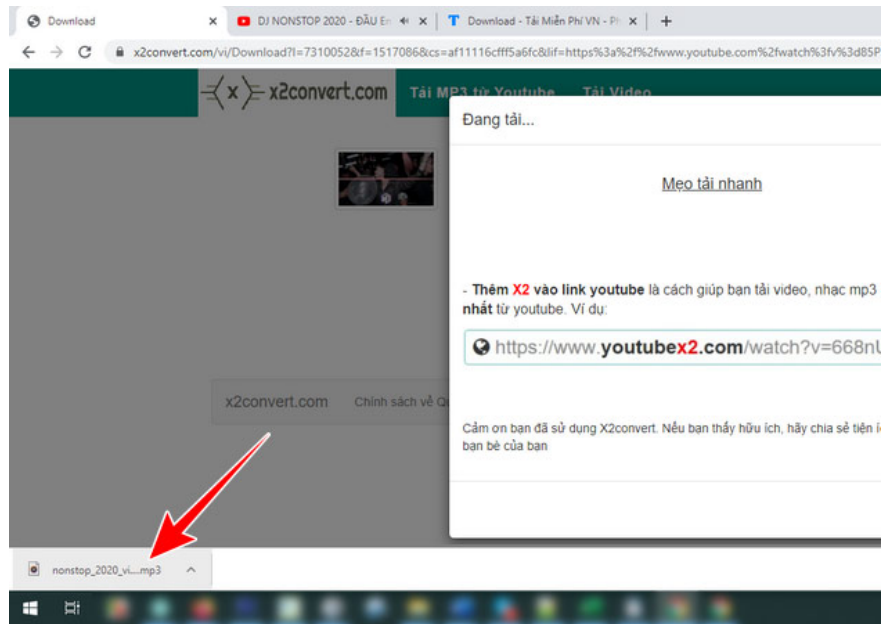

**Step 4:** The website will then automatically display the download formats available: MP4 (Video) and MP3 (Song). Select " **Download MP3**".

On the website you were redirected to, click **Download** again to download MP3 music from YouTube extremely quickly with x2convert.

Once the download is complete, the MP3 file you just downloaded will be in the bottom corner of the screen.

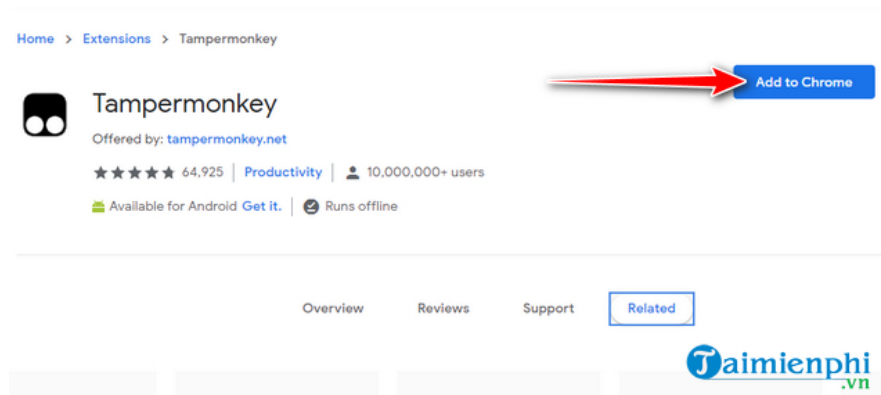

## 2. Download MP3s from YouTube to your computer using Chrome.

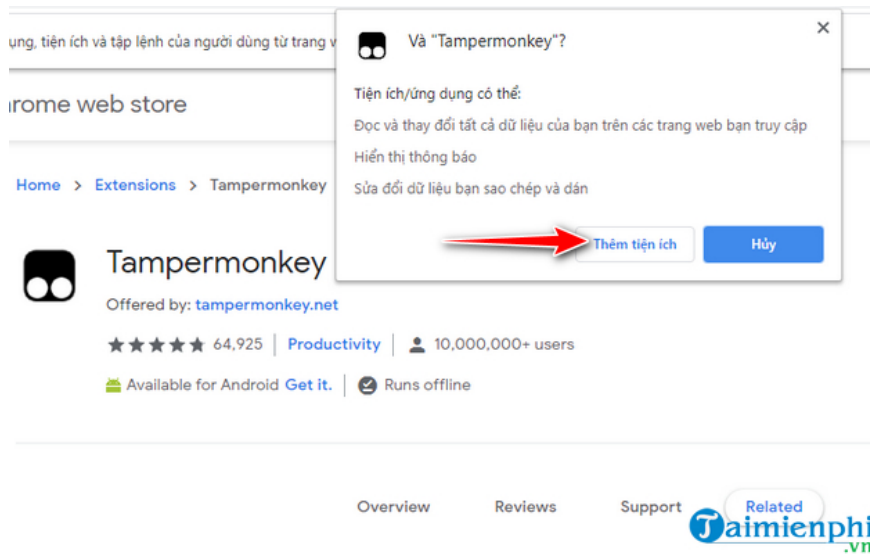

**Step 1:** Install the Tampermonkey support extension:

Note: To install this extension, you need to use Chrome or C?c C?c browser.

Click " **Add to Chrome**" to install.

