

# How to add multiple photos to Facebook and Messenger Story

Life is full of interesting stories and often wants to share them on social networks. But sometimes, everything is not expressed by just one photo or video.

Life is full of interesting stories and often wants to share them on social networks. But sometimes, everything is not expressed by just one photo or video.

Although Facebook and Messenger story offer different features, a story posted on this app will automatically appear on the other application as well. The benefit of this is to help users not to post the same content to another platform. But what if you want to add a second photo or video to your story? How to do that?

Today's article will show you how to add photos or second videos to stories on Facebook and Messenger.

## Add multiple stories to Messenger and Facebook Story

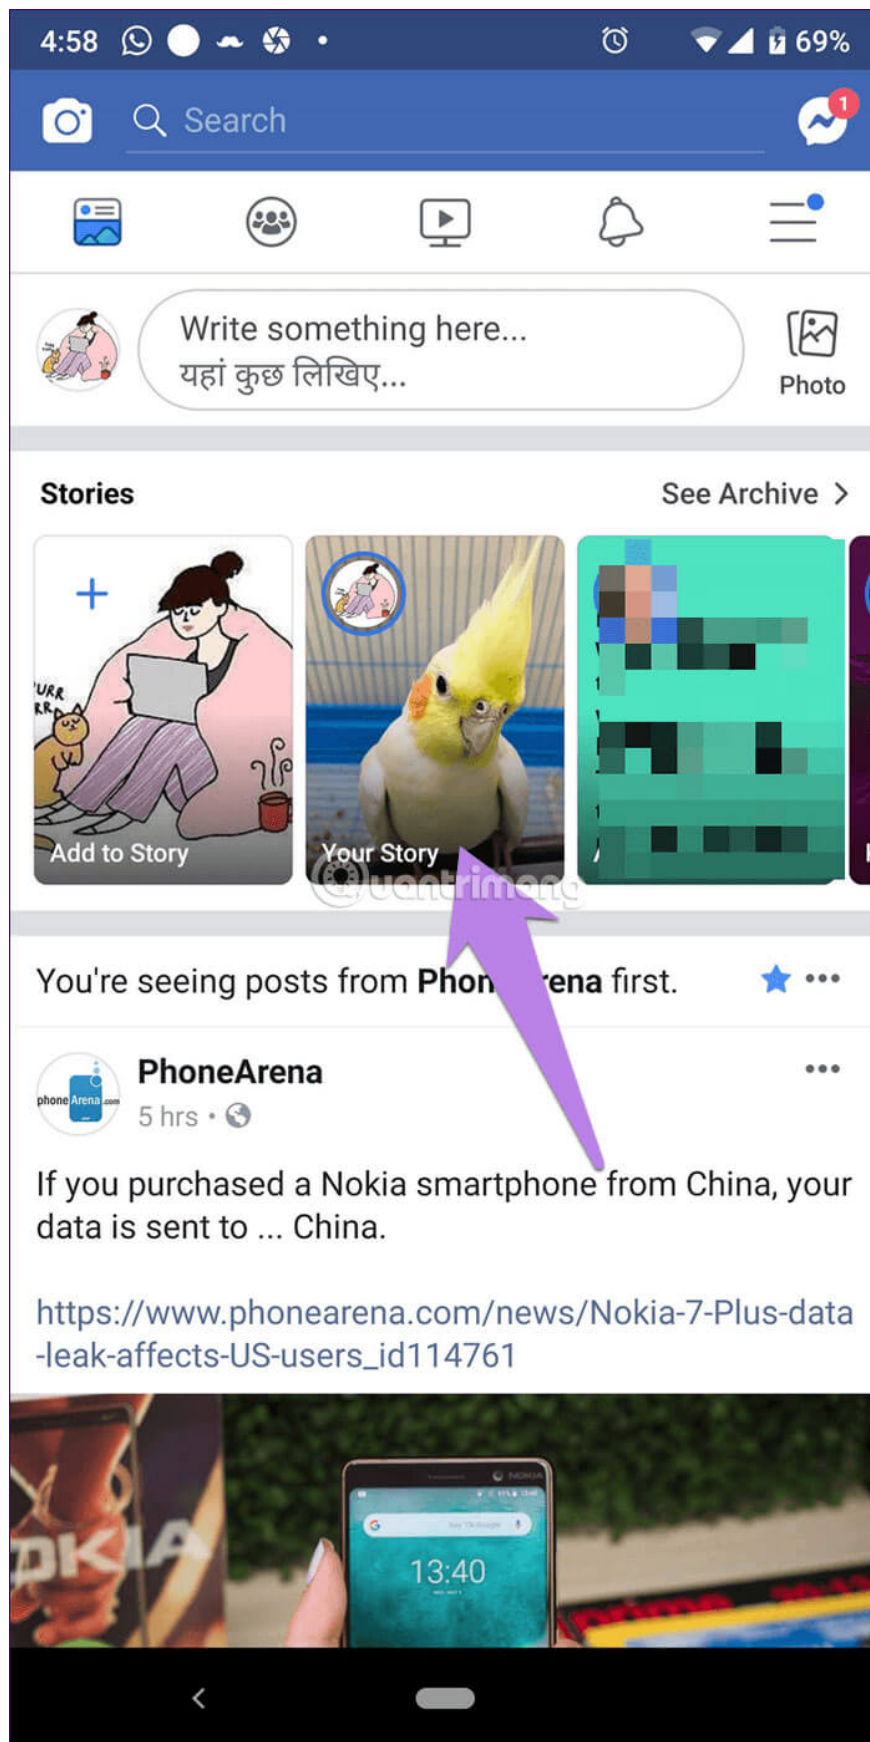

1. Add the second image on Facebook Story (Mobile Application)
  1. Method 1: Use the Add to Story button
  2. Method 2: Use the Add button from the posted story
  3. Method 3: Use Facebook camera
2. Add multiple stories to Facebook Story (PC)
  1. Method 1: Use the Your Story option
  2. Method 2: Add from the Create Post box
3. Add more stories on Facebook Messenger
  1. Method 1: Use the Your Story option
  2. Method 2: Use the camera of Messenger
4. How to view multiple stories
5. Additional tips 1: Add a Facebook camera shortcut to the home screen
6. Additional tips 2: Change the privacy settings of Facebook Story

## Add the second image on Facebook Story (Mobile Application)

There are three ways to do this.

