When you first come to a map, you play the character and are dropped into a random position, with absolutely no instructions or suggestions. You will need to perform the following operations in order for the game to progress.

Guide to play Don't Starve in the early days

As the name of the game - "Don't Starve" - ??this is your mission. It sounds simple, but living in a world full of pitfalls and strange of Don't Starve, it is not that simple at all.

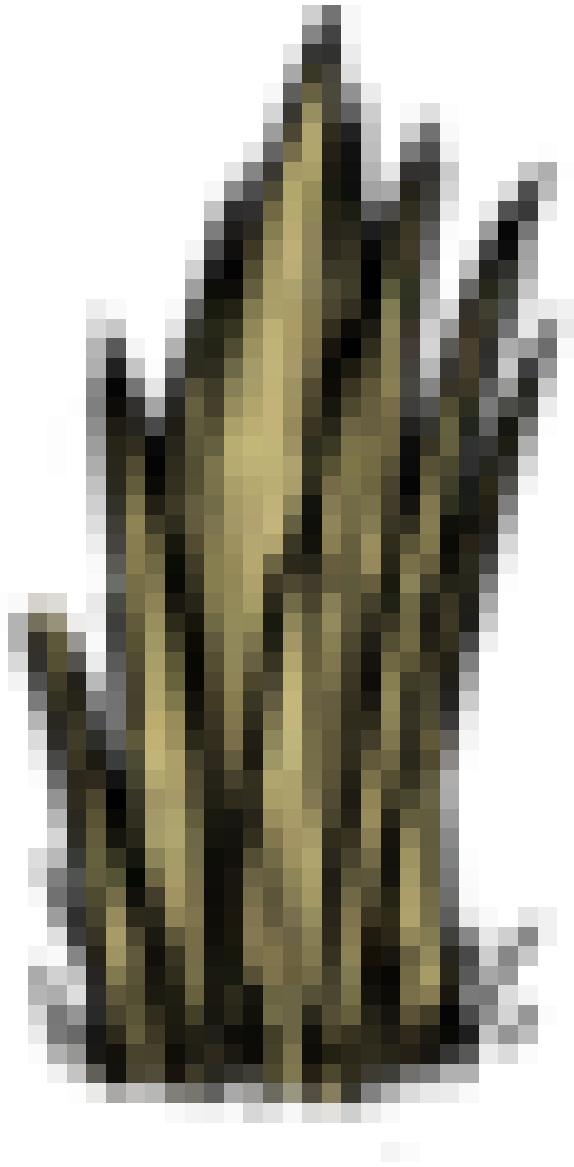

The first day

Immediately after being summoned, you should start walking around to open the map and find resources and locate the special community. While exploring, prioritize taking almost everything you can, mostly the following items:

