

How to Active Office 2019, activate permanent copyright using CMD

In this article, Taimienphi will show you how to get Active Office 2019 for free forever, then you can freely use this office toolkit to work, enter text data, create presentation slides and many more. something else.

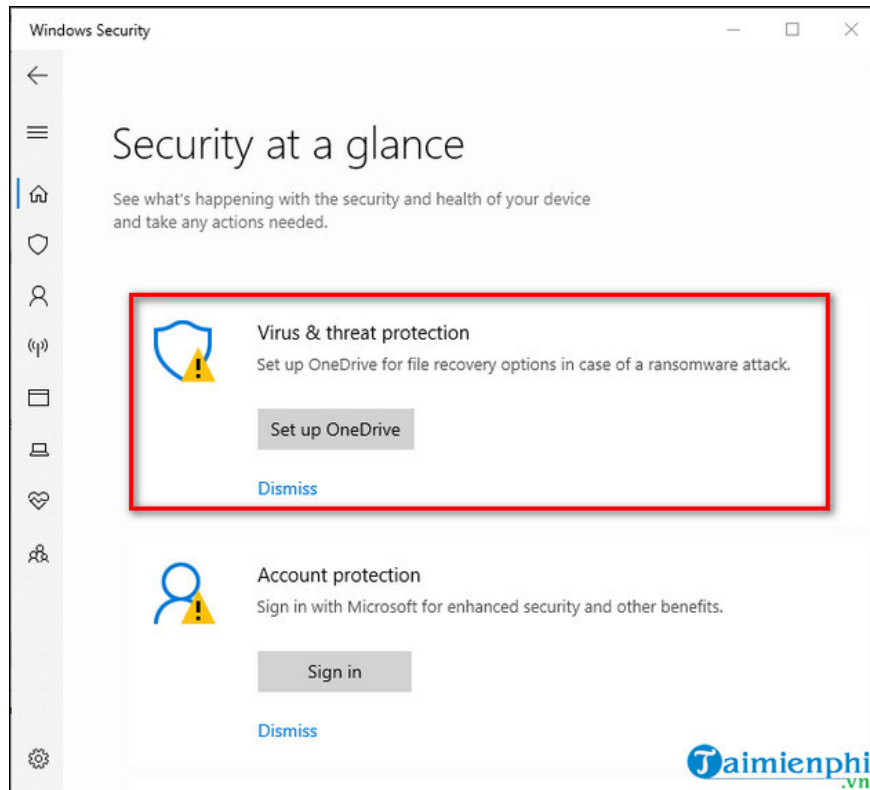

Office 2019 is a new version of Microsoft's office applications that allows users to use Word 2019, Excel 2019, PowerPoint 2019,. To use all their functions, users need to **activate Office 2019** and activate the copyright. Office 2016 according to the Free Download instructions below.

Instructions to turn off Windows Defender to Active Office 2019 using CMD

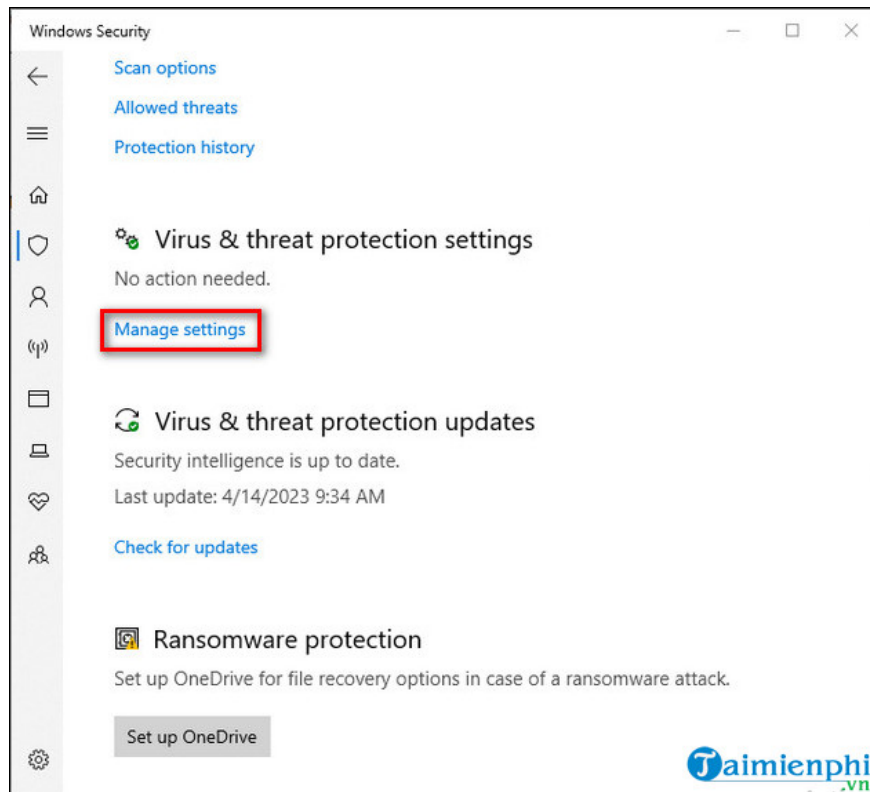

To successfully activate the Office 2019 license, you first need to disable the Windows Defender Antivirus tool and antivirus software currently active on your computer.

