How to build a squad and map items for Katarina DTCL 9.19

Assassin squads

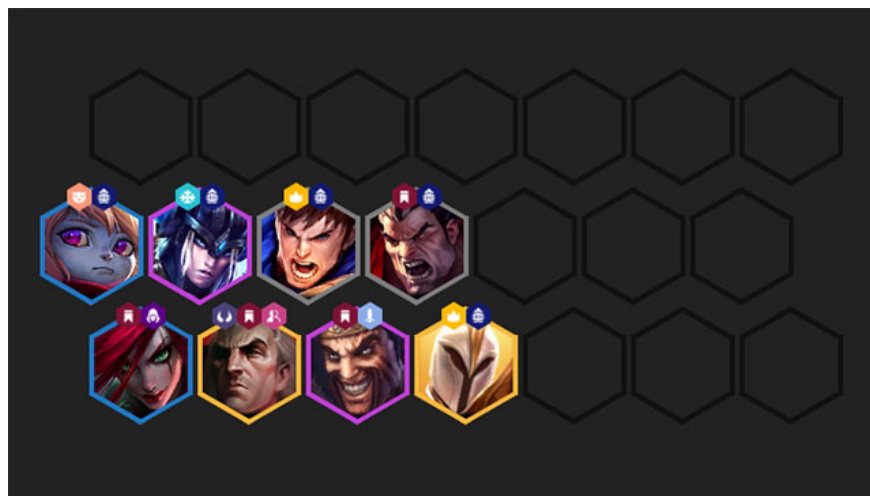

The Shinobi has been buffed a lot after getting continuous buffs. Only with Angel Armor, Kennen can become the main resistance of the team. With critical and deadly damage from an assassin squad, Katarina only needs to earn the Wizarding Gloves to create a huge amount of damage from her skill.

This is also the team considered to be the strongest that gamers can build for Katarina. In addition, she also receives an additional 100% damage and the resistance from the Knight is also a factor that helps Katarina have a longer life to cast at least 1 time.

This is a fairly comprehensive way to build a team and makes the opponent very uncomfortable, especially when the way to overcome this team is not much. Unless the opponent has a very strong team composition with a large amount of control, Katarina will be able to defeat Katarina in the first place. Where it still depends on the dignity of the player because in some situations Katarina can still use the skills in the wrong place.

Empire - Knights

A fairly strong squad and also relatively easy to play in the current DTCL 9.19. Gamers only need to make sure that Katarina can use her skills as soon as she can approach the enemy team with 80/85 mana.

In the early game, the squad of Knights - Nobility are extremely golden 2 generals easy to upgrade to 2 stars. So for now try to perfect at least 4/6 Knights with Katarina as the main hero.

This is also a strong squad when the player reaches level 8, now equipped with the Knight Oath and the team's main damage will be Draven and Katarina. Accompanied by a buffalo buffalo of Knights.

Some small notes that players need to keep in mind when building Katarina squad

Put Katarina in the right position so she can dodge champions with Dragon Claws.

Put the squad down in the second row to make it easier for Katarina and the Assassins to attack behind.

Note that Katarina's skill when using the Wizarding Gloves will almost no effect against the Double Sword Dance.

Try to take advantage of the power of Katarina when version 9.19 is at a time when the Yordles have a lot of "acting ground". Accompanied by many items that increase the evasion rate at the present time.

Obviously, the selection options for Katarina above are not too difficult to make, but you also need to note the location of her and mana map so she can use her skills quickly. Best. That way, you can win.