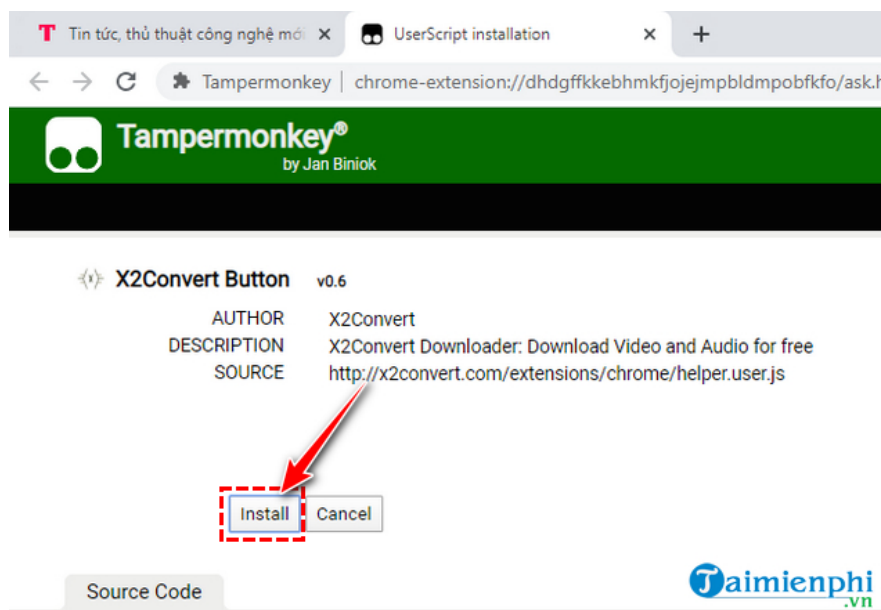

A notification will then appear; tap **Add extension**.

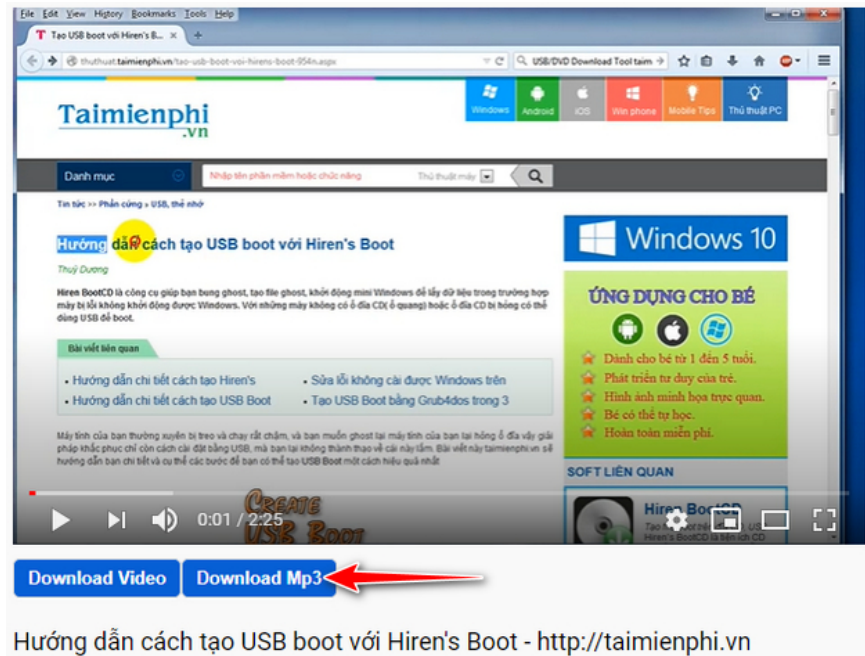

**Step 2:** Access the x2convert utility website:

Click **Install** to begin installing the extension.

**Step 3:** Now, when you access the YouTube website, you will see the "Download Video" and "Download MP3" functions appear in the bottom left corner of each video. Click on the " **Download MP3**" function to download your favorite song from the video to your device.

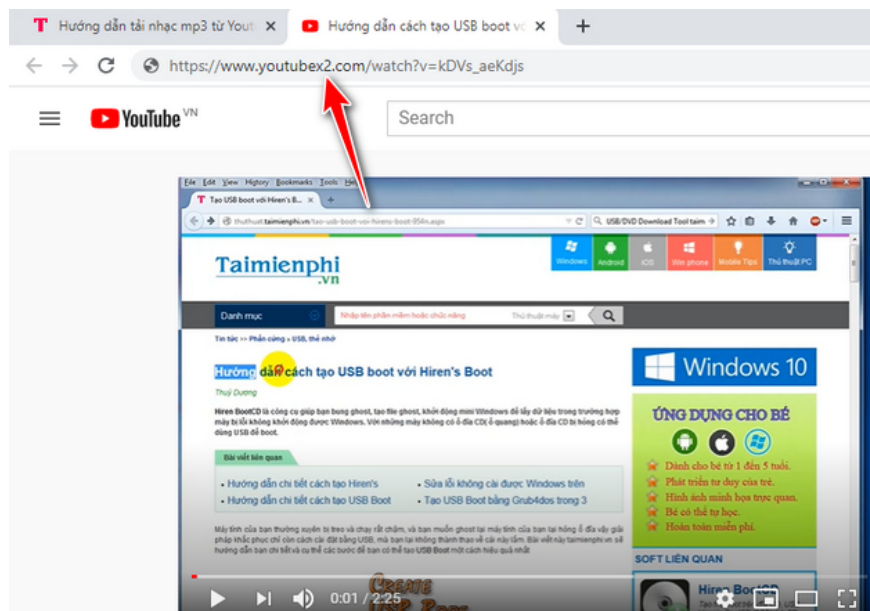

Click **Download** again to start the download process.

### 3. Add the word "x2" to your YouTube video.

This method is also considered one of the simplest ways to download MP3 music from YouTube to your computer or phone extremely quickly.

**Step 1:** On the YouTube video you are watching, click on the link and add the word after the word "youtube".

**Step 2:** The website will then redirect you to the x2convert page, and you simply select "**Download MP3**" to download the MP3 music from that video to your device.
