

How to add zoom slide bar to the browser on macOS and Win10

Zoom for Safari is an application that helps add a slide bar (including a slider and zoom buttons) to zoom in / out the web interface on browsers.

Zoom for Safari is an application that helps add a slide bar (including a slider and zoom buttons) to zoom in / out the web interface on browsers. This is a completely free application on macOS, compatible with Safari, Chrome, Firefox, Opera, .

The outstanding features of Zoom for Safari:

1. Zoom with the slider with the zoom factor ranging from 1 to 400.
2. Scroll and zoom the web interface by holding down the Z button and moving the roller up / down on the computer mouse.
3. Zoom all open web pages if you enable the Zoom all together In / Out option.
4. Save the web page with the previous zoom value.
5. Manage all Zoom for each site.
