

Guide to filming Christmas videos on Instagram

Instagram has just added a new feature that is to shoot videos and insert Christmas stickers on Instagram. After the video is finished, users can insert any interesting sticker into the video.

Instagram has updated the new feature that is inserting sticker into video, with many unique stickers and especially many stickers with Christmas theme. In addition, Hands Free video recording function helps you to record video without having to press and hold the video recording button as before. And after recording videos in the hands-free function, users can still insert any sticker or effect, like when we shoot ordinary videos. Together with the Network Administrator create yourself Christmas videos on Instagram in the article below.

Step 1:

First of all, we log in to a personal Instagram account on the device. At the main interface, we click on **Your Story** . At the video recording interface, swipe right to **go to Hands-Free hands-free video recording mode** as shown below. The camcorder can **add light mode** when clicking on the lightning icon, or **change the camera** when clicking on the 2 rotating arrow icon.

Step 2:

Next, simply click on **the circle icon in the middle and put your hand out to record the video** . Once the video is complete, we can **insert the sticker** if we want. At the video interface **click the Sticker icon** at the top of the interface as shown.

Step 4:

To add **another stroke effect** , click on **the pen icon** . Right above the top of the interface, there are 4 more decorative icons for the video, below is the optional color palette for drawing.

Click on **the stick figure icon** so we can add the Christmas candy stick video as shown below. If you don't like it, you can **press Undo to undo the stroke** . In addition, we can also use many other effects. Finally click **Done** to save.

Step 5:

When you have finished editing and inserting the effect, click on **Save** . Or you can share on Instagram by clicking **Your Story** . The rest is to open the video on the saved device to see your results.

So you have finished the video inserting the Christmas effect for yourself on Instagram already. In addition, we can also use the hands-free video recording feature, just press once to record video without having to hold the icon as before. Try making yourself more interesting videos on Instagram.
