

How to add the Instagram curse filter

You can add the Instagram Curse Filter according to the instructions in this article, along with some other attractive filters such as pokemon filters, harry potter.

The trend of Instagram curse is now a new trend that attracts a large number of Instagram users.

Specifically, users will have instagram curse filters with names like Which Disney Character Are You? (Which Disney character are you?) Or Which Pokemon Character Are You? (Which Pokemon character are you?) Or Which Harry Potter Character Are You? (Which character are you in Harry Potter?).

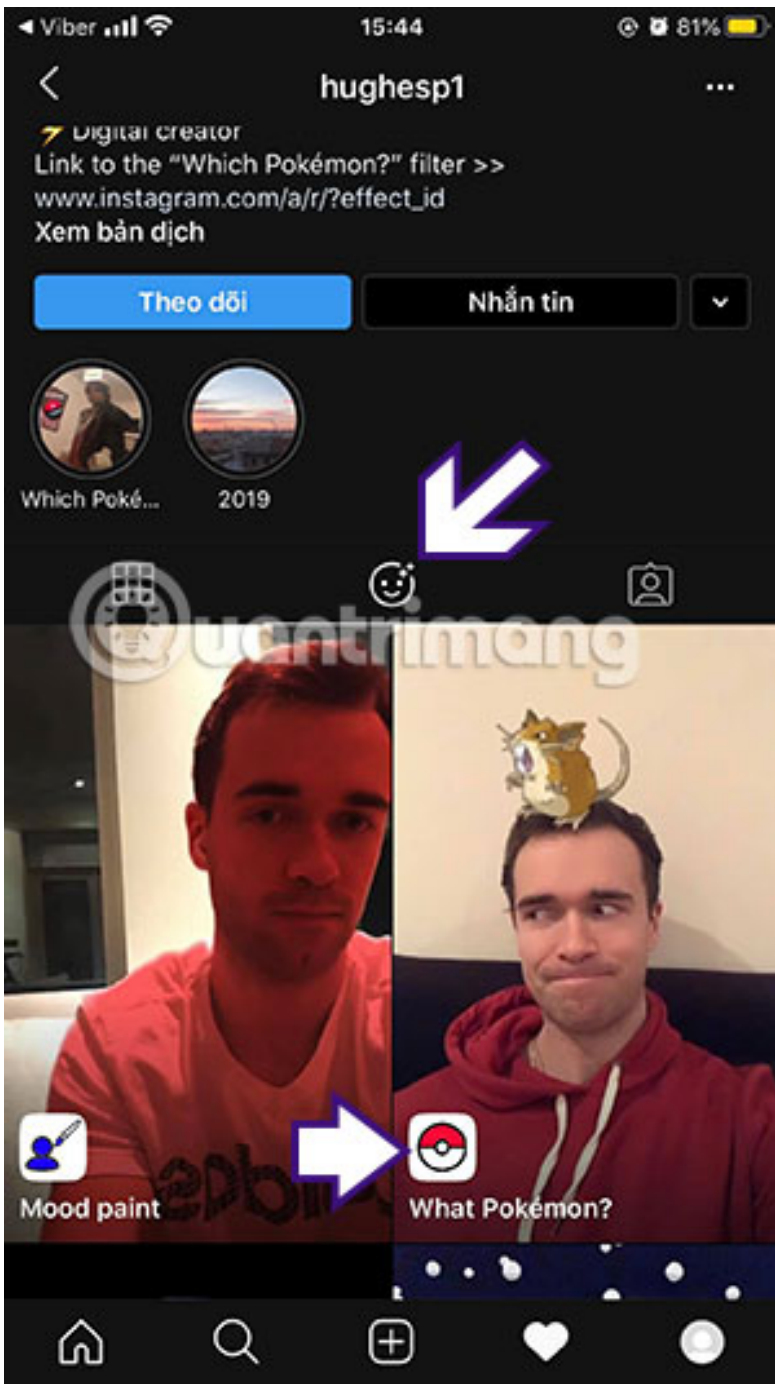

When selecting a filter, a corresponding icon will appear above your head and you will be randomly selected and posted to your stories. The following tutorial will help you add instagram curse filter and use instagram curse filter.

How to add the Instagram curse filter

Step 1: First, you need to go to the link of the characters that created this curse filter because Instagram does not have this filter set on stories according to the link below.

