3. Guide to watching football on Sopcast Android

How to watch football online using SopCast on Smart TV

Step 1:

First, click on the link below to download SopCast to the device and proceed with the installation.

1. Download SopCast software.

Note: This link is in the form of APK, so you need to use USB to copy it then copy to Smart TV.

Step 2:

On the TV control, press the Home button to access the interface of the Smart TV homepage.

Step 3:

Now click on the App Store section, manage the files (Usually each TV series has a different interface and depending on the TV mode, this section also has the same interface).

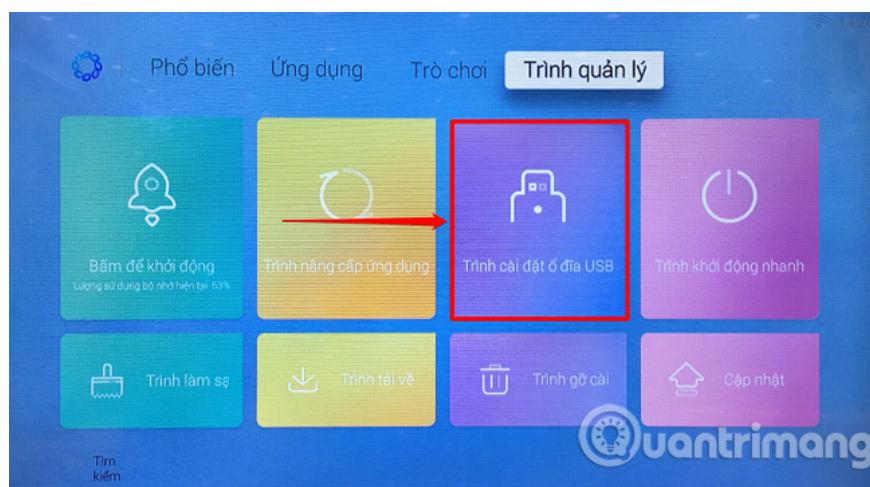

Step 4:

You select the Manager section, this is the place to manage the outputs and inputs of Smart TV.

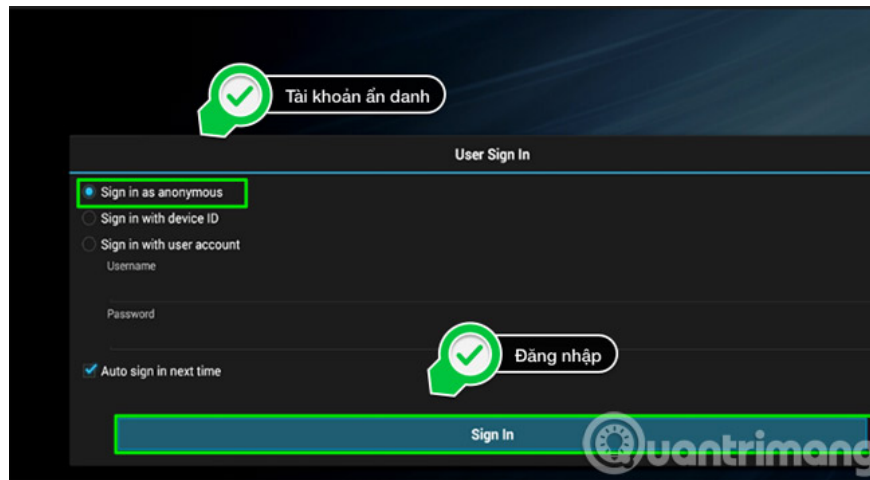

Step 5:

Next, click the USB drive installer and select Sopcast APK to install this application on Smart TV.