### Method 1: Use the Add to Story button

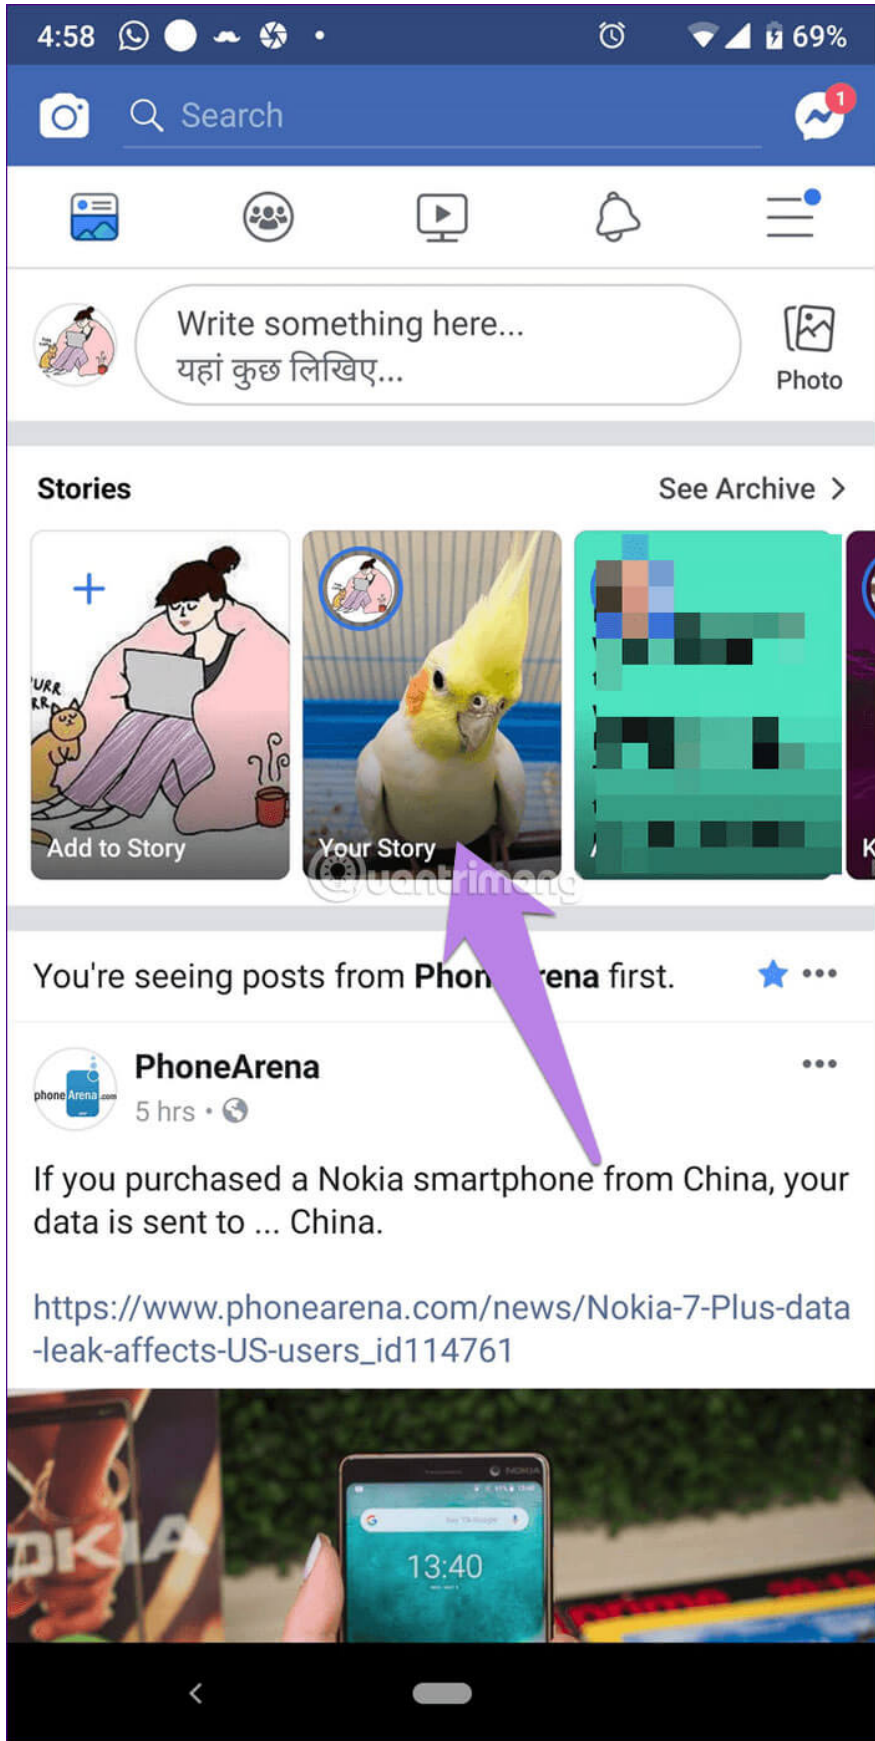

When you add the first image or video to your story, return to the main **Facebook** application screen . You will see the old **Add to Story** button still there. Touch this button to add a second photo and post it as you did for the first photo. Similarly, repeat the process if you want to add more photos.

**Method 2: Use the Add button from the posted story**

While viewing the posted story, if you decide you want to add more photos, Facebook also offers the option to do this.

To do so, open the posted story by clicking **Your Story** on Facebook's home screen. Then click the **Add** button at the end of the posted story.