Step 1: Search for **Windows Security** in Window Search and click on the corresponding result.

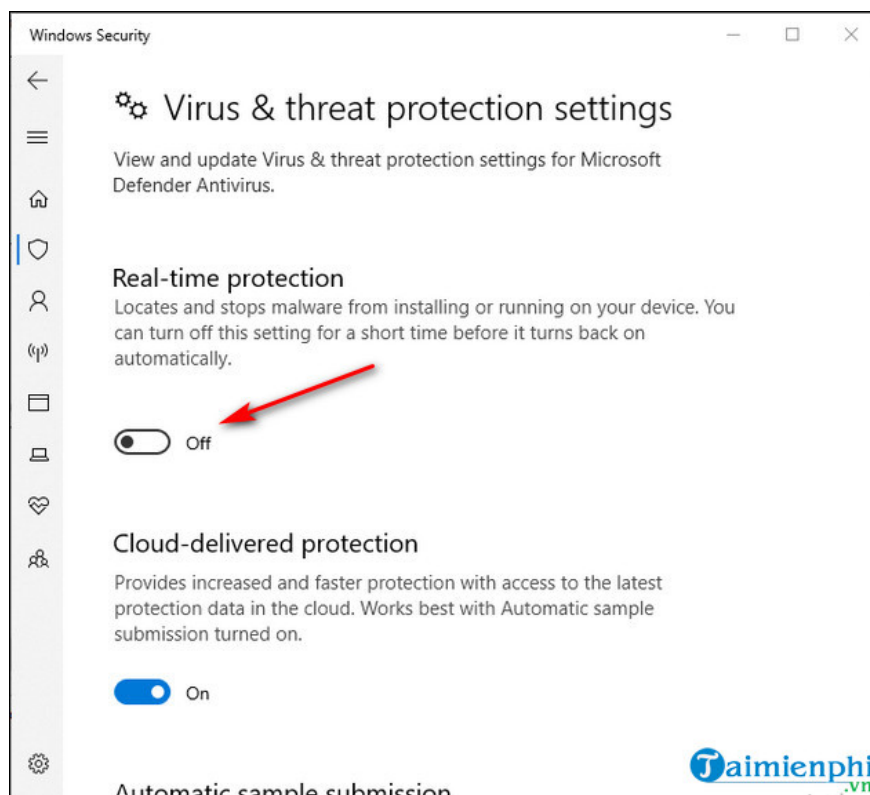

Step 2: Select **Virus & threat protection**.

Step 3: Under the **Virus & threat protection settings** section , click on the **Manage settings** option.

Step 4: Turn off the **Real-time Protection** option.

How to activate Active Office 2019 with permanent copyright using CMD

Immediately after turning off Windows Defender, readers need to follow these steps to successfully activate the license without using the Product Key, because after **installing Office 2019** , you can only use some of its functions. The software cannot be fully used if it is not activated

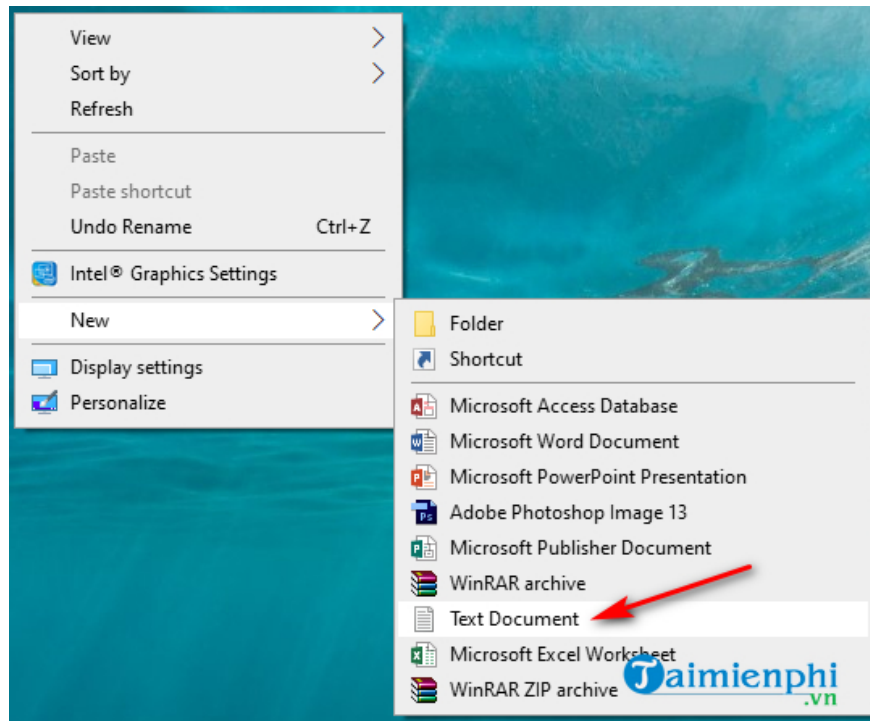

1. Quick guide

First, copy the Active Office 2016 code **HERE** and paste it into **the new Text Document** => proceed to **Save As** => name it **Office2019.cmd** and save it to the **Desktop** . Then **right click on Office2016.cmd** and run with **Admin rights** .

