How to add fonts, change beautiful fonts for iPhone keyboard. Not as highly customizable as Android, changing fonts is difficult. However, the Fonts app on the App Store can help you change the font style on the keyboard and can be used on messaging apps, social networks like Messenger, Zalo ...

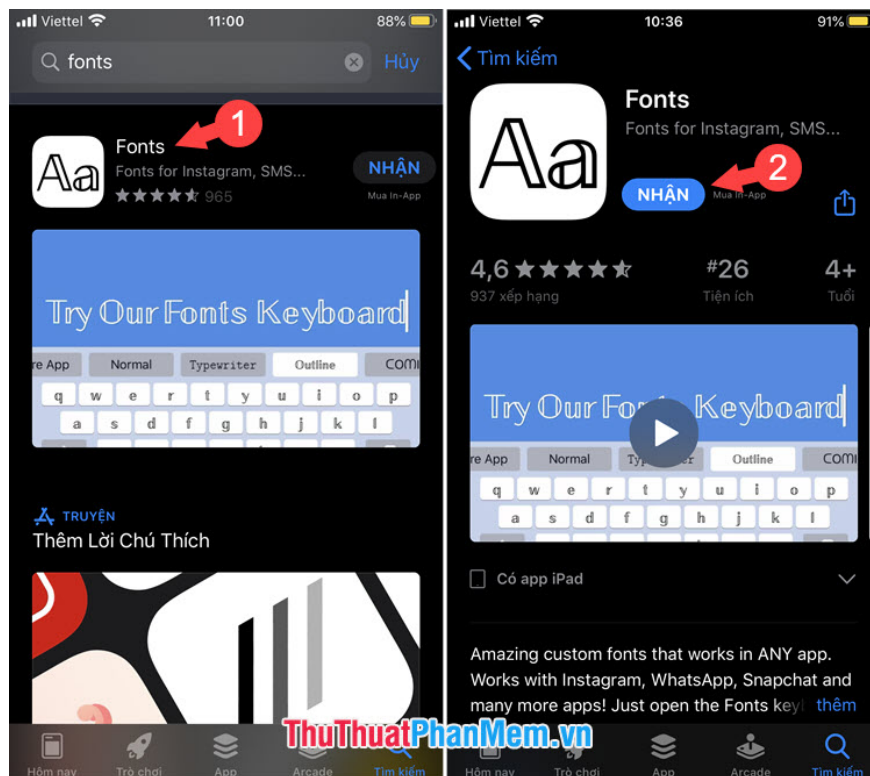

Not as highly customizable as Android, changing fonts is difficult. However, the Fonts app on the App Store can help you change the font style on the keyboard and can be used on messaging applications, social networks like Messenger, Zalo . With this application, you can bring something new instead of the default monotonous fonts.

Following are instructions for changing fonts on the iPhone keyboard. Please read along.

Step 1: You access the link <https://apps.apple.com/vn/app/fonts/id1454061614>

You touch the **Fonts (1)** and **Get (2)** apps to download.

Note: **Fonts** application does not yet support Vietnamese and only supports a limited number of fonts. To use the entire font, you must purchase an advanced font pack in the app.

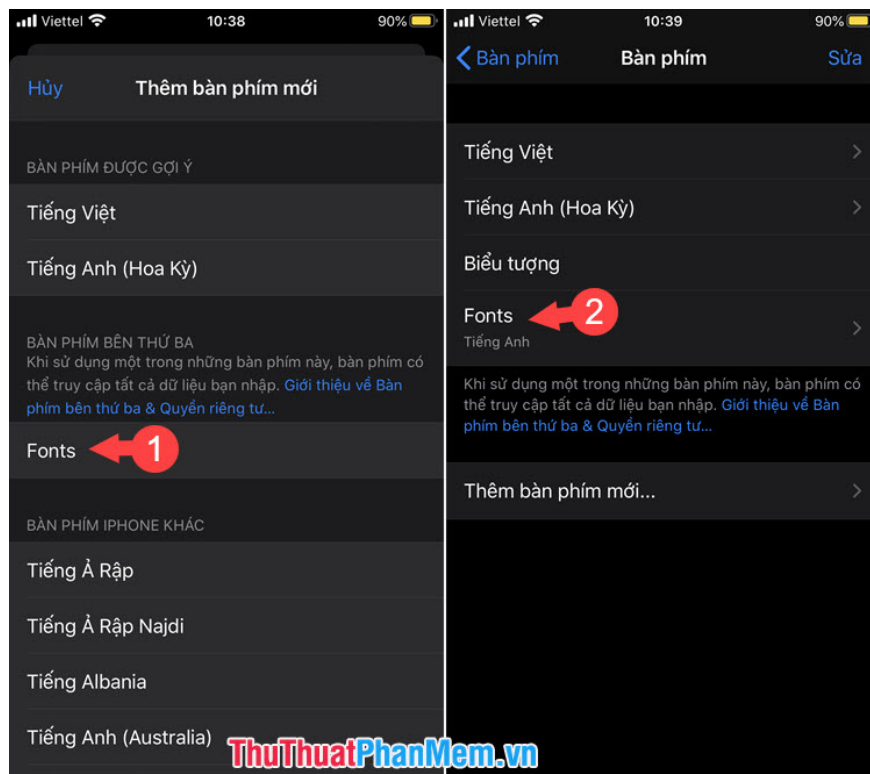

Step 2: After downloading, you do not need to open the **Fonts** application. Next, go to **Settings** => **General settings (1)** => **Keyboard (2)**.