Add

Highlight

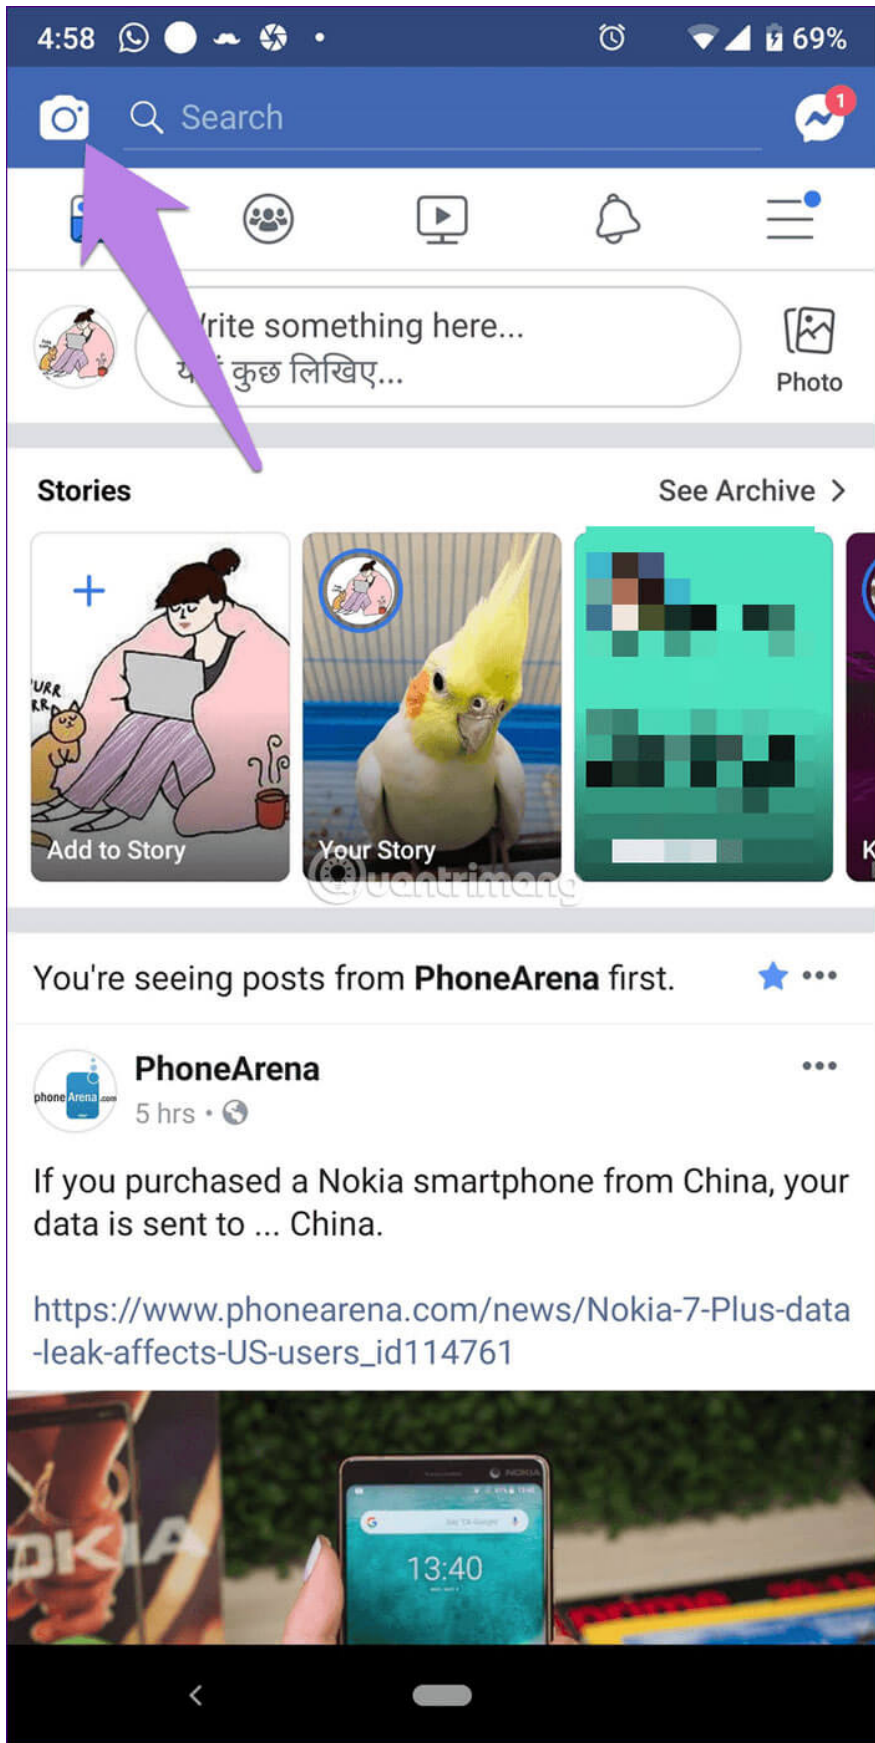

**Tip** : Pay attention to the **Highlight** icon in the screenshot above. Similar to Instagram, you can also use **Story Highlights** (photo album where you can arrange stories in different folders by content) on Facebook.

Take a new photo or upload to an old photo by clicking the **Gallery / camera roll** icon next to the capture button and posting it.