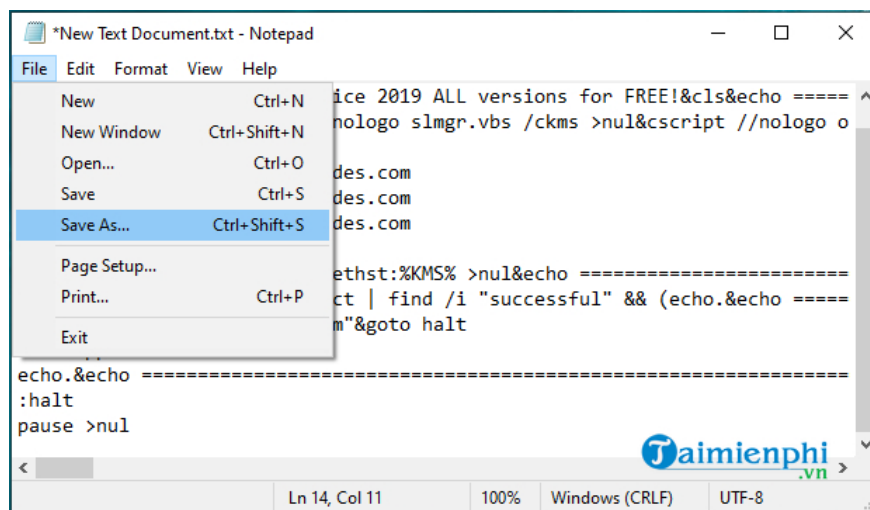

2. Detailed instructions

Step 1: After installing Office 2019, copy the code **HERE** **Step**

2: Right-click on the screen, select **New > Text Document** and paste the code you just copied there.

Step 3: Next, select **File > Save As**, and save the file with the name **Office2019.cmd**.

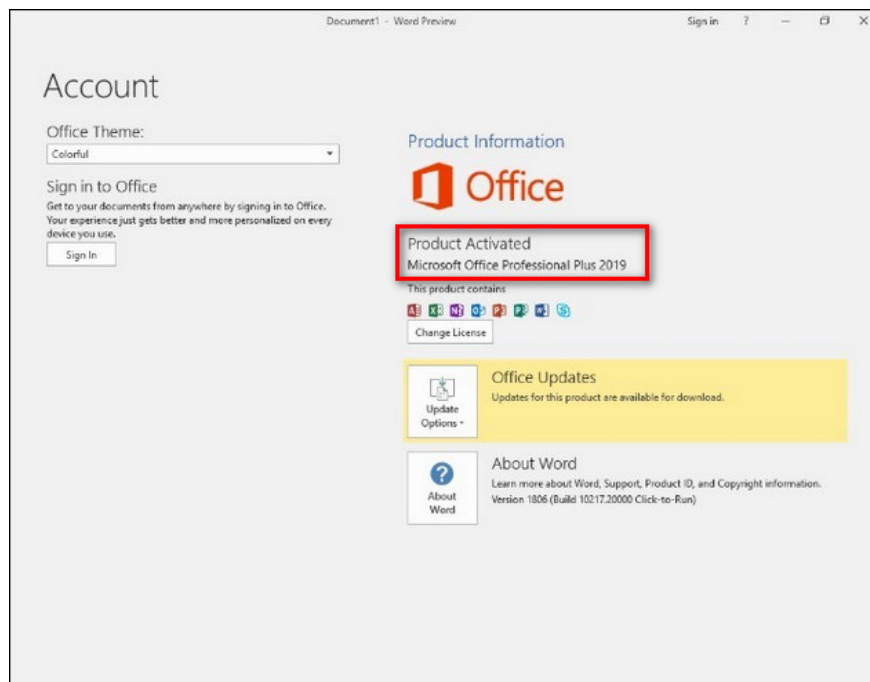

Step 4: Turn off all open Office programs on your computer and right-click on the newly created **Office2019.cmd** file and select **Run as administrator**.

Step 5: Wait a moment and if you see the words **Product activation successful** appear, it means you have successfully activated Office 2019.

```
Administrator: Activate Microsoft Office 2019 ALL versions for FREE!

Step 6: To check for sure whether Office 2019 has been activated or not, open Word and select **File > Account** and will see the message **Product Activated Microsoft Office Professional Plus 2019** . This means you are using copyrighted Office 2019.

Once the product is activated, you can link your Outlook/Hotmail account for Office updates and OneDrive backups. So, you have completed Active Office 2019 and permanently activated the license for Microsoft's latest office tools. This operation is relatively similar to **Active Office 2016** , but the code for each version is different.

Unlike using **Key Office 2019** , activating the license with CMD is completely free, you can do the same

operation if this toolkit requires activation.
