

How to add unsupported cards to Apple Wallet

Apple Wallet will only add international credit and debit cards and other cards will not be added. However, when you install the Pass2U app, you may add unsupported cards to Apple Wallet.

There is no limit to the number of cards or categories when adding via Pass2U to Apple Wallet. The article below will guide you through adding unsupported cards to Apple Wallet.

Instructions for adding unsupported cards to Apple Wallet

Step 1:

First, install the Pass2U application according to the link below.

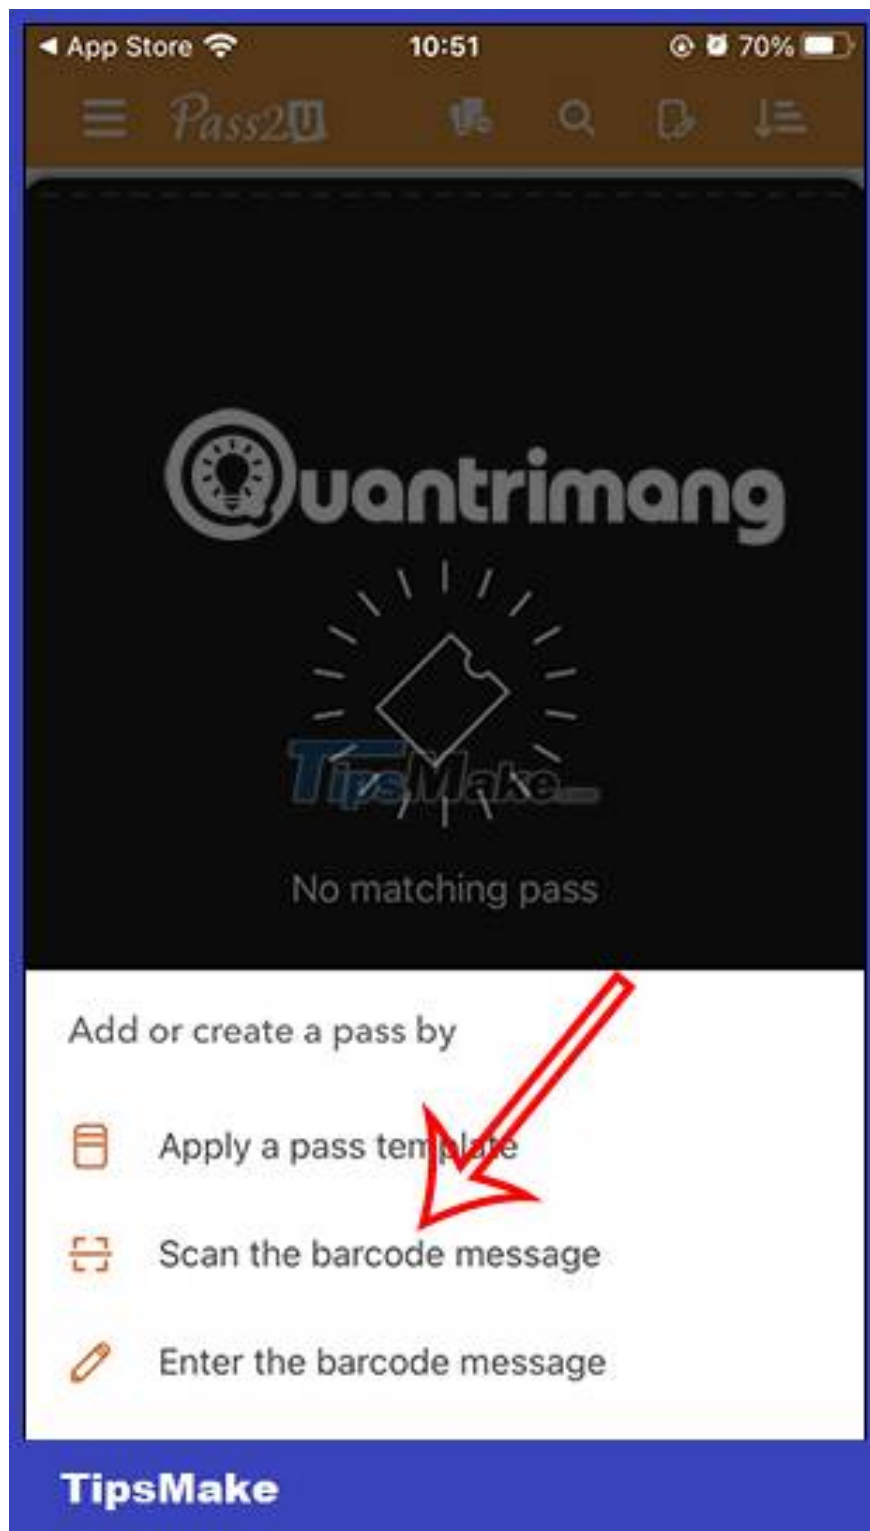

Next at the application interface, click on the plus icon to add a card. Then the user presses Scan the barcode on the card to scan the card code.