**Method 3: Use Facebook camera**

Another way to add more stories is to use Facebook cameras. To do that, click the current camera icon in the upper left corner of the Facebook application. Take a new photo or choose a photo from the gallery. Then, click on **Your Story** option to share directly into the story or click the **Share To> Your Story option** (on the next screen).

# Add multiple stories to Facebook Story (PC)

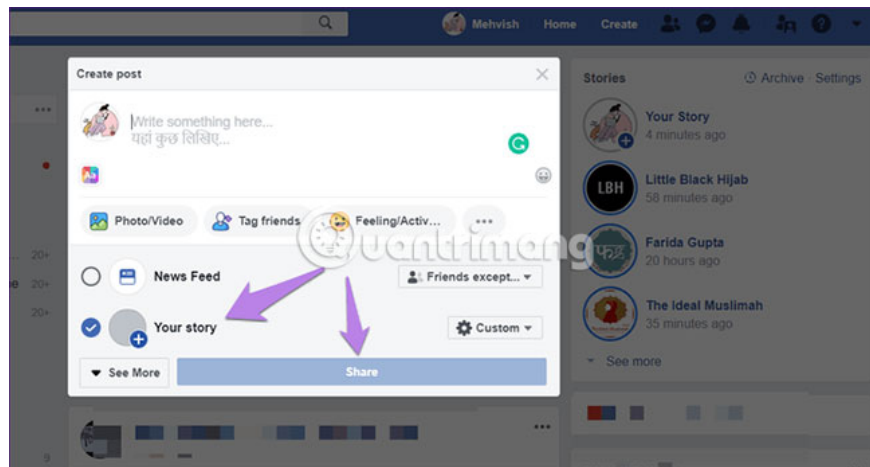

There are two ways, apply to desktops and laptops.