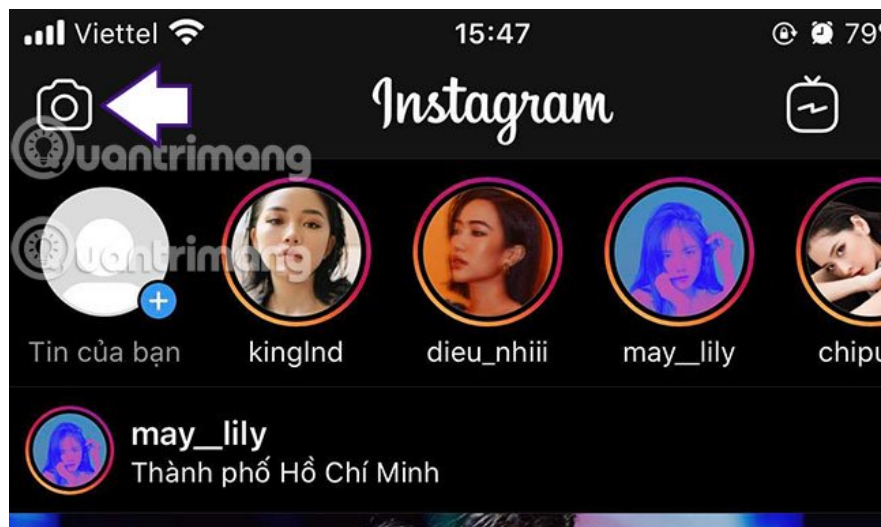

Each person will have different filter and you can choose the filter you like. Then select the smiley icon> select the filter you want to add to the stories and click save below.

1. Which Disney Character Are You?
2. Which Pokemon Character Are You?
3. Which Harry Potter Character Are You?

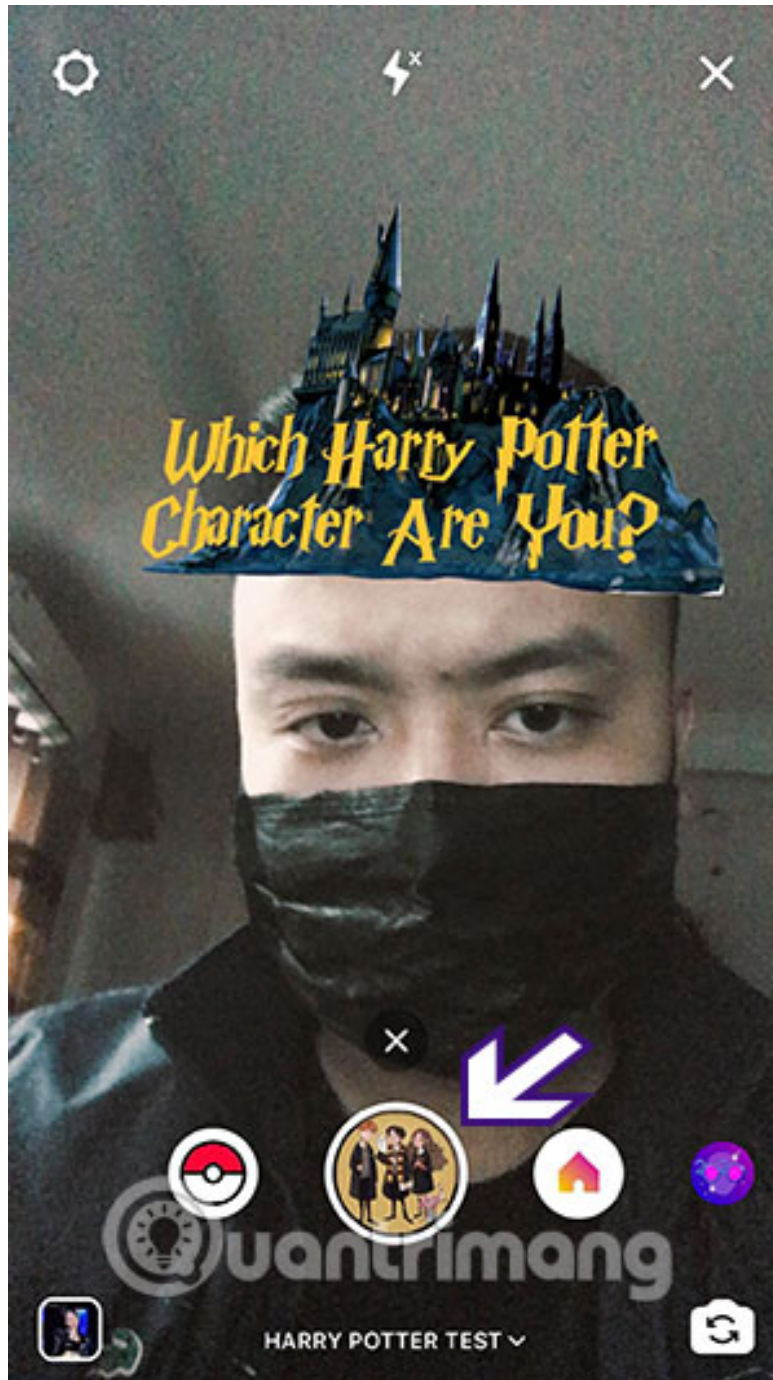

Then go to the main interface, select Stories.

Step 2: Here, select the filter you have previously added from the profile. Note that let the icon appear on your head, then press and hold the shutter button below, wait for a while to finish selecting the character.

If you don't see the icon, turn on the rear camera and go back to the front camera. Then just post to your stories or share with friends only.

These filters have been used by a lot of celebrities and are currently a trend on Instagram. And you, have you tried to see yourself are any celebrities yet?
