

How many times did a year return home?

The end of the year is an opportunity for each person to summarize everything in the old year: success, failure, joy, sadness and setting goals for the following year.

The end of the year is an opportunity for each person to summarize everything in the old year: success, failure, joy, sadness and setting goals for the following year.

But this is also the moment that makes us nostalgic for the old things, the memories of the peaceful New Year in childhood and the parents, the family rushed to flood in the mind, so that someone wondered: "One How many times have you visited your parents last year? ".

Tet holiday is family

Modern life with a fast-paced lifestyle, people are dragged into tired jobs with the goal of making money, so have the opportunity to stabilize their life. Therefore, during a hard year, the children from the countryside only looked forward to the few Tet holidays to be with their families, enjoying the warm feeling of friendship. **Tet is the day of the union .**

Sometimes you ask yourself: How long have you been away from family meals cooked by your own hand? How long has it been before listening to your father's loving scolding whenever you make a mistake? When we were young, we often did not appreciate those moments, until we were grown up and regret it .

Have you ever known: Happy mother's happy smile every time you call home, even if only a few quick sentences to report your situation, sometimes too busy to finish the sentence, and not even hear the words "Keep me healthy," she said. Never know behind the sadness hidden on the corner of my mother's eyes when you say: "This Tet is busy and not coming back" is a memory of a whirl.

The biggest meaning of the **New Year is the time to spend the whole family** on the tray of rice, together to welcome the new year, tell each other the stories of the past year .

" How many times have you come home to your parents in the past year ?"

Certainly, many of us fire their homeland to celebrate New Year, because of the reason: " *Ráng note this year, the next year is fine* ", or just because the ticket to go home for Tet "is both expensive and rare".

On the occasion of Tet except for salary, everything will be priced, flights and trips back to families will increase from 20% to 60% on the occasion of approaching Tet in the last 5 years. It means that many people, despite being economically qualified, are still "sitting on the fire" when watching tickets to get back to their families.

But sit down and make yourself a calculation: "How many times a year have you come to visit your parents ?

Some people only visit their parents once a year. If parents live for 20 years, they will only meet 20 times. But for many people, parents can still live in this life for about 10 years, so only 10 times to meet their parents. Time is infinite, and people are finite, cherish when you can!
