

How to add iPhone lock screen effect

If you want to create more screen lock effect iPhone can install LockAnim tweak with jailbroken devices.

Have you ever tried adding effects when locking your iPhone screen, such as screen rotation, screen cracking, . or not? Refining LockAnim for jailbroken iOS 11 devices will add effects when you lock the screen. Special tweaks do not require users respring the device, the operation that most tweaks need to perform. You can choose the effect types in 10 screen lock effects that the tweak provides. The following article will guide the iPhone screen lock effect.

2. Unlock iOS 10 screen is much simpler with 3 ways
3. How to display the weather on the iPhone lock screen

Instructions for creating iPhone screen lock effect

Step 1:

We access Cydia and then click on the Sources tab. Then click on the Edit or Add item then add the <http://repo.hackyouriphone.org> repo. Click **Add Source** to add a repo.

Then click on the **Search tab** and then enter LockAnim tweak to install tweak to the device.

Step 2:

After installation is complete, go to **Settings** and then click on **LockAnim** . First of all we need to push the horizontal bar to the right at **Enabled** to activate tweak.

Next **Animation** will have a list of lock screen effects to apply on iPhone. In the list click on **the screen effect** when locking iPhone to use. Back to the interface we can **adjust the speed of displaying the screen lock effect** with the horizontal bar below. If you want to return to the default iPhone lock screen, no effect then click **Reset settings** below.