## Method 1: Use the Your Story option

Open the Facebook website and click the **Your Story** button . This will open the story you posted recently. On the posted story, you will see the **Add to your Story** button. Click that button.

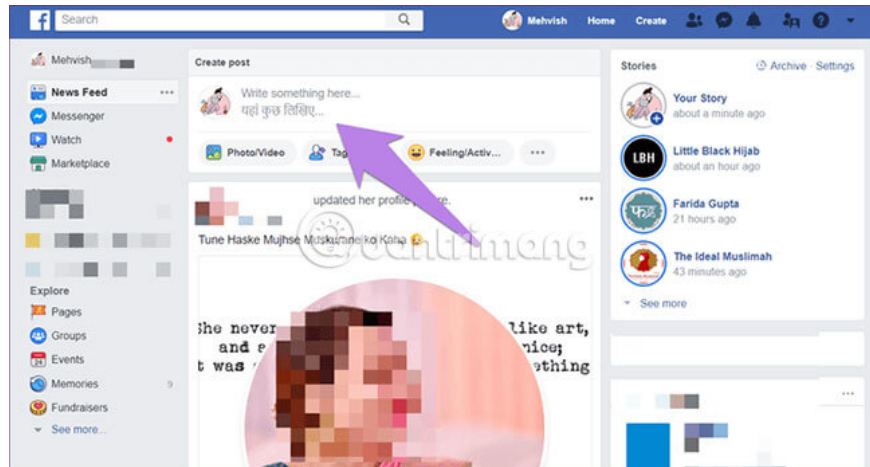

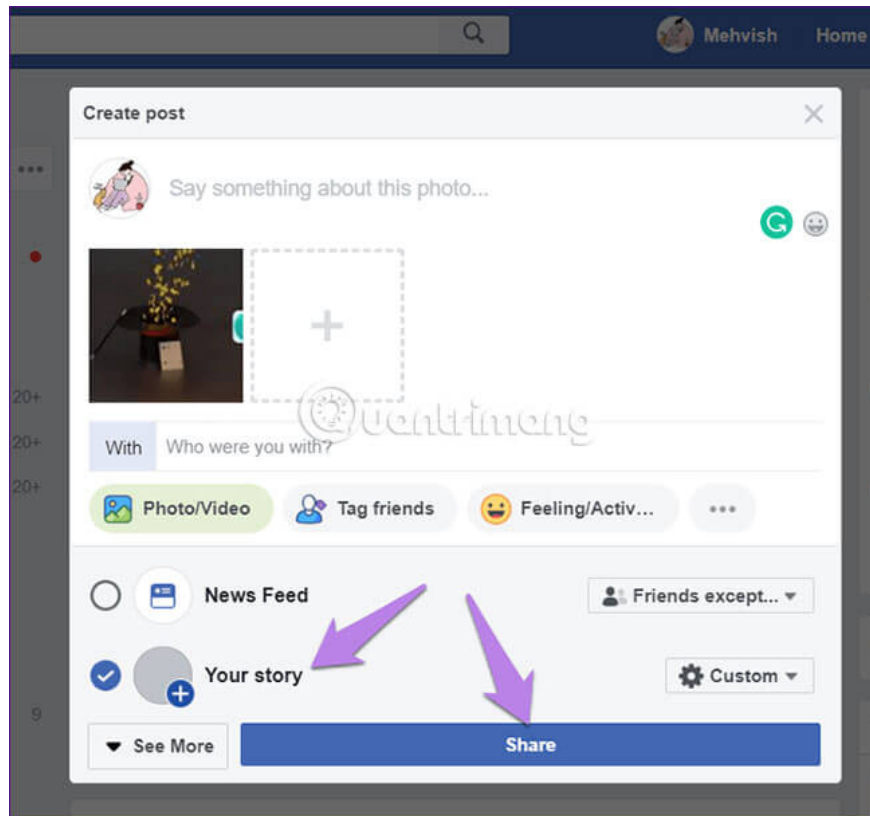

Facebook will take you to the **Create post** window . Now add a photo and press the **Share** button . Make sure **Your Story** is selected instead of **News Feed**.