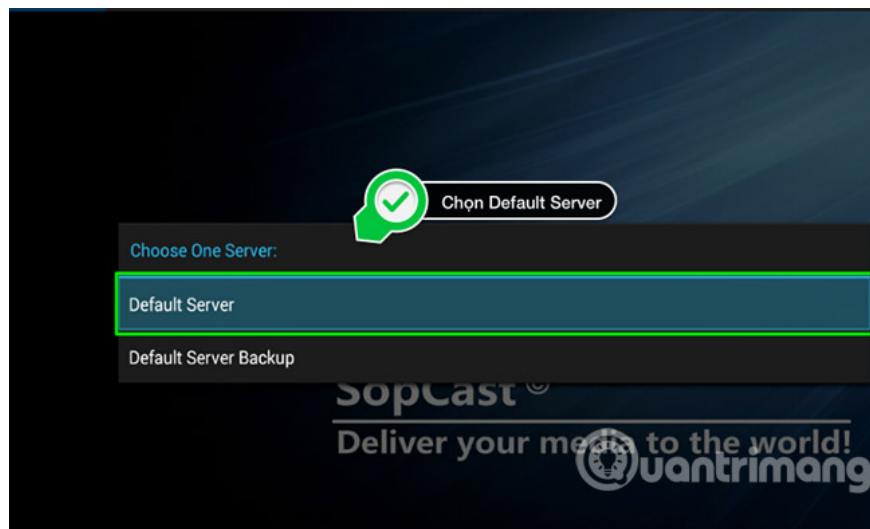

Step 6:

After completing the Sopcast installation process, if you open the application on Smart TV, the TV will display a login message. At this point, select Sign in as anonymous so you don't need to login with a password.

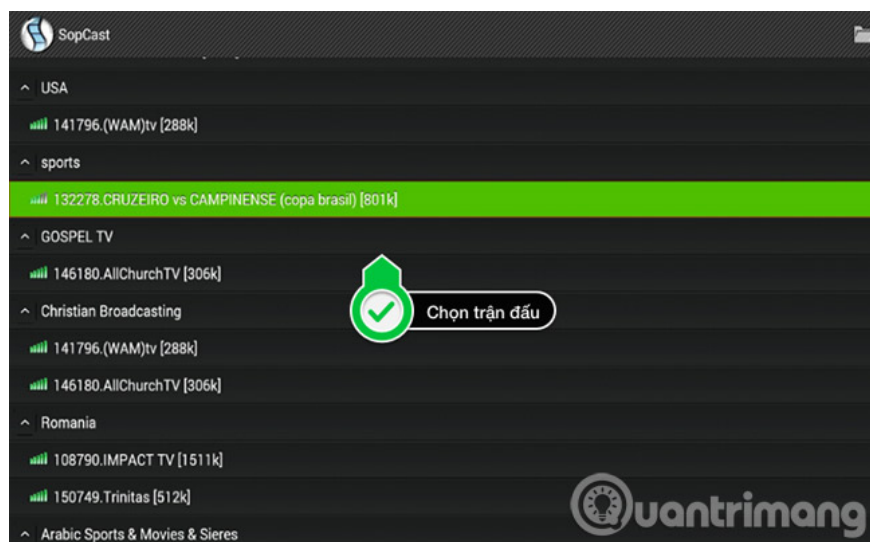

Step 7:

You need to select the server from the list of application servers, by default you should choose Default Server.

Step 8:

Up to now, you can watch SopCast football on Smart TV through the above channels. Please select the ongoing match I want to see.

Note:

For those who cannot watch football with SopCast on Smart TV because Smart TV does not run Android, you can also watch SopCast with links on the network. To find Sopcast link to watch football you can click on this link:

1. Link Sopcast watch live football
2. Sopcast: Watch live football, TV, K + online

Some experience of choosing SopCast link:

1. You need to know the exact date and time of the match to find the link you like, then access it for about 5 - 10 minutes for the TV to download until the start of the match is moderate.
2. SopCast links for stable transmission usually come from Russia, Thailand, Spain, .
3. Each link indicates the speed parameter (at the position of the word kpbs), the higher the number, the better the link for the quality, the more HD will be viewed.
4. To see SopCast is stable, not jerky lag, you should install a high-speed network.

Thus, we have just learned the steps to install to watch football using SopCast on Smart TV. From now on, you can comfortably enjoy the top-notch matches right on your home TV.
