

Guide to making food in Minecraft game

Minecraft is a game that still ranks high in the number of players worldwide. And during the game, gamers can earn raw foods to be processed into food for the entire journey in the game.

Even though it has been released for a long time, Minecraft has always been one of the best games in the world with the number of first-class players. Participating in the creative world of Minecraft, gamers will build their own world with the rudimentary tools you earn during the journey.

Just like making furniture in Minecraft, food is the only source of life so players can survive during the journey to conquer game levels. However, these foods are in raw unprocessed form. Therefore, players need to proceed to process those raw foods. Gamers can track how to make food on Minecraft in the article below.

1. Download Minecraft game
2. Download Minecraft for Android
3. Download Minecraft for iOS

Create food in Minecraft game

1. Bowl (Bowl):

For mushroom soup to be processed, we will use a bowl made of three overlapping wooden planks. Every **3 planks** will produce **4 bowls** .

2. Mushroom stew:

In order to prepare mushroom soup, players need to prepare **1 bowl** , **1 red mushroom** and **1 brown mushroom** . Mushroom soup works to recover 3 food bars.

3. Bread (Bread):

The main ingredients for bread are **3 bundles of wheat** . When you have 3 bundles of noodles, you will **have 1 bread** . Bread needed in restoring 3 food bars. Players will find wheat in hell, mines, villages or exchange with people. 1 emerald will buy 3 or 4 breads.

4. Sugar (Sugar):

To make sugar, gamers only need to **use 1 bunch of sugar cane** . This material will add to the appeal of pumpkin, ice cream cakes, or speed boosts.

5. Cake (Cake):

Once we have sugar, wheat and some other ingredients, we can make ice cream cakes.

You need **3 bundles of wheat** , **2 sugar** , **1 egg** and **3 milk** to get the cake. Each time using 1 cake will restore 1 bar of food. 6 cream cakes can be used once to restore 6 bars of food. Milk buckets must be returned after use.

6. Cookies:

Cookies will help players recover 1 bar of food. Need to prepare **2 bundles of wheat** and **1 cocoa bean** to create **8 biscuits** .

7. Golden apple (Golden apple):

Dizziness is of great value in energy recovery. When using 1 golden apple, we will recover 2 food bars. You need **8 gold bars** and **1 apple** to produce 1 golden apple.

8. Enchanted Golden apple:

Magical apples will recover 2 food bars, restoring blood within 30 seconds. Or golden apples are used for fire resistance for 5 minutes.

In order to make golden apples, gamers need to prepare **8 golden blocks** and **1 apple** .

9. Melon seeds (Melon seeds):

When the melon seeds are obtained, the player can plant and harvest a watermelon block of 9 pieces of watermelon. To have watermelon seeds need **1 piece of watermelon** .

10. Pumpkin seeds (Pumpkin seeds):

Like melon seeds, to get pumpkin seeds we will get from **1 piece of pumpkin** . 1 piece of pumpkin will **produce 4 seeds** .

11. Pumpkin pie (Pumpkin pie):

A pumpkin cake will recover 4 energy bars, very useful for players. To make pumpkin pie, you need 1 **pumpkin**, 1 **sugar** and 1 **egg**.

12. Yellow carrot (Golden Carrot):

When there is a golden carrot, the player will be restored to 3 food bars or used to process medicine. 1 yellow carrot needs 8 **gold seeds** and 1 **carrot**.

13. The bundle of straw (Hay Bale):

9 **bundles of wheat** will produce a bundle of straw for horse food or decoration in the game.

So the food has been prepared according to the formula that we introduced above. Food not only helps you survive during each game level, but also helps you recover energy or create medicine from the food itself.

Wish you all have fun playing games!
