

How to automatically delete the recording file in Voice Memos on iPhone

Voice Memos has been completely new designed in iOS 12. This app is added to more intuitive and extremely useful features. One of those features is the ability to change sound quality and automatically delete recordings.

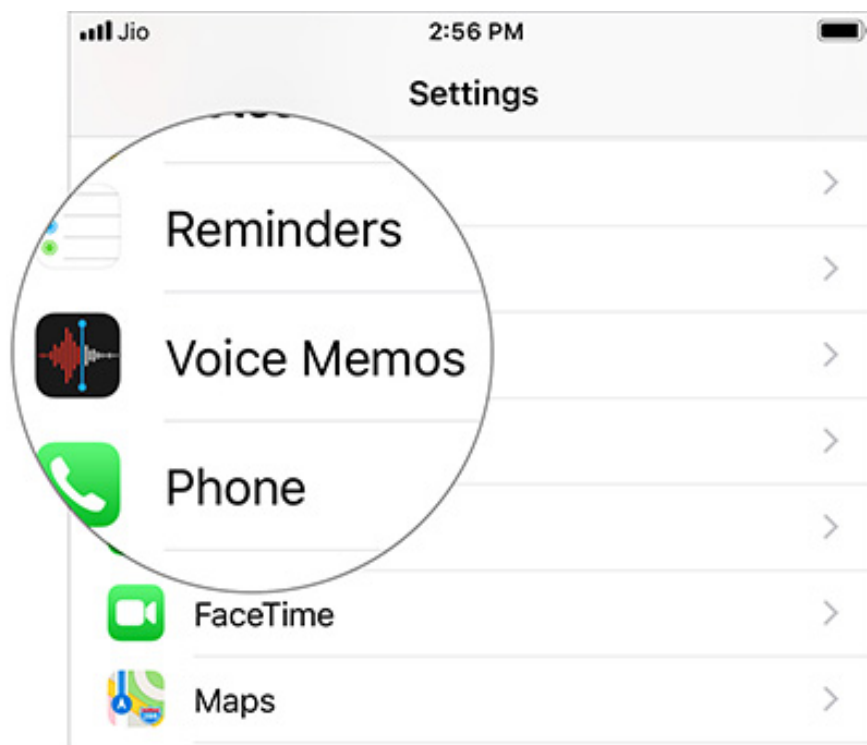

Voice Memos has been completely new designed in iOS 12. This app is added to more intuitive and extremely useful features. One of the features is the ability to change the sound quality of audio files recorded on Voice Memos and automatically delete the recordings.

With the ability to delete recordings, you can choose the time options so that the recordings will be automatically deleted. For example, you can choose to delete them immediately or after a certain number of days. Conversely, if you want to keep these recordings, you also have the option to do that.

How to automatically delete the recording file in Voice Memos on iPhone

Step 1. Open Settings on iPhone device.

Step 2. Now, scroll down and click **Voice Memos** .

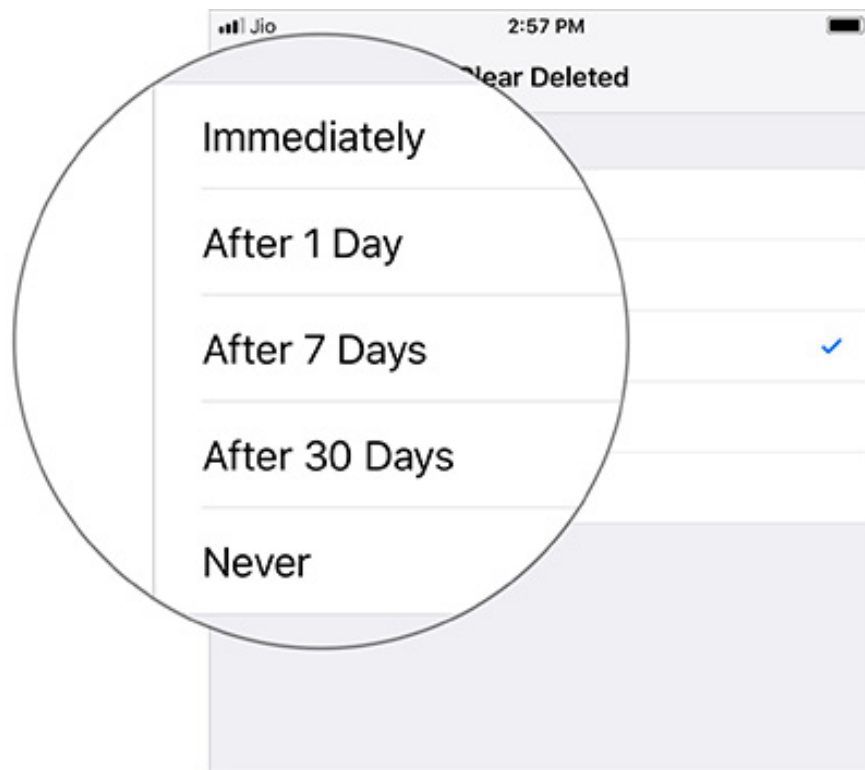

Step 3. Next, touch **Clear Deleted** .

Step 4. Here you have many options to choose from:

1. Immediately - Immediately
2. After 1 Day - After 1 day
3. After 7 Days - After 1 week
4. After 30 Days - After 1 month
5. Never - Never delete

Choose the option that suits your needs. That's it, now your recordings will be automatically removed when the time is set.

iOS 12 has been appreciated for the safety and smoothness of the new operating system. Some preeminent features are "Siri Shortcut", "Screen Time" and "Grouped Notifications".