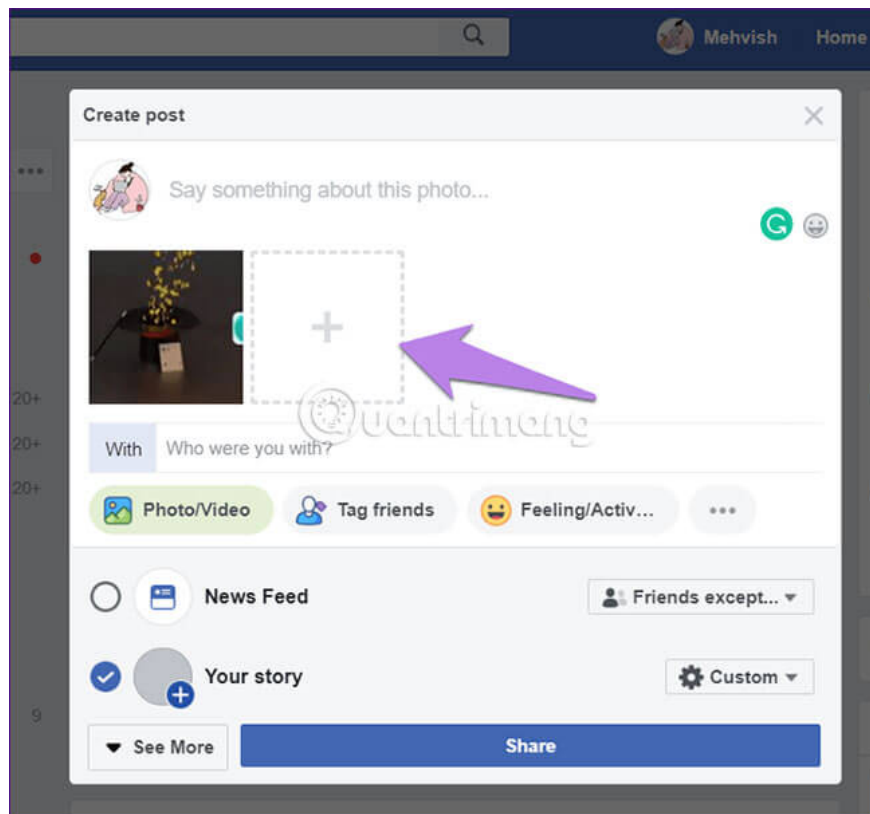

## Method 2: Add from the Create Post box

You can add multiple stories without opening your published stories. To do that, click on the status box or the 'Write something here' content area. A pop-up window will appear. Now add a photo and select the **Your Story** option . Then press the Share button. If you choose **Newsfeed**, Facebook will post it on your wall. So be careful.

Using this method, you can add multiple images at once to your story. Please select multiple photos instead of just a single photo or just click the plus symbol (+) next to the selected image.

