

# How to adjust This day is old on Facebook

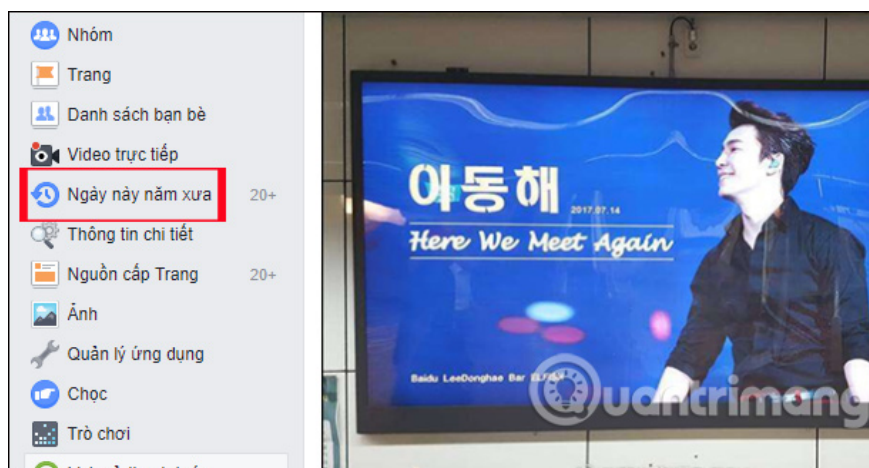

On This Day is a feature on Facebook that allows users to review information and events that appear on Wall on the current day of the previous year.

On This Day is an extremely interesting feature on Facebook. This feature will help users remember the memories of the right days in previous years, when you post those events on Wall Facebook. However, aside from past good memories that Facebook will repeat, there will be some events that we don't want to remember, and don't want to appear on Facebook.

Therefore, Facebook has added options that allow users to customize the On This Day feature, hiding the memories that do not want to appear so that your Facebook will only recall happy and happy memories. It looks. How to customize the On This Day feature on Facebook will be in the article below.

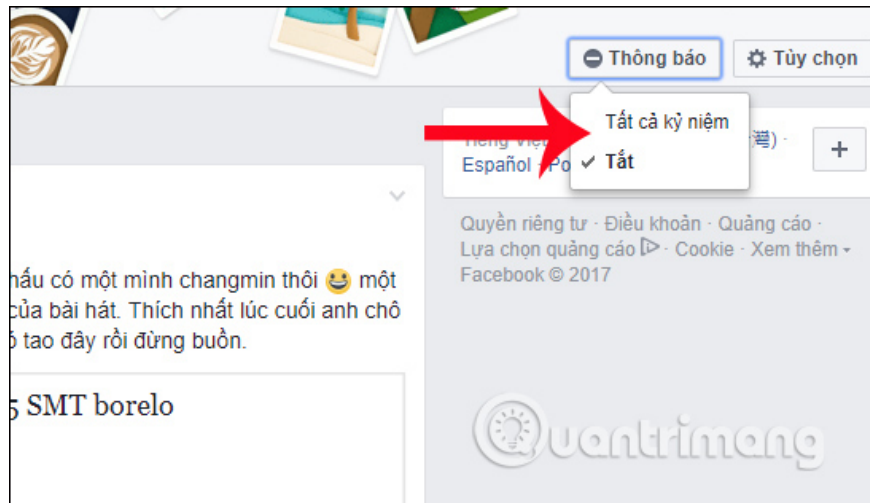

## Step 1:

First you need to access the On This Day feature on Facebook. With the Facebook app for Android, iOS, On This Day will be on the left side of the interface. As for the web-based Facebook, in the menu list on the left side of the interface click on this **Day in the old year** , as shown below.

