

How to add a signature to photos on iPhone

If you want to add signature to photos on iPhone, you can install Siri Shortcuts application.

One of the ways to create image copyright is to insert text into the image or insert the logo into the image. You can insert text into photos in Photoshop, or use any application to insert text into images. For those who want to add watermark to photos on iPhone, Siri Shortcuts application can be used.

Siri Shortcuts application will install shortcut iPhone Add watermark, then attach logo according to the type of photo taken by iPhone. For example, you have an iPhone 6S and want to attach photos taken from this phone. Besides, users can stamp multiple photos at once. The following article will guide you how to insert logos into photos on iPhone.