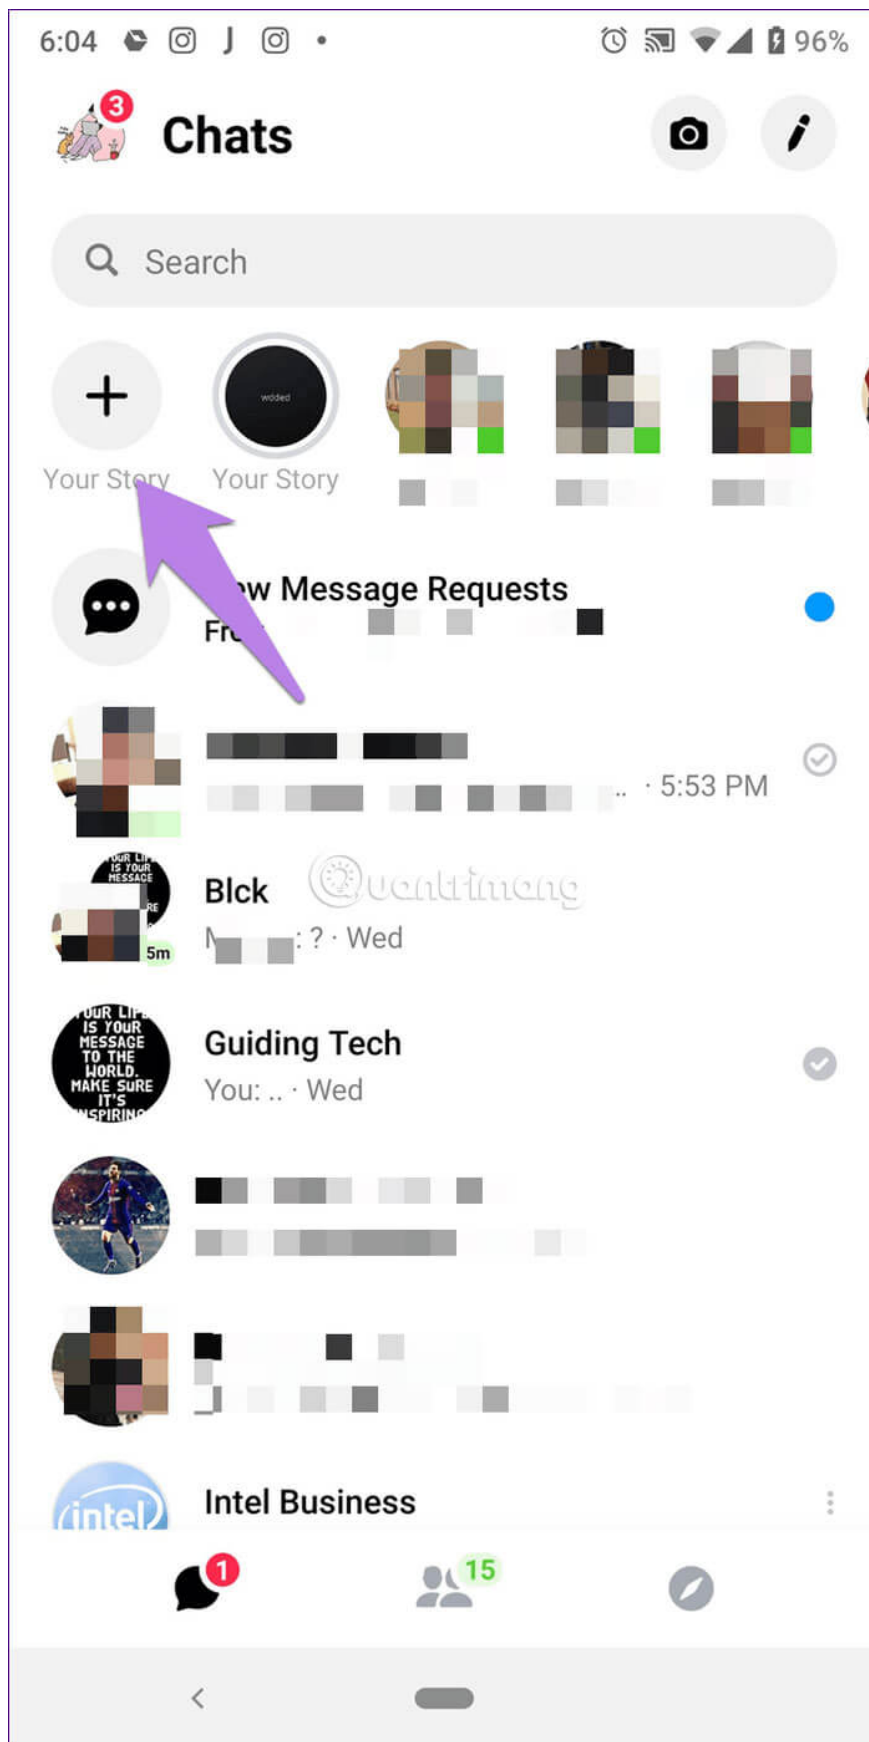

# Add more stories on Facebook Messenger

If you use Messenger to add stories to Facebook and Messenger, here are two ways to post multiple stories from the Messenger application.

**NOTE** : The desktop version of Messenger does not support stories.

## **Method 1: Use the Your Story option**

Whether you posted the first story from Facebook or Messenger, you will see that **Your Story** has a plus sign when you launch Facebook Messenger. Touch this plus sign. Then use the camera button to take a new photo or select an existing photo. Finally, post that image.

**Method 2: Use the camera of Messenger**

Launch the Messenger app on your phone and click the camera icon at the top. Upload the story and post it as usual.

