

How to activate Download Booster on Galaxy S8, S8 Plus

Download Booster on Galaxy S8 duo, S8 Plus is a feature that supports application downloads or files that exceed 30MB, when connecting to LTE and Wifi.

Download Booster is one of the useful features on the Galaxy S8, S8 Plus duo. This feature will accelerate the download speed of files, especially when users download files such as exceeding 30MB. The mechanism of this feature is to increase data download speed by combining LTE connection and WiFi connection. However, by default this feature has been turned off and you can enable Download Booster on Galaxy S8 / S8 Plus according to the article below.

Step 1:

At the interface on the device, users click on **Settings** and then select Next **Connections** .

SETTINGS

Connect your device to your car to access useful apps safely while driving.

Download booster

Off

VPN

Set up and manage Virtual Private Networks (VPNs).

Ethernet

So you have activated the Download Booster feature on Galaxy S8, S8 Plus devices, increasing the speed of downloading files on the device. However, users should note, Download Booster works based on a combination of WiFi and mobile data, so you can use a significant amount of data. In case you are using a 3G or 4G package, it is recommended to turn on the data limit mode, to limit the deduction status to the original account.

I wish you all success!
