

# Has the Samsung Galaxy S11 launch date been set?

According to some reports, Samsung Galaxy S11 is likely to launch in the first quarter of 2020.

The launch of Samsung's flagships earlier this year paved the way for new information about the Samsung Galaxy S11. This year Samsung filed a patent for a phone with a small built-in spectrum. Some reputable sites like Sammobile have also brought the latest and interesting information related to the launch time of the next Galaxy S generation. This information makes the industry more skeptical about the launch time of the Galaxy S11, whether the S11 can be launched early next year or not?

Although it is still too early to talk about the exact launch date, Samsung is expected to hold its next Unpacked event on the 3rd week of February, February 18, 2020, as announced. Annually, Samsung announces the new Galaxy S flagship in San Francisco. Also related to this Galaxy S11, the new phone will own a 4-megapixel camera cluster, with a resolution of 108 MP and can support 5x optical zoom.

In particular, using the integrated spectrophotometer for Samsung Galaxy S11 as mentioned above will determine the water content on the skin, body fat percentage and nutritional value of food through infrared light to decompose. chemical composition, accurately indicating the amount of individual nutrients in a food such as fat, protein and carbohydrates.

In addition to the new Android 10 operating system running on S11, OneUI 2.0 user interface and up to 1TB internal memory, the headphone jack is also being studied for removal.

Please also wait for the official information on Samsung Galaxy S11 to see what's new, unexpected for this latest Galaxy S version in the near future.
