

'Holy' Photoshop transforms dry leaves into landscapes, the lake's shallow water makes many people astonished

With training skills, Gilmar Silva turned the background, mediocre accessories, even shabby, torn into a talkative image, causing viewers to watch the original image. will not be able to recognize.

Photoshop, a graphics editing software familiar to all technology users worldwide. This is a 'powerful' tool that, if it falls into the right hands, it can turn a completely modified image afterwards, to a whole new level completely different from the original.

Gilmar Silva, a professional photographer of the LUGARx FOTO brand, has just shocked the online community with his works. With skillful photo editing skills, Gilmar Silva has turned mediocre backgrounds and accessories even shabby, torn to become a talkative image, causing viewers to not see the original image. will not be able to recognize.

Here are the beautiful new works created by Silva's dreamy hands, invite you to admire:

LUGAR

FOTO

Only with water puddles left after the tide receded was enough for Silva to satisfy the virtual living needs of the girls.

The look is mischievous to humor, but the one who eventually turned out to be a fairytale girl right away.

Sewer pipes can also become a peaceful and romantic place.

One canopy froze the whole forest full of fantasy.

LUGAR

FOTO

It looks funny but after re-editing it is sparkling and romantic.

Just using a deep blue sea filter from a soft drink bottle is enough to make a difference.

Puddle on the road also turns the fairy.

As long as you want, hugging the Moon is also a small thing.
