

Guide to rent cars and rent cars with miOto

With the miOto app, you will rent a car, rent a car, rent a car with reasonable prices and options.

Placing cars, booking tourist cars is now a demand of many people, especially in the summer when tourism demand is high. Users often rent cars by looking for car rental agents, car rental or car rental, car rental, car hire self-drive through relatives.

Now you can rent a car right on your phone via the Miotto app. This is the app that will help you rent cars with the most convenient and suitable options for you.

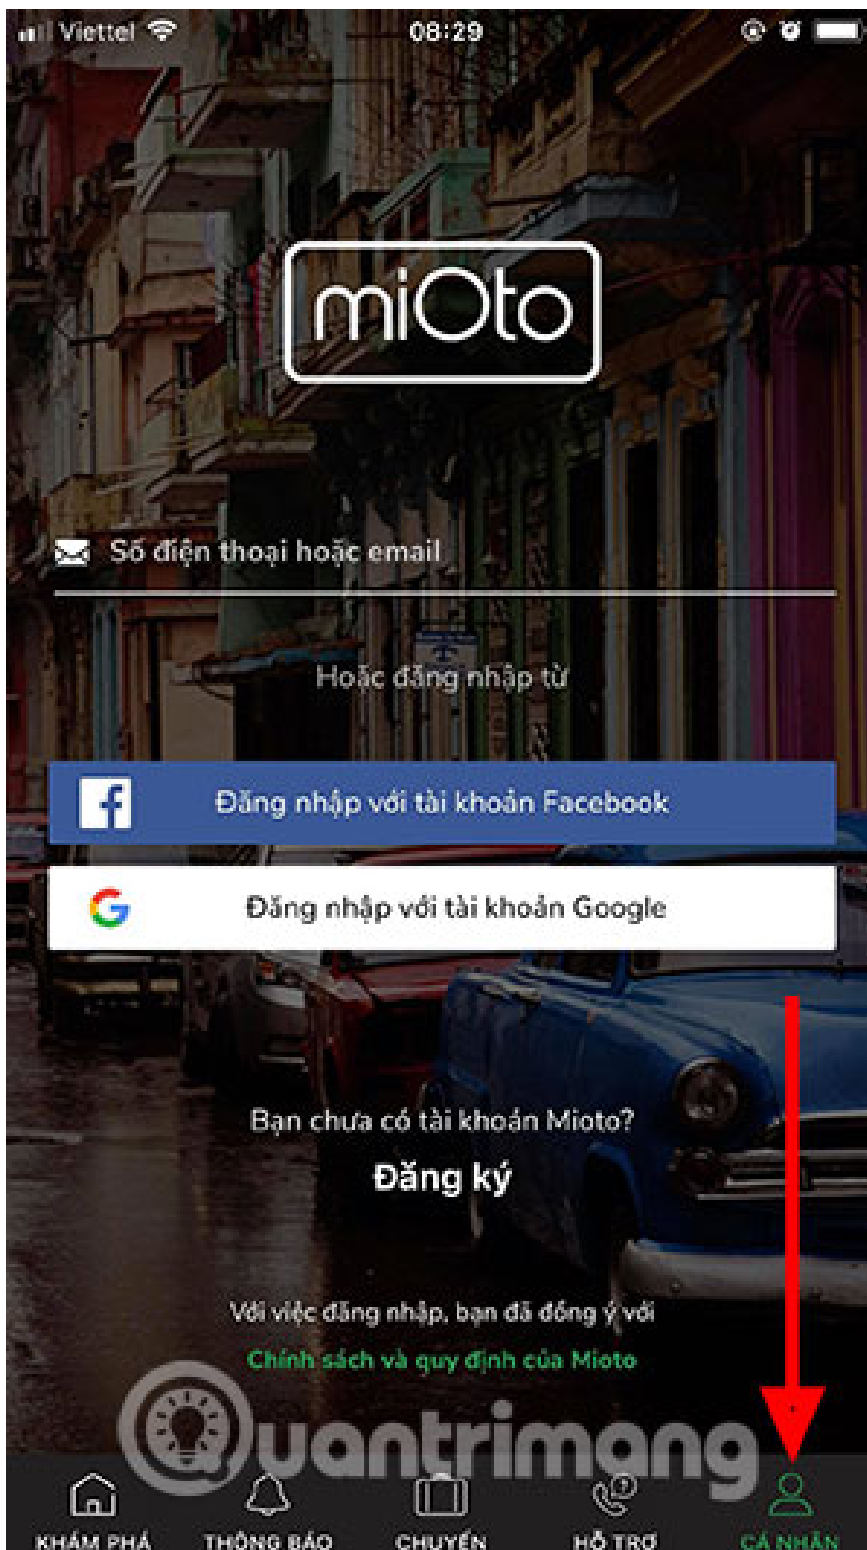

You can choose to search for car rental areas nearest to your location. Each car rental location you will find specific information about the type of car, price, rental conditions . The following guide for renting a self-driving car with Miotto will help you find the car. rent most suitable for me.

