

# Honor V30 Pro, Huawei's 5G phone downloads 1.6 GB in just 28 seconds

The Honor V30 Pro took only 28 seconds to load the 1.61 GB game, while the iPhone 11 took two minutes to load more than 400 MB.

Honor - Huawei's "child" brand has recently launched two new phones, the Honor V30 and V30 Pro, focusing on a gaming experience with strong performance.

V30 is integrated Kirin 990 chip with dual-band modem Balong 5000 separately, the battery has a capacity of 4200mAh, supports 40W fast charging.

The V30 Pro version is equipped with a 7nm Kirin 990 chip, built-in 5G modem inside the chip, supports SA and NSA, supports 40W fast charging, 7.5W wireless reverse charging, 27W wireless charging and battery capacity. 4100mAh capacity. 5G modem on V30 Pro is backward compatible with 4G network.

Honor claims that, compared to the Apple A13 found on the iPhone 11 trio, the Kirin 990 chip can give AI performance superior.

Honor posted a test video comparing the 5G speed of the Honor V30 Pro with the iPhone 11. In the Honor V30 Pro video, it took only 28 seconds to load a game with a capacity of 1.61GB. An impressive number compared to the current 4G network but still far below the announced specifications of the 5G network is the speed of 10 Gbit / sec (equivalent to 1.25 GB / sec). Meanwhile, with the same test, the same carrier, to download about a

quarter of the game capacity (over 400 MB) iPhone 11 with enough 4G display takes up to 2 minutes.

Check out the 5G V Honor Pro comparison test against the iPhone 11 in the video below.
