

Happy's Humble Burger Farm: Tips for New Players

Happy's Humble Burger Farm: New Players Tips, Happy's Humble Burger Farm Survival Tips, Help Players Survive From Monsters

Over the past few years, horror games with old PS1-style graphics have become increasingly popular. Puppet Combo's games used the VHS/PS1 graphic style to scary effect and became one of the most popular horror gameplay.

One of the more recent examples of this style of game is Happy's Humble Burger Farm, a unique survival horror game that combines games like Diner Dash and Five Nights At Freddy's.

Happy's Humble Burger Farm is truly an exciting and horrifying experience. It's a lot more refreshing than other games of the same genre and exploration of the environment is necessary to make progress in the game.

New players can be overwhelmed by the horror, so apply the New Elysian City survival tips in Happy's Humble Burger Farm.

Survival tips in Happy's Humble Burger Farm

Explore the city thoroughly

Like many semi-open world sandbox games, Happy's Humble Burger Farm is packed with neat collectibles and upgrades, easily found in the setting of New Elysian City.

Players should take the time to run around the city, in the unlocked areas as it will help to unlock more story or even find important upgrades for the restaurant.

Remember that New Elysian City is not necessarily the safest place. As the player progresses through the story there is a possibility of encountering basic enemies roaming the streets.

All of these monsters are unique and spooky in their own right, but most won't instantly kill the player. People will easily dodge them in their surroundings.

The game's storytelling is somewhat based on exploration, so if you want to get the most out of it, players need to have the courage to move to every corner of the street. Then focus on finding notes, cassettes to fill in the missing parts of the plot.

Look out for upgrade tokens

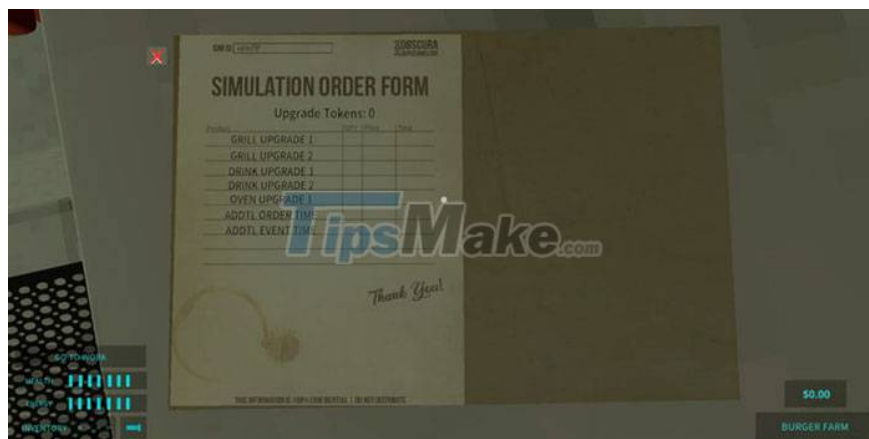

Even those who don't care much about the story in the game should still explore the city as it will increase their chances of finding small circular yellow cards in the darkest corners of the city.

These tokens are used to upgrade restaurant parts, directly making the player's job easier.

Always remember that half of the game is running the restaurant and keeping the customers happy. Just like most restaurant management simulation games, failure of the chef mission will lead to bad results. It is important to always upgrade the restaurant, especially if the player has difficulty with the restaurant management aspect.

Use upgrade tokens

Many players focus on doing other tasks but forget about using tokens to upgrade the restaurant. Upgrade your restaurant before or after a shift.

This is when you have the most time to weigh your options and make a good choice. To upgrade the restaurant, go into the kitchen and interact with a book placed on the right side of the front counter.

The front counter is the one facing the restaurant's lobby. The book can be found at the far right of this counter. The inside of the book offers many upgrade options such as baking dishes, extra time on orders and drink upgrades, etc. All of these are very useful, especially when there are more and more monsters. Animals start to find their way into the kitchen and get in the way of people.