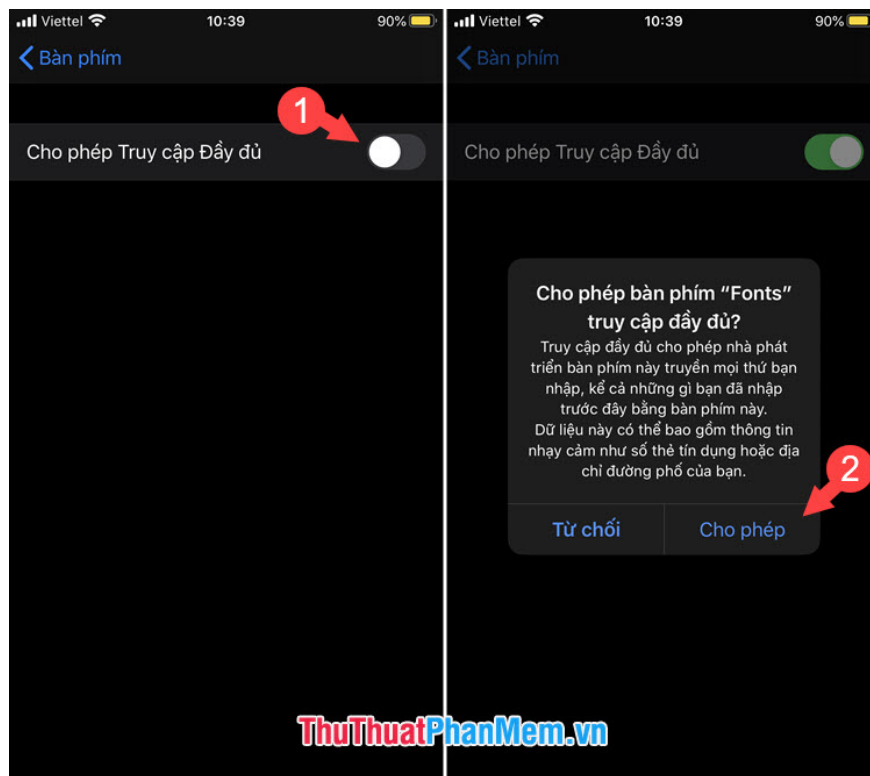

Step 3: Choose Keyboard (1) => Add new keyboard (2) .

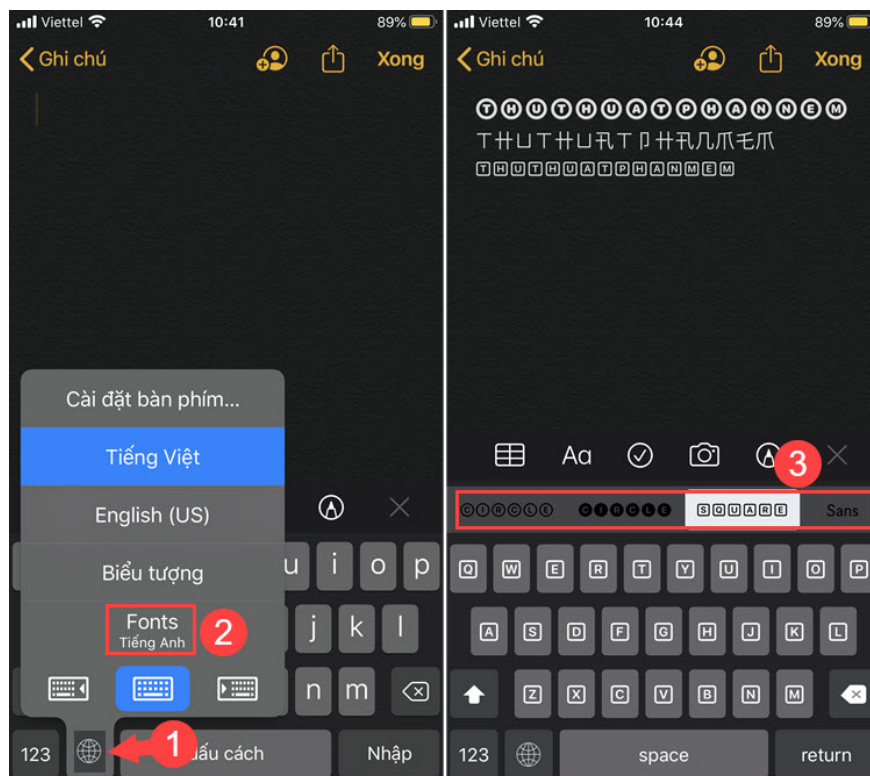

Step 4: Choose Fonts (1) to add a new keyboard. Then, you click on the Fonts keyboard (2) again in the keyboard list.

Step 5: You turn the switch **Allow Full Access (1)** => **Allow (2)** .

Step 6: Once installed, you can use the new font. While entering text, you touch the globe icon (1) in the keyboard => select **Fonts (2)** . To switch fonts, touch the desired font in the upper part of the keyboard (3) .

Although **Fonts** does not yet support Vietnamese, with unique and interesting font samples, **Fonts** will surely bring a unique and interesting experience when using iPhone. Good luck!
