Instructions for installing Youtube extension Video Effects

To use it, you first need to download the Youtube Video Effects extension by clicking on the link below. Then, select the *Add to Chrome* button to complete the installation of Youtube Video Effects.

1. Youtube Video Effects

Instructions for turning on Dark mode on Youtube

1. How to enable Dark Mode on Youtube

With this utility, now turning on night mode (Dark mode) for YouTube is very simple. You just need to click on the Youtube Video Effects icon, then turn on the *YouTube Dark Mode* item and reload the page to apply the change.

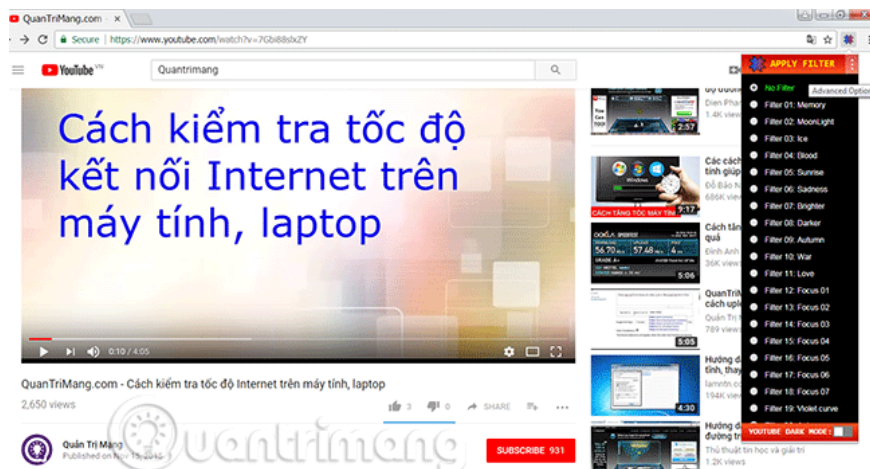

Instructions for removing banner ads, deleting the upper and lower black spaces of Widescreen-recorded videos

The "annoying" or top and bottom black ads of some videos make you feel uncomfortable when watching, please follow these steps to remove them immediately:

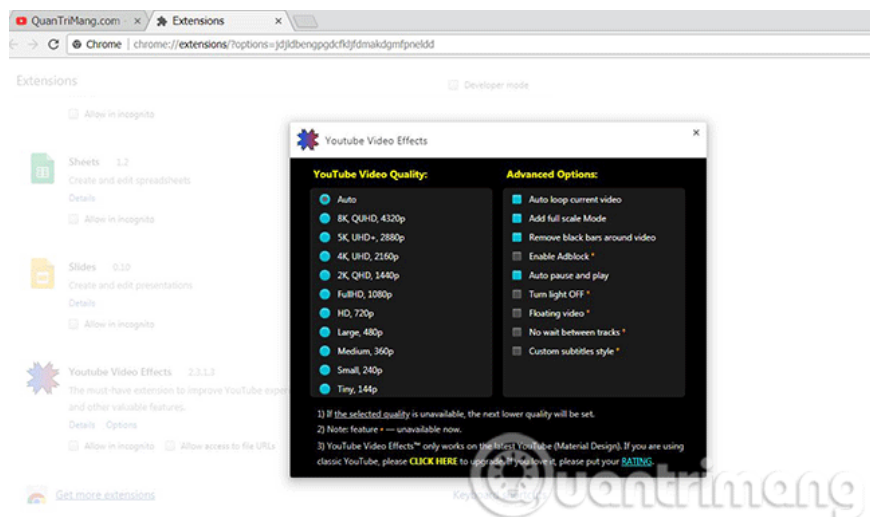

Step 1:

Click on the extension icon, select the three dots button in the upper right corner (Advanced Options) to turn on the YouTube image panel.

Step 2:

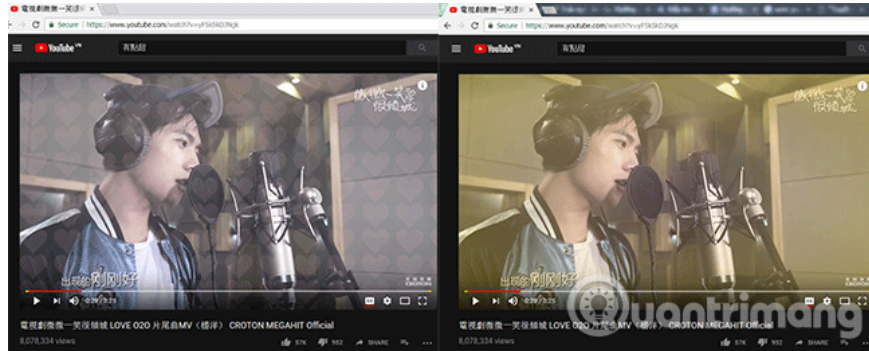

Here, you can freely customize a lot for YouTube.

1. **YouTube Video Quality:** Set the default resolution when downloading YouTube videos.
2. **Auto loop current video:** Play the current YouTube video repeatedly.
3. **Add full scale mode:** Add full scale mode for video.
4. **Remove black bars around video:** Delete the black space on the bottom of videos recorded in widescreen format.
5. **Enable Adblock:** Block YouTube ads (Not updated).
6. **Turn light off:** Darken things around to watch 'extreme' videos (Not updated).
7. **Custom subtitles style:** Configure subtitles (Not updated).

Add video effects to videos playing on YouTube

The most interesting part of the extension is probably the feature that allows adding video effects to videos playing on YouTube. That is, when watching any video you can click on the Youtube Video Effects icon and choose one of many effects to have a more unique video experience. The utility provides up to 54 filters (filters) for you to "selectively" select and enjoy videos in completely new styles than before. As the example in the picture is a testament to this, the video effect has completely different changes.

Having fun!
