

How to add Admin of Telegram chat group

Currently, the Telegram chat group has allowed the group admin to add a new admin to jointly manage the group, with some features similar to the first Admin of the group.

Currently, the Telegram chat group has allowed the group admin to add a new admin to jointly manage the group, with some features similar to the first Admin of the group, quite similar to the feature of adding a Skype group admin. The person appointed to be the admin of the Telegram chat group will join you in managing the group, controlling the group members as well as the content in the group. And the admin creating a Telegram chat group has the right to add anyone as an admin and only the group creator can do it. The following article will guide you to add Telegram chat group admin.

Instructions for adding admin of Telegram group

Step 1:

At the Telegram chat group interface, users **click on the group name** . Then click on **the pen icon** to proceed with editing the Telegram chat group.

Aggressive Anti-Spam

Telegram will filter more spam, but may occasionally affect ordinary messages. You can report False Positives in Recent Actions.

Add Admin

 **Nguyen Duong**
Owner

You can add admins to help you manage your group. Press and hold to remove them.

Step 3:

Now you see the list of group members on Telegram. If you want to select a member to be the group admin, **click on that member** . Switch to the custom interface of the new admin rights. If you want the new admin to have no management rights, turn it off.

Below there will be an additional display title for the new admin that appears in the group for other members to see this new.

After setting up, **press the v** in the top right corner to save.
