How to parachute in PUBG Mobile

1. Select the skydiving position

Before deciding to skydive, let's see where we should jump. Zoom in on the map to find places with lots of houses, factories, factories. Some prime locations will have more items to loot. But you also need to be careful when you fall into those positions, because the enemy is also there to destroy you.

2. Quick ground jump

When parachuting, you need to land quickly to increase your chances of surviving yourself. The faster you get, the more opportunities you will take.

If jumping in the area near the flight path, the distance is about 600 - 700m, the character plays the first direction so that it is perpendicular to the ground to get the highest falling speed. In the case of long jumps, rotate the

character horizontally, parallel to the ground to fly as far as possible. When jumping, hold the directional button to rush forward and though it is self-extracting.

3. Loot when landing

After reaching the ground, quickly find the abandoned houses and then proceed to loot objects. First, pick up your gun to protect yourself while moving, then proceed to pick up the other equipment. If there is no backpack, pick up the color, treat the wound and the bullets.

In your backpack, there will be up to 3 types of guns as main guns (AK47, MP5, Shotgun, .), shotguns and sniper rifles like K98k, AWM . Gamers need to choose a gun with good damage. , the amount of ammunition is moderate to avoid backpacking and no additional equipment can be retrieved.

Good parachute jumps will give us an advantage when entering the game in PUBG Mobile. Don't forget the techniques while skydiving, as well as object priorities when picking up equipment.
