Hello Neighbor is the best mobile sneaky horror game available today, its PC version and Xbox One have been feverish for the gaming community when released last year. Currently, Hello Neighbor has a mobile version and is widely released worldwide. Players can easily download games to the device via Store and can fully transfer account data from the last Beta period.

Although it is classified as a horror game, Hello Neighbor does not cause a creepy feeling to the players. In Hello Neighbor Mobile, the player takes on the role of a curious person, finding ways to break into the eccentric neighbor's house and discover the secrets in it. In the process, players will have to solve difficult puzzles while finding ways to avoid the neighbor's fall from discovering your intrusion. Fear whenever the neighbor gets close to where you hide, the atmosphere of the game becomes tense, creating horror.

After illegally infiltrating the house of a successful neighbor, the player's next task is to escape from the place without being detected.

Hello Neighbor possesses a beautiful 3D graphics system designed in the style of animated graphics that promises to bring gamers new experiences.

In order to battle this game, your phone must meet the following configuration requirements:

1. IOS version: Devices from iPhone 5s and above with iOS 10 operating system.
2. Android version: Requires Android 7 and above and owns at least 2GB Ram.
