

How much money does Apple earn every second? This number far exceeds the imagination of many people

Consumer lending company TitleMax has released an infographic that reveals the list of giant companies earning the most money every second today.

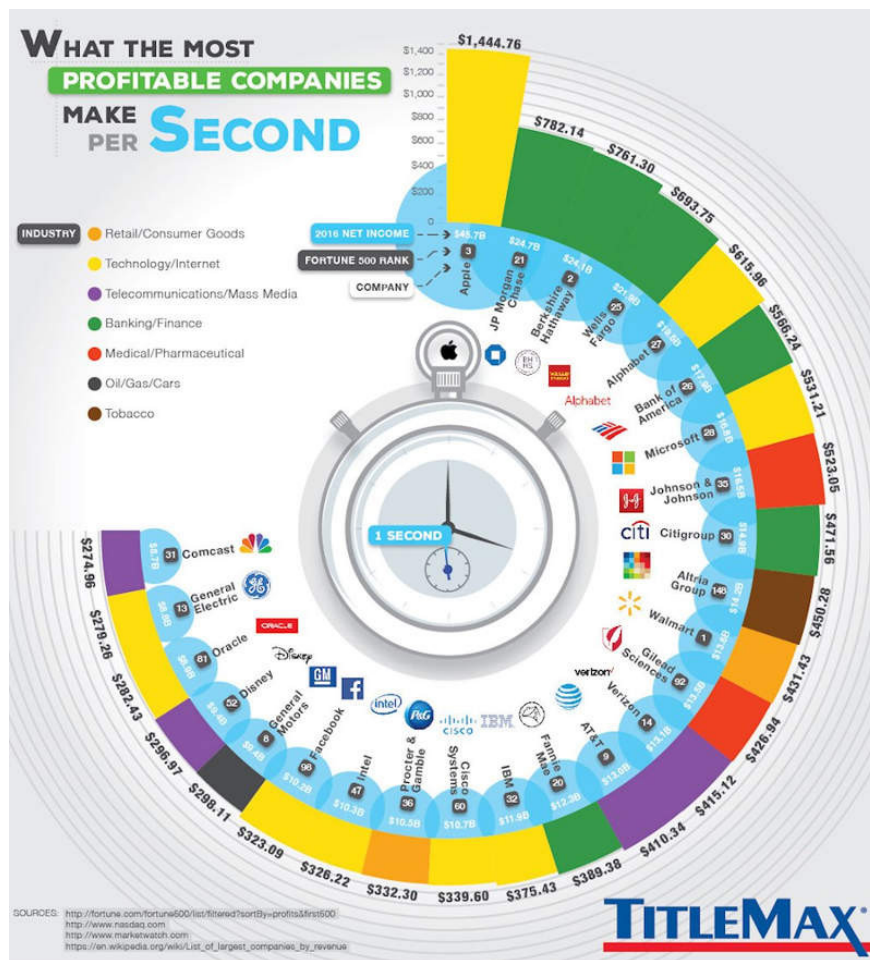

Consumer lending company TitleMax has released an infographic that reveals the list of giant companies earning the most money every second today.

Unexpectedly many people, 'giant' Apple still holds the top spot with the amount of about 1,444 USD per second, equivalent to 5.2 million USD per hour, 127 million USD per day, good 45.7 billion USD per year. This figure is given based on income data for 2016.

Second place went to financial firm Morgan Chase for \$ 782.1 per second, about half that of Apple.

Below is a vivid chart of TitleMax that enables us to see the net income that Fortune 500 companies are earning every second.

Statistics of the amount earned per second by Apple and Fortune500 companies.(Source: TitleMax)

Rank	Company	Profit per second	Net income (2016)
#1	Apple	\$1,444.76	\$45.7B
#2	JPMorgan Chase	\$782.14	\$24.7B
#3	Berkshire Hathaway	\$761.30	\$24.1B
#4	Wells Fargo	\$693.75	\$21.9B
#5	Alphabet	\$615.96	\$19.5B
#6	Bank of America	\$566.24	\$17.9B
#7	Microsoft	\$531.21	\$16.8B
#8	Johnson & Johnson	\$523.05	\$16.5B
#9	Citigroup	\$471.56	\$14.9B
#10	Altria Group	\$450.28	\$14.2B

The data shows Apple's massive net profit when compared to other companies. These huge numbers are amazing enough for many people. In the near future Apple will soon become a multibillion-dollar company.

The graphic above is based on data from 2016, recently Apple announced the results of 2017. Accordingly, the company has reached 48.4 billion USD, equivalent to 1.533.17 USD per second.

Other giant companies like JPMorgan Chase and Alphabet (Google's parent company) have yet to announce their 2017 business results, but it seems that no company can keep up with Apple.