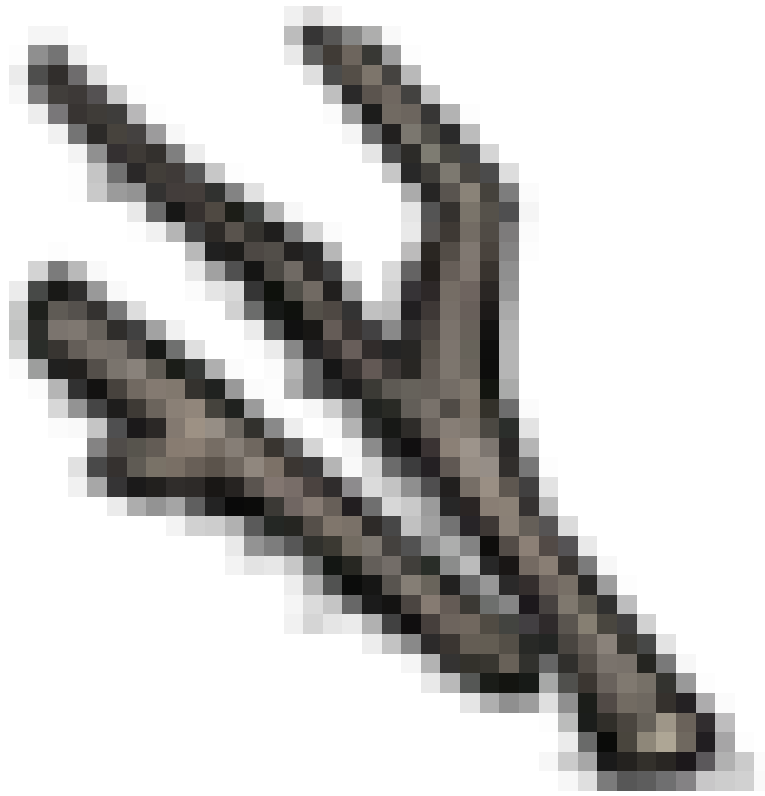

1. **Grass cut off**

from **Grass**

2. **Twig**

picked from **Twig**

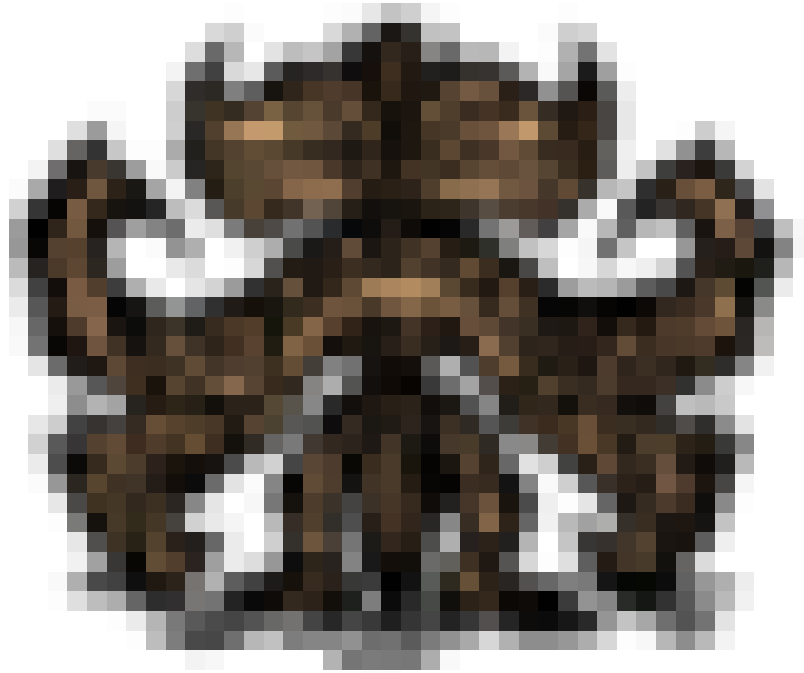

3. Picking up **Flowers**

to increase your **Spirit**

points by 5 , avoiding picking up the wrong **Devil Flowers**

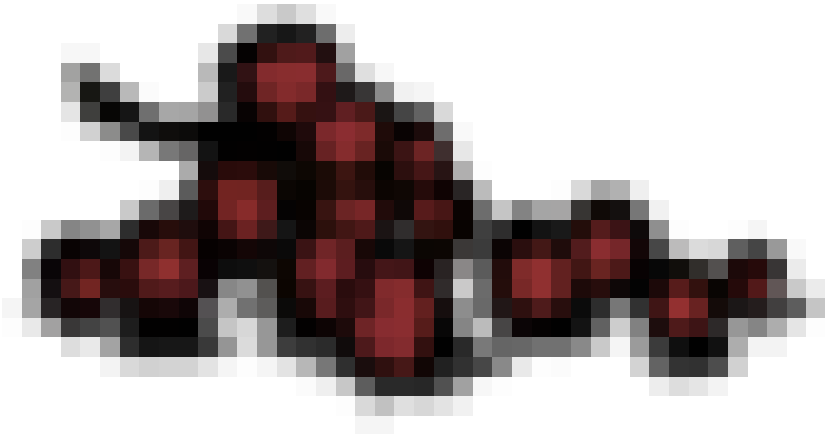

will reduce your mental points.
4. **Flint**

can be picked up easily on the ground.

5. Foods include **Berries**

collected from **Berries**

and Carrots

picked directly from the ground.

At this stage, you should only be interested in opening the map and updating the basic items, avoiding clashing with animals, monsters (also known as mobs) encountered on the road, if they chase then you just need to run far enough that they will give up.

During the afternoon-to-night period, your **spirits** will gradually decrease, making a **wreath**

to help maintain a stable mental state. When night comes you need a light source so Charlie won't attack, create a **Torch**

, hold it in your hand and keep moving to open the map.

The following days

The first item you will need is an **Ax**

, made from **Twigs** and **Burns** , used to chop down trees for **Wood**

. Overtime **Hoes**

and mining **Stone**

to grab **Stone**

and **Gold**

After that you need to proceed to build a **scientific machine**

with advanced manufacturing formulas and make yourself a **Backpack**

and continue to search and manufacture some items including:

1. **Coal**

: Search by burning the tree with a torch then cut it off.
2. **Feces**

in place with **Bo Lai**

3. **Wooden armor**

to reduce damage when clashing with enemies.

4. Traps

to catch **Rabbits**

and get their meat. Or use **Spears**

and attack **Frogs**

and Bo Lai, fighting is quite difficult and you need to be really careful. The technique to apply in battle is

Hit and Run : You hit the enemy 1 shot and then run, they will chase you, when it misses, you immediately hit 1 more time and continue to run.