## **How to view multiple stories**

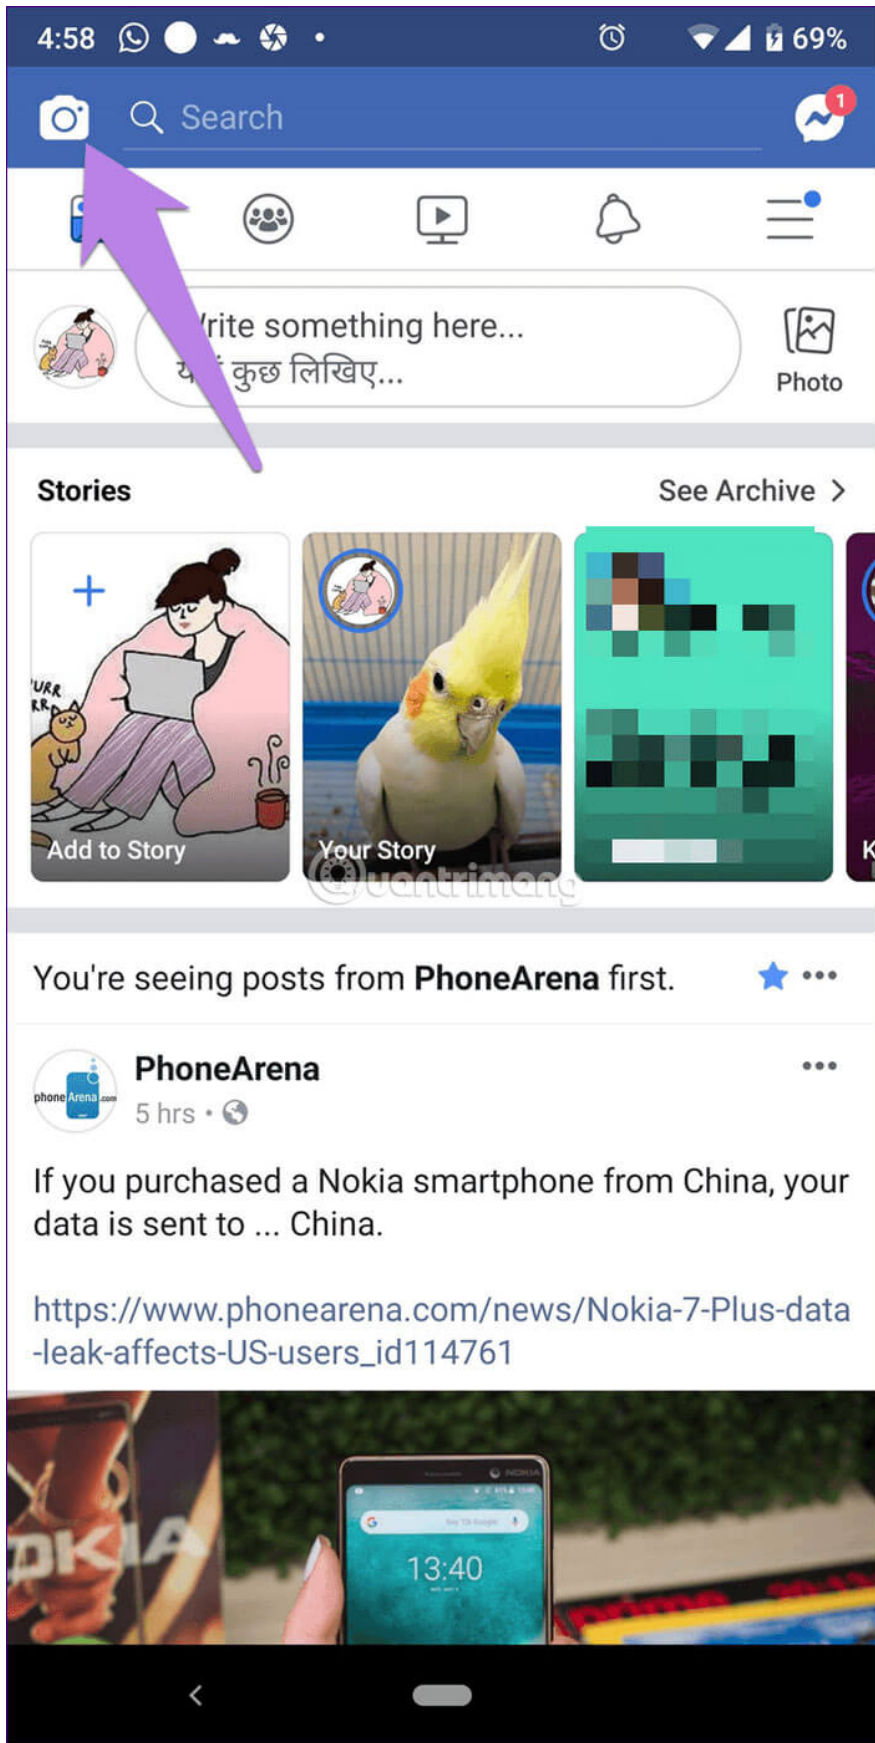

When you add more stories on Facebook or Messenger, they all play as slideshows in the order you added them. Currently, you cannot change the order of stories after posting them. To quickly move the story, touch the right edge of the screen to move to the next story. Click on the left side to return to the previous story.

## **Additional tips 1: Add a Facebook camera shortcut to the home screen**

If you like the effects and filters of your Facebook camera, you can add shortcuts on your phone's home screen for quick access as follows:

Step 1: Launch the Facebook application on your phone.

Step 2: Touch the camera icon in the top left corner. Then click the installation icon at the top.

Unlike Instagram, which provides a unique way to add multiple photos to a story, both Facebook and Messenger lack this feature on mobile apps. But in return, Facebook and Messenger offer many other interesting features in stories. For example, Messenger stories allow you to apply face filters on old images along with many other features.

Hope you are succesful.
