Dead by Daylight mobile is a survival horror game based on the original version for PC and Console systems.

Dead by Daylight supports five players at the same time, players can choose to play the role of a bloody killer or one of 4 survivors in an extremely creepy and macabre context.

If you choose to become one of four survivors, your task is to try to hide from the dangerous killer who is hunting, and find and fix broken machines to unlock the safe exit door. out.

If you play the killer cold-blooded, you will have to hunt down the remaining four players and stop them from escaping your "graveyard".

Each character in the game has its own skill system, players can unlock to customize depending on the character level, making the process of 'hiding' or 'hunting' easier.

Control system, graphics and some interface elements in the game have been changed to fit mobile devices.

Dead by Daylight mobile version will make you feel "chills", and have scary experiences like the original version.