If you find **Tactile Stone** on the way

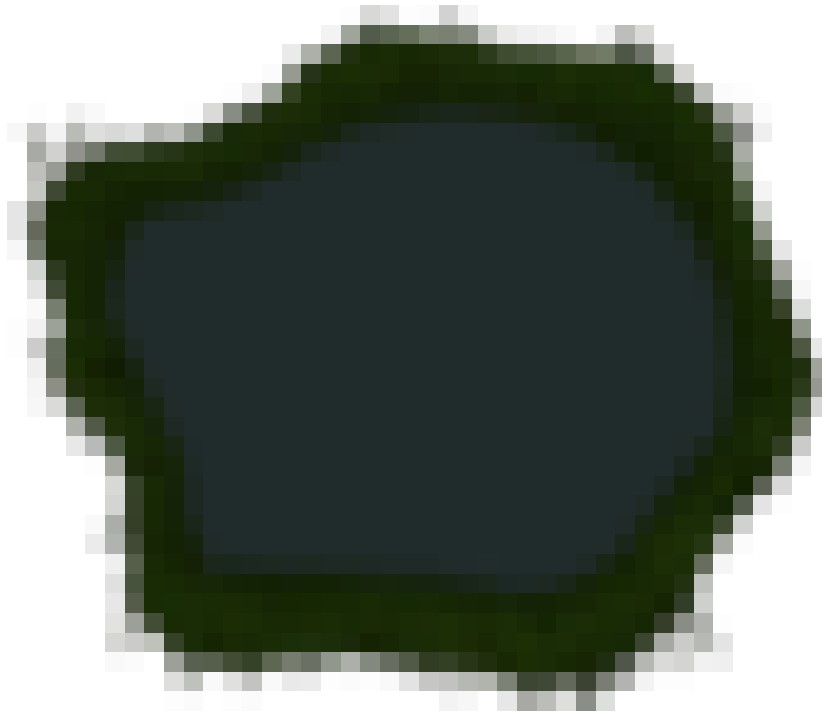

then touch it, when you die will be revived at that location 1 time. Always cook food with **campfire**

to ensure your health.

Now you need to find a shelter to live permanently, so choose the following criteria:

1. Near the place where there are many **crossbred cows** and **rabbits** , it is an attractive food source.
2. Avoid **Ponds**

and **Hives**

, because **F**rogs and **B**ees

will breed a lot and spring and be a nuisance to you.

3. Near where many trees such as **birch**

or tree **Evergreen**

When you find a shelter, make the following:

1. **The metallurgical machine**

is made with a **scientific machine** , then you can use the **hammer**

to beat the **scientific machine** because the **metallurgical machine** has all the recipes you need.

2. Stove

to provide light and temperature in the night.

3. Pot stew

to cook food.

4. Chests

to hold items.

5. **Field**

for growing vegetables.

6.

Drying **racks** to dry clothes when wet.

Tips to keep in mind in Don't Starve

Things to do

1. After being **ax** and exploitation **Wood** , you always keep yourself first few logs in person, in the night do **Campfire**

to create light and cooked food.

2. Cutting down big trees instead of less mature ones will give you more wood and may pick up sprouts to plant new trees.
3. Always collect **Flint** because they are a key ingredient in your tools.
4. Use a **Shovel**

to dig trees such as Twigs, Berry Bushes and Grass, placing it near the base for your convenience.

5. Always save food.
6. Always wear armor so you can be ready to fight at any time.
7. Let **Pigs**

eat **meat**

to get fertilizers for arable service.

8. Pick flowers when you see them
9. Discover as much as possible, don't be shy and use **Shovels** to dig the **Tombs**

and have the opportunity to pick up valuable items.

10. Redeem the Pig King

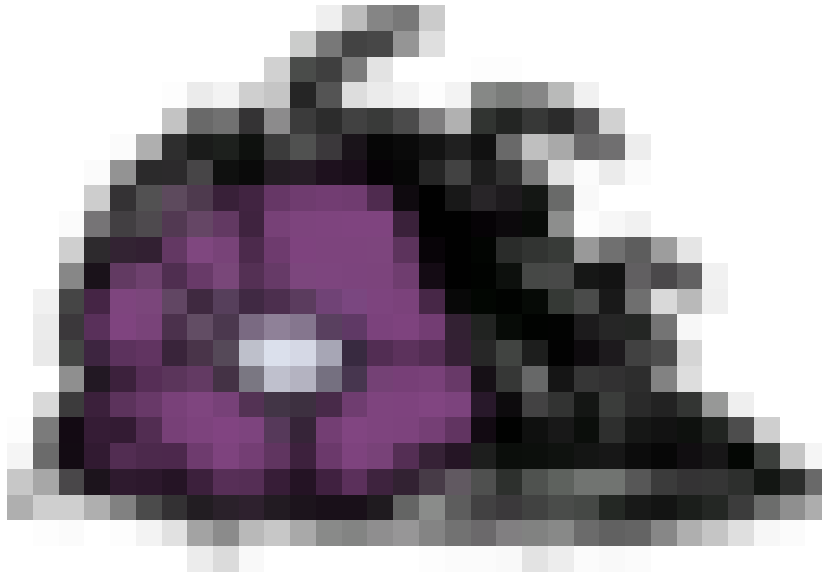

for gold, which will be your endless source of gold.

Should not do

1. Do not set fire near flammable items, you may burn everything. However, you can apply when you want to burn forests to get coal in bulk.
2. Do not eat **Monster Meat**

, as it will cause great damage to your **Blood** and **Spirit** , instead cook it into **Meatball**

with **Stew** .

3. Do not feed the **Pigs** to **Monster Meat** , they will turn into **Pigs** and become extremely aggressive.
4. Do not leave food on the ground, you will be taken by a mob.
5. Wait until the last moment of the afternoon, then light a fire to save fuel, usually only need 2-3 pieces of wood is enough for you overnight.
