

How to block and unblock users on Instagram

If you don't want a specific user to be able to access and view the images you post on Instagram. Plus, you don't want to set up your Instagram account in private mode. So the only way is to block that user.

Instagram is a place for you to watch users who like to share their photos for everyone to see and comment on. The place where you click the buttons to track someone you feel like the person, or simply share the beautiful pictures often and you want to keep track of their "works".

But if you no longer like users on Instagram, you can block them from seeing your photos and you don't want to see the photos they post. How to block users on Instagram in just a few simple steps that you can follow the instructions below.

1. How to post photos to Instagram from a computer
2. Instructions for using Instagram on computers
3. How to delete a photo, or multiple photos on Instagram?

1. Instructions to block and unblock users on Instagram

Step 1: First go to the profile of the person you want to block, click the three dots icon in the upper right corner, then select Block in the menu.
