## Early stage of battle

The most basic and most common lineup is that players have to find the fastest 2-star generals to be able to cope with the necessary rounds of fighting. This is something that the Void team cannot completely do early with names like Rek'Sai, Kha'Zix or Kassadin.

However, if compared to the Wild or Nobility squad, at this stage, the Void still has a slightly inferior part. But at the beginning of the match, the difference between teams is not much, and you can still play against other teams comfortably.

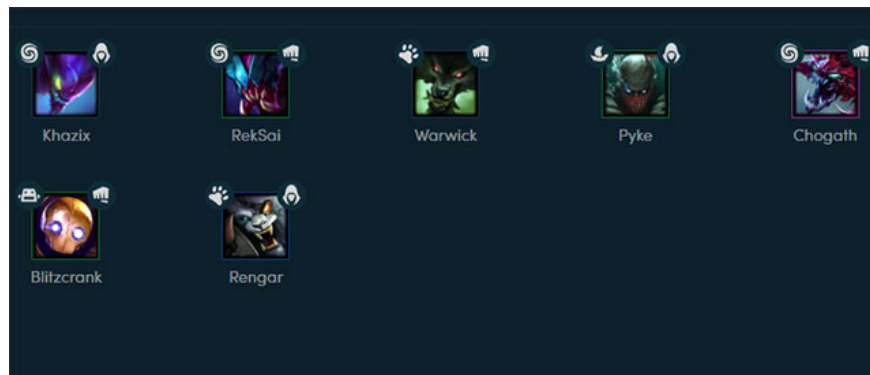

If you have reached the end of the first phase, but you still can't find the 2 Unsuccessful generals, turn to another team, otherwise the loser will hold firmly in your hands.

# Mid and late game

There are two quite unusual and quite effective formations: the Void - Wizards and the Void - Assassins. Here's how to build these two uncommon Void formations.

## How to build the Void - Assassin squad

Always prioritize Kha'Zix, Pyke, Rengar when these generals appear. If there are many Assassins, turn to find 6 Assassins. If you don't find enough, you should turn to a squad that will be better with 4 Gladiators.

The reason for choosing Pyke is because this hero can easily be raised to 3 stars, in addition, the Pyke has the ability to stun very seriously. In the version of the Truth Arena 9.15, the Rengar is also greatly enhanced and can be combined with Warwick, a very strong Gladiator.

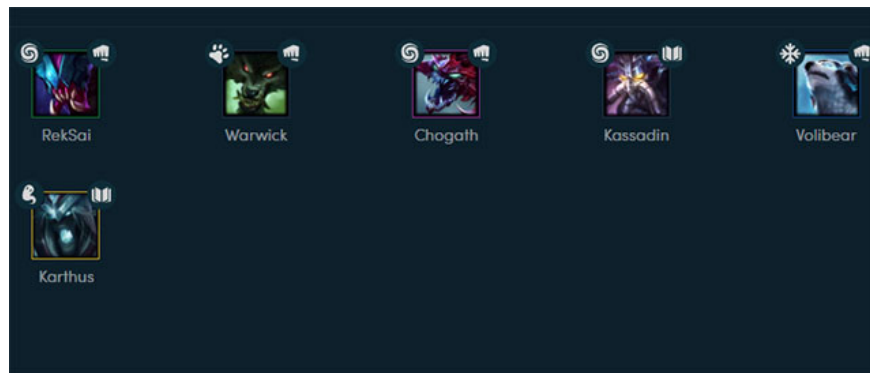

You can secure top 4 if you quickly get to level 8 and can get Cho'Gath in your squad. Also, if you have 2 or 3 more generals, the ability to enter the TOP 4 will be even higher.

Equip the Void + Assassins squad:

1. Zeke's flag - can be equipped for any general
2. Buong Dao + Big Uncle / Ma Vu + Blood Sword - for Rengar

3. Heart and Love Shojin - for Pyke
4. Loving Shojin + Devil's Letter Morello - for Cho'Gath

## How to build the Void - Assassin squad

Members must be in the lineup including: Kassadin, Cho'Gath, Aurelion Sol or can choose Karthus. And must equip Cho'Gath Yuumi.

Gamers need to make sure they are level 7-8 quickly so they can pick up the necessary generals. Including Cho'Gath, Aurelion Sol or Karthus.

In order for this formation to reach its absolute strength, it is best at level 8 with the two guards Leona and Braum.

Equipment needed:

1. Yuumi - for Cho'Gath
2. Devil Letter Morello + Loving Shojin for Cho'Gath
3. The Right of the Heavenly Angel + Witch's Hat for Aurelion Sol or Karthus

In general, if there are pages that are **resistant and prioritize the energy** you give to Cho'Gath. Equipping you with **energy and damage**, give Aurelion So and Karthus.

With two ways of build the Overlay squad here, it may be a bit difficult for you in the early stages. However, if you reach level 6 and above, it will be easier. Hopefully you will win the TOP 1 for the Unreal Arena Realm team above.