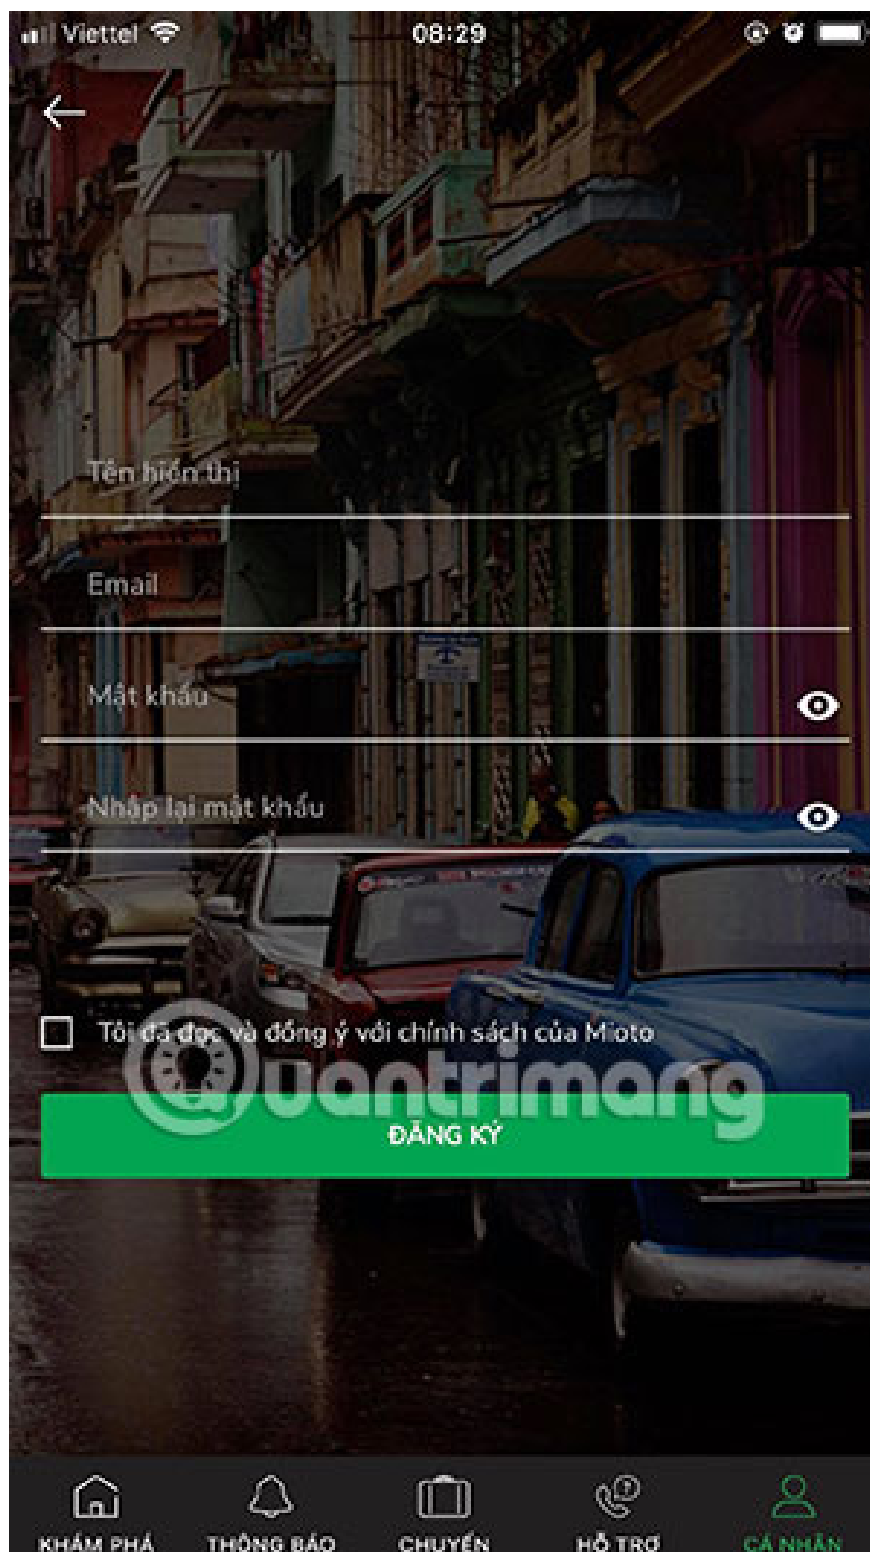

1. How to use Cars 4D + automotive screenings and 4D car kits
2. How to check for re-bought cars is mortgaging the bank or not
3. How to find the way to Google Maps for motorcycles

How to rent a car on the phone with miOto

Step 1: First download the Miotto app to your phone, then click **Personal** . In this section you can log in with your **Facebook** or **Google** account.

If you want to register a separate account on Miotto, please click **Register** below. Then write down the full display name, email address, enter the password twice and select **I have read and agree to Miotto's policy** and then click **Register** .

Step 2: Next go back to the **Discover** interface, enter the location you want to rent the car, for example, district, city or city.

Then choose the rental time, the minimum time to rent a car is 2 days, the example below is the picture that I started to receive the car at 21:00 pm on June 13 and will return the car at 20:00 on 14/06.

You can choose the time to receive the car at least 1 hour from the current time, and then select **Save** .