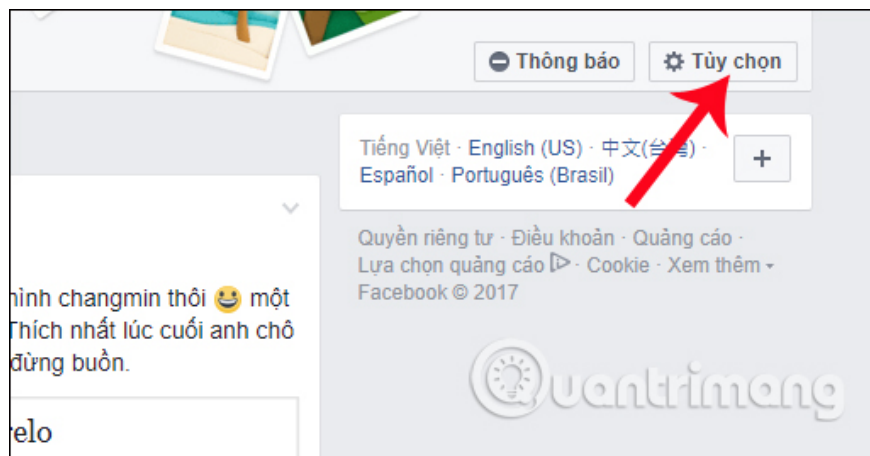

## Step 2:

Switch to the interface on On this day, here you click on the **Notifications** button. There will be 2 options to turn on the Notification (All Memories), or **Off** to not receive the notification (Off).

### Step 3:

Next to customize this day In the old days, click on the **Custom** button (Preference).

The dialog box **Options** On This Day Preference is now available on the **Options** dialog box. Here, the Filter (Filters) will have 2 types of filters for users to customize the display of anniversaries according to their friends account on Facebook (People) and filter by Date range (Dates).

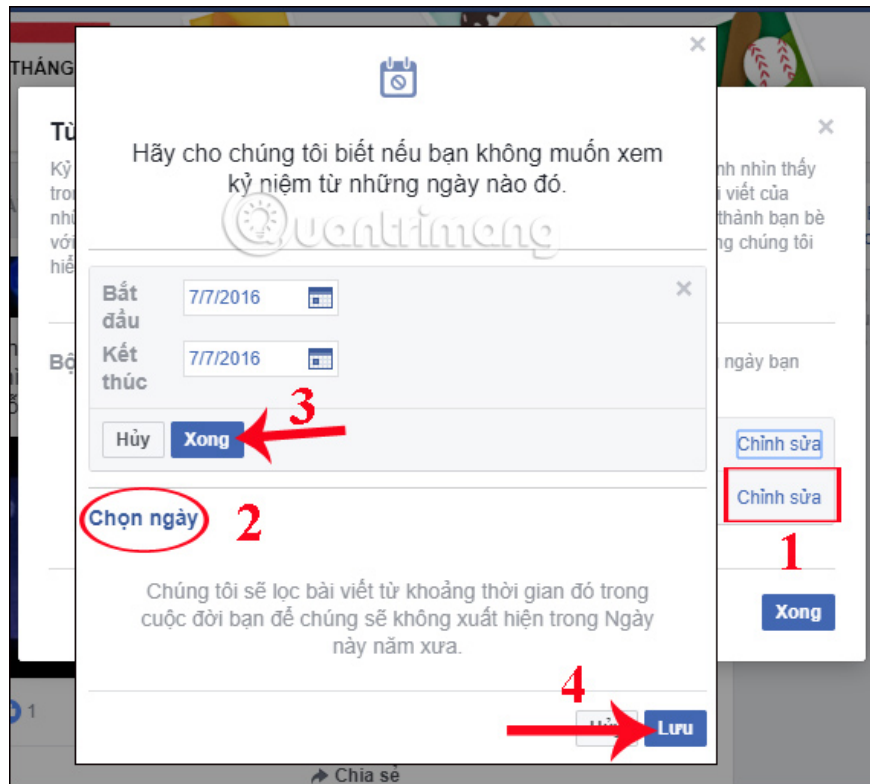

With the Facebook account you don't want to appear on On This Day, click on **Edit** (Edit). Then, enter your friend's name in the white box and click **Save** below.

Next to the memories for a period of time you don't want to repeat, click Edit in the Date range. Then press **Select date** (Select Dates) and then enter the date range in the calendar above, press **Done** (Done) to save.

Facebook also supports users for more days if they don't want to appear on On This Day. To add a date, click on Select date. Finally click **Save** (Save) below to save.

#### Step 4:

After the editing hides the memories that you do not want to repeat on this day in the old days of Facebook completed, press the **Done** button (Done) to save any changes.

In case you want to delete a friend or delete the set date, just go to the corresponding item then click the Edit button (Edit). Next, click on **the X icon** to delete the created settings. Click **Save** (Save) to save the new changes.

Above is a detailed tutorial on how to customize On This Day on Facebook. With this customization, users will change the default settings on Facebook to repeat all the memories that users have posted on Wall. Instead, you can choose to display or hide any memories with your friends, or choose the time period for Facebook to filter posts.

I wish you all success!
